

MACAA Head Start

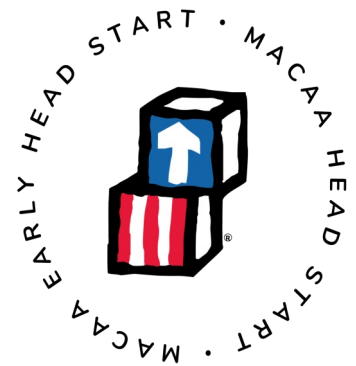

provides **free** high quality preschool education.

Using the Creative Curriculum, our students participate in a wide range of educational activities designed to enhance school readiness. Other benefits to the program include health and wellbeing screenings, family support and parent education, student meals, and supportive staff.

The child must be three or four years old by September 30th of the school year they are applying for.

Head Start programs are first able to accept families:

- receiving public assistance including TANF, SSI, or SNAP
- experiencing homelessness
- whose child is in foster/kinship care
- with income below 100% Federal Poverty Level
- * 35% of our enrollment can be between 101-130% FPL
- * 10% of enrolled students can be over 130% FPL, though accepting over 200% FPL is rare. Children with disability concerns or diagnoses are prioritized for over income placements.

Apply online at go2grow.com/gca

Classroom Location	Hours	Transportation
