We have been lucky enough to have several community partners support Tapestry over the past few months. I would like to take this opportunity to thank Miss Amanda from the Rutland Free Library for her continued support of our students. We always look forward to her visits and all she brings to the program. In addition, we have enjoyed visits from The Mint, as well as Zumba and Yoga enrichment programs. If you have the opportunity to visit these programs, please thank them for their service to Tapestry! ~Mrs. Gurney

### SUMMER ENROLLMENTS

Tapestry summer enrollment forms will be available soon.

Please note this summer students completing 2nd grade will move on to R.I.S for Summer Tapestry.

February is here!

January didn't offer us too much snow until the end, but we did manage to get in some sledding and snow play before it melted.

This month did not go exactly how we had planned with our two weather related closures, but now we seem to be back on track. Students had the opportunity to try Zumba and yoga, as well as just plain walking. All great ways to keep our bodies healthy. There was lots of cooking and games, visits from the Ms Cortney from the Mint and Ms Amanda from the Library. All in all, even with our closures, it was a very busy month.

Now that we are coming into February we are looking at even more activities. Northwest is hoping to attend a "Friendship celebration" at NE to reconnect with all of our former Tapestry mates from NE.

Of course there will also be more Steam activities, crafts, games and maybe even some more yoga. What a great way to keep the year going.

# IMPORTANT NOTES

Children go out to the playground every day. We do ask that children bring or wear, sneakers or other closed toed shoes to Tapestry. This is a safety issue.

With seasonal weather always changing, it is very important to have your child dress for the weather. Coats, snowpants, boots, mittens and hats are essential for outdoor play.
