John F. Kennedy Elementary
2022-2023 School Accountability Report Card
(Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview	By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC. - For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/. - For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/. - For additional information about the school, parents/guardians and community members should contact the school principal or the district office.
DataQuest	DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).
California School Dashboard	The California School Dashboard (Dashboard) https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.
Internet Access	Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

A Message from the Principal:

The Kennedy Elementary Annual School Accountability Report Card provides valuable information about our school's instructional programs, academic achievement, classroom materials, school safety, facilities, curricular programs, professional development and staffing. Understanding our school accountability report card can assist both our school and the community in ongoing program improvement. Kennedy Elementary is committed to provide a safe, caring, rigorous and motivating learning environment where students are actively engaged in their learning. Our school is dedicated to serving our students, parents and community through events, supports, and instruction. Instruction is based on the identified needs of our students. Ongoing evaluation of student progress and achievement helps us refine the instructional program so students can achieve academic proficiency. Staff and parents work together to create a virtual and physical learning environment that promotes academic and social development. We welcome any suggestions or questions you may have about the information contained in this report or about the school. Together through our hard work, our Kennedy students will be challenged to reach their maximum potential in college or career.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

The Kennedy Elementary campus was built in 2004. It is a beautiful facility with some great design concepts. The administration building and the Library building are located at the entrance of the campus. The library also contains two adjoining classrooms. There are four pod structures, each holding four classrooms connected by a center workroom, which has common teaching facilities for that pod. There are a total of 19 academic classroom on the Kennedy Campus. The Kennedy Center, our multipurpose/performing arts room, is also our cafeteria and is used for special events throughout the district. It has three adjoining classrooms , as well as, a stage for inside events and an outdoor stage for daily morning assembly.

Each year Kennedy is subject to Williams inspections by TCOE. Each year our school has passed the inspection for facility safety and academic materials.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments
(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	23	29	25	27	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results.   The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Our School Site Council, which includes parent members, and our ELAC provide advice and guidance for the school administration. We encourage parents to participate at special events, such as parent nights centered on helping children to be successful in school, parent conferences, our Harvest Festival, the Kennedy Read-A-Thon, Eagle Boosters, parent volunteers, field trips, as well as programs and celebrations throughout the school year. We have invited all of our Kennedy families to join us monthly for informational sessions covering drug awareness, bullying, online libraries for the family, Positive Behavior Interventions and Support, reading with children, and math games for the whole family. These sessions are scheduled one per month in the cafeteria. Our Eagle Boosters Club is a parent driven fundraising group which has goals to support students and staff by funding events and activities that are not supported through the regular school budgets.

If you would like more information about parent engagement opportunities and events, please contact Mrs. Del Rio at (559) 595-7300.

2023-24 School Safety Plan

The first goal of Kennedy Elementary is to ensure a safe campus. We have adopted, and are trained in, the district safety plan and have modified the procedures to meet the needs of the Kennedy campus. The staff and students participate in monthly emergency drills. Administrative staff members supervise our campus before, during, and after school. Classified and certificated personnel also supervise during the break and lunch periods. We have implemented a Positive Behavior Intervention Supports program identifying how students are expected to behave throughout the school. Kennedy's EAGLE expectations are to Eagerly Learn, Act Responsibly, Give Respect, Listen Attentively, and Exhibit Excellence. These expectations are the same for staff and students. The PBIS program shows students what it looks like to practice those expectations, and has put into place opportunities for students to be recognized for positive behavior. Kennedy has been recognized by the State of California as a "Platinum" school for our Positive Discipline programs. This year we expect to reach "Platinum" status. Kennedy has a school-wide anti-bullying policy. The Student Agenda/Handbook includes the Positive Behavior expectations, rewards, and the steps to correct inappropriate behavior.

Kennedy has added a crossing guard to assist students coming to and from school at our busiest crosswalk. Staff supervise the pick-up area each day after school. Our site is fenced and there is one open gate at the front of the campus where all visitors must enter. Classroom doors are locked during the day, and the School Resource Officer is available if needed.

Staff have developed a Code System for emergency response regarding student behavior. Support staff, including the psychologist, Special Education teachers and staff, County staff (IRC), and administrators are all connected via group text for immediate response in classrooms and on campus when necessary. Kennedy has reduced the number of student suspensions significantly over the last 5 years, due to having these processes in place.

2023-24 School Safety Plan

The Kennedy Elementary School Safety Plan is updated every year with the input from staff in August of 2023. Input was also gather from students, teachers, parents, SSC, and ELAC in November of 2023. It is then approved by the School Site Council and the School Board. Kennedy Elementary is committed to ensure students', parents' and staff's safety when on campus or learning virtually.

State	N/A	N/A	$7,607	$87,362
Percent Difference - School Site and State	N/A	N/A		

Fiscal Year 2022-23 Types of Services Funded

State and Federal funds from Title I, Title II, and state Lottery are used to help supplement and support core programs to increase student achievement. Student achievement is increased by providing professional development for teachers and staff, purchasing additional materials and supplies, and providing additional academic support for students. Additional academic supports provided are afterschool GATE modules for students performing above grade level, afterschool reading intervention, and reading intervention within the school day by a credentialed Instructional Support Teacher.

Student Body funds are raised annually through school fundraisers such as a school carnival, T-shirt sales, and a book fair. These funds help pay for field trips, student incentive programs, and library books. Our Kennedy Boosters Club has raised money for student activities, rewards and incentives, recreational supplies, and additional equipment, such as Chromebooks to be used for instruction in the classrooms.

Fiscal Year 2021-22 Teacher and Administrative Salaries

This table displays the 2021-22 Teacher and Administrative salaries. For detailed information on salaries, see the CDE Certification Salaries & Benefits web page at http://www.cde.ca.gov/ds/fd/cs/.

Professional Development

The 2021-2022 Goals of Kennedy Elementary are aligned with the District Action Plan and meet LCAP requirements. Specific goals include standards based instruction and interventions for all students to ensure academic success in Language Arts and Mathematics. Our top academic goal is that all students read at or above grade level standard. Additional focus is on English Language Learners and providing instruction in English based on fluency levels aimed at producing gains of at least 1 level per school year. Interventions are based on RTI2 and behavior is taught and monitored through a comprehensive PBIS structure.

Professional development is directly related to the goals and includes weekly PLC collaboration, common planning time for grade levels, district provided math and ELA common core training, student engagement strategies, and a full time academic coach available to support all staff with instructional practices and planning. Kennedy employs two certificated teachers who provide academic support in small group settings. These two teachers lead a staff of six Instructional Assistants who also provide academic support in small groups. Professional development for our academic support team is provided by site, District, and County level coaches on an ongoing basis, with emphasis on reading instruction and interventions.

FACILITY INSPECTION TOOL
SCHOOL FACILITY CONDITIONS EVALUATION
(REV 05/09)

STATE ALLOCATION BOARD
OFFICE OF PUBLIC SCHOOL CONSTRUCTION

Page 1 of 6

GENERAL INFORMATION

The Facility Inspection Tool (FIT) has been developed by the Office of Public School Construction to determine if a school facility is in "good repair" as defined by Education Code (EC) Section 17002(d)(1) and to rate the facility pursuant to EC Section 17002(d)(2). The tool is designed to identify areas of a school site that are in need of repair based upon a visual inspection of the site. In addition, the EC specifies the tool should not be used to require capital enhancements beyond the standards to which the facility was designed and constructed.

Good repair is defined to mean that the facility is maintained in a manner that ensures that it is clean, safe, and functional. As part of the school accountability report card, school districts and county offices of education are required to make specified assessments of school conditions including the safety, cleanliness, and adequacy of school facilities and needed maintenance to ensure good repair. In addition, beginning with the 2005/2006 fiscal year, school districts and county offices of education must certify that a facility inspection system has been established to ensure that each of its facilities is maintained in good repair in order to participate in the School Facility Program and the Deferred Maintenance Program. This tool is intended to assist school districts and county offices of education in that determination.

County superintendents are required to annually visit the schools in the county of his or her office as determined by EC Section 1240. Further, EC Section 1240(c)(2)(I), states the priority objective of the visits made shall be to determine the status of the condition of a facility that poses an emergency or urgent threat to the health or safety of pupils or staff as defined in district policy, or as defined by EC Section 17592.72(c) and the accuracy of data reported on the school accountability report card with the respect to the safety, cleanliness, and adequacy of school facilities, including good repair as required by EC Sections 17014, 17032.5, 17070.75, and 17089. This tool is also intended to assist county offices of education in performing these functions.

The EC also allows individual entities to adopt a local evaluation instrument to be used in lieu of the FIT provided the local instrument meets the criteria specified in EC Section 17002(d) and as implemented in the FIT. Any evaluation instrument adopted by the local educational agency for purpose of determining whether a school facility is maintained in good repair may include any number of additional items but must minimally include the criteria and rating scheme contained in the FIT.

USER INSTRUCTIONS

The FIT is comprised of three parts as follows:

Part I, Good Repair Standard outlines the school facility systems and components, as specified in EC Section 17002(d)(1), that should be considered in the inspection of a school facility to ensure it is maintained in a manner that assures it is clean, safe and functional. Each of the 15 sections in the Good Repair Standard provides a description of a minimum standard of good repair for various school facility categories. Each section also provides examples of clean, safe and functional conditions. The list of examples is not exhaustive. If an evaluator notes a condition that is not mentioned in the examples but constitutes a deficiency, the evaluator can note such deficiency in the applicable category as "other."

Some of the conditions cited in the Good Repair Standard represent items that are critical to the health and safety of pupils and staff. Any deficiencies in these items require immediate attention and, if left unmitigated, could cause severe and immediate injury, illness or death of the occupants. They constitute extreme deficiencies and indicate that the particular building system evaluated failed to meet the standard of good repair at that school site. These critical conditions are identified with underlined text followed by an (X) on the Good Repair Standard. If the underlined statement is not true, then there is an extreme deficiency (to be marked as an "X" on the Evaluation Detail) resulting in a "poor" rating for the applicable category. It is important to note that the list of extreme deficiencies noted in the Good Repair Standard is not exhaustive. Any other deficiency not included in the criteria but meeting the definition above can be noted by the evaluator and generate a poor rating.

Part II, Evaluation Detail is a site inspection template to be used to evaluate the areas of a school on a category by category basis. The design of the inspection template allows for the determination of the scope of conditions across campus. In evaluating each area or space, the user should review each of the 15 categories identified in the Good Repair Standard and make a determination of whether a particular area is in good repair. Once the determination is made, it should be recorded on the Evaluation Detail, as follows:

OK	**No Deficiency - Good Repair:** Mark "OK" if all statements in the Good Repair Standard are true, and there is no indication of a deficiency in the specific category.
D	**Deficiency:** Mark "D" if one or more statement(s) in the Good Repair Standard for the specific category is not true, or if there is other clear evidence of the need for repair.
X	**Extreme Deficiency**: Indicate "X" if the area has a deficiency that is considered an "Extreme Deficiency" in the Good Repair Standard or there is a condition that qualifies as an extreme deficiency but is not noted in the Good Repair Standard.
NA	**Not Applicable:** If the Good Repair Standard category (building system or component) does not exist in the area evaluated, mark "NA".

Below are suggested methods for evaluating various systems and areas:

• **Gas** and **Sewer** are major building systems that may span the entire school campus but may not be evident as applicable building systems in each classroom or common areas. However, because a deficiency in either of these systems could become evident and present a health and safety threat anywhere on campus, the user should not mark "NA" and should instead include an evaluation of these systems in each building space.

• **Roofs** can be easily evaluated for stand alone areas, such as portable classrooms. For permanent buildings containing several areas to be evaluated, roofs should be considered as parts of individual areas in order to accurately account for a scope of any roofing deficiency. For example, a 10 classroom building contains damaged gutters on one side of the building, spanning across five classrooms. Therefore, an evaluator should mark five classrooms as deficient in the roof category and the other five classrooms as in good repair, assuming there are no other visible deficiencies related to roofing.

• **Overall Cleanliness** is intended to be used to evaluate the cleanliness of each space. For example, a user should note a deficiency due to dirty surfaces in Overall Cleanliness, rather than **Interior Surfaces**. At the same time, the user should note such deficiency only in Overall Cleanliness in order to avoid accounting for such deficiency twice, i.e. in two sections.

• The tool is designed to evaluate stand-alone restrooms as separate areas. However, restrooms contained within other spaces, such as a kindergarten classroom or a library, can be evaluated as part of that area under Restrooms. If the area evaluated does not contain a restroom, Restrooms should be marked "NA."

• **Drinking fountains** can exist within individual classrooms or areas, right outside of classrooms or restrooms or other areas, or as stand alone fixtures on playgrounds and sports fields. If a drinking fountain or a set of fountains is located inside a building or immediately outside the area being evaluated, it should be included in the evaluation of that area under Drinking Fountains. If a fountain is located on the school grounds, it should be evaluated as part of that outside space. If there is no drinking fountain in the area evaluated, Drinking Fountains should be marked "NA."

• **Playgrounds/School Grounds**, should be evaluated as separate areas by dividing a campus into sections with defined borders. In this case, several sections of the good repair criteria would not apply to the evaluation, as they do not exist outside of physical building areas, such as **Structural Damage** and **Fire Safety**, for example.

Part III includes the **Category Totals and Ranking**, the **Overall Rating**, and a section for **Comments and Rating Explanation**.

Once the inspector completes the site inspection, he or she must total the number of areas evaluated. The inspector must also count all of the spaces deemed in good repair, deficient, extremely deficient, or not applicable under each of the 15 sections. Next, the evaluator must determine the condition of each section by taking the ratio of the number of areas deemed in good repair to the number of areas being evaluated (after subtracting non-applicable spaces from the total number of areas evaluated). If any of the 15 sections received a rating of extreme deficiency, the ratio (i.e., the percentage of good repair) for that section and the category the section is in should default to zero. The total percent per category (A through H) is determined by the total of all percentages of systems in good repair divided by the number of sections in that category. For example, to determine the total percent for the Structural category, add the percentages for the Structural Damage and Roof sections and divide the result by two.

Next, the overall school site score is determined by computing the average percentage rating of the eight categories (i.e., the total of all percentages divided by eight). Finally, the rater should determine the overall School Rating by applying the Percentage Range in the table provided in Part III to the average percentage calculated and taking into consideration the Rating Description provided in the same table.

*Although the FIT is designed to evaluate each school site within a reasonable range of facility conditions, it is possible that an evaluator may identify critical facility conditions that result in an Overall School Rating that does not reflect the urgency and severity of those deficiencies and/or does not match the rating's Description in Part III. In such instances, the evaluator may reduce the resulting school score by one or more grade categories and describe the reasons for the reduction in the space provided for Comments and Rating Explanation.

When completing Part III of the FIT, the instructor should note the date and time of the inspection as well as weather conditions and any other pertinent inspection information in the specific areas provided and utilize the Comments and Rating Explanation Section if needed.

PART I: GOOD REPAIR STANDARD

(X): If underlined statement is not true, then this is an extreme deficiency (marked as an "X") on the Evaluation Detail resulting in a "poor" rating for the applicable category.

Gas Leaks
Gas systems and pipes appear safe, functional, and free of leaks.
Examples include but are not limited to the following:

a. There is no odor that would indicate a gas leak. (X)
b. Gas pipes are not broken and appear to be in good working order. (X)
c. Other

Mechanical Systems
Heating, ventilation, and air conditioning systems (HVAC) as applicable are functional and unobstructed. Examples include but are not limited to the following:

a. The HVAC system is operable. (X)
b. The facilities are ventilated (via mechanical or natural ventilation).
c. The ventilation units are unobstructed and vents and grills are without evidence of excessive dirt or dust.
d. There appears to be an adequate air supply to all classrooms, work spaces, and facilities (i.e. no strong odor is present, air is not stuffy)
e. Interior temperatures appear to be maintained within normally accepted ranges.
f. The ventilation units are not generating any excessive noise or vibrations.
g. Other

Sewer
Sewer line stoppage is not evident. Examples include but are not limited to the following:

a. There are no obvious signs of flooding caused by sewer line back-up in the facilities or on the school grounds. (X)
b. The sanitary system controls odors as designed.
c. Other

Interior Surfaces (Floors, Ceilings, Walls, and Window Casings)
Interior surfaces appear to be clean, safe, and functional. Examples include but are not limited to the following:

a. Walls are free of hazards from tears and holes.
b. Flooring is free of hazards from torn carpeting, missing floor tiles, holes.
c. Ceiling is free of hazards from missing ceiling tiles and holes.
d. There is no evidence of water damage (e.g. no condensation, dampness, staining, warping, peeling, mineral deposits, etc.)
e. Other

Overall Cleanliness
School grounds, buildings, common areas, and individual rooms appear to have been cleaned regularly. Examples include but are not limited to the following:

a. Area(s) evaluated is free of accumulated refuse, dirt, and grime.
b. Area(s) evaluated is free of unabated graffiti.
c. Restrooms, drinking fountains, and food preparation or serving areas appear to have been cleaned each day that school is in session.
d. Other

Pest/Vermin Infestation
Pest or vermin infestation are not evident.
Examples include but are not limited to the following:

a. There is no evidence of a major pest or vermin infestation. (X)
b. There are no holes in the walls, floors, or ceilings.
c. Rodent droppings or insect skins are not evident.
d. Odor caused by a pest or vermin infestation is not evident.
e. There are no live rodents observed.
f. Other

Electrical (Interior and Exterior)
1. There is no evidence that any portion of the school has a power failure. (X)

2. Electrical systems, components, and equipment appear to be working properly. Examples include but are not limited to the following:

a. There are no exposed electrical wires. Electrical equipment is properly covered and secured from pupil access. (X)
b. Outlets, access panels, switch plates, junction boxes and fixtures are properly covered and secured from pupil access.
c. Other

3. Lighting appears to be adequate and working properly, including exterior lights. Examples include but are not limited to the following:

a. Lighting appears to be adequate.
b. Lighting is not flickering.
c. There is no unusual hum or noise from the light fixtures.
d. Other

Restrooms
Restrooms in the vicinity of the area being evaluated appear to be accessible during school hours, clean, functional and in compliance with SB 892 (EC Section 35292.5). The following are examples of compliance with SB 892:

a. Restrooms are maintained and cleaned regularly.
b. Restrooms are fully operational.
c. Restrooms are stocked with toilet paper, soap, and paper towels.
d. Restrooms are open during school hours.
e. Other

Sinks/Fountains (Inside and Outside)
Drinking fountains appear to be accessible and functioning as intended.
Examples include but are not limited to the following:

a. Drinking fountains are accessible.
b. Water pressure is adequate.
c. A leak is not evident.
d. There is no moss, mold, or excessive staining on the fixtures.
e. The water is clear and without unusual taste or odor.
f. Other

Fire Safety
The fire equipment and emergency systems appear to be functioning properly.
Examples include but are not limited to the following:

a. The fire sprinklers appear to be in working order (e.g., there are no missing or damaged sprinkler heads). (X)
b. Emergency alarms appear to be functional. (X)
c. Emergency exit signs function as designed, exits are unobstructed. (X)
d. Fire extinguishers are current and placed in all required areas.
e. Fire alarms pull stations are clearly visible.
f. Other

Hazardous Materials (Interior and Exterior)
There does not appear to be evidence of hazardous materials that may pose a threat to pupils or staff. Examples include but are not limited to the following:

a. Hazardous chemicals, chemical waste, and flammable materials are stored properly (e.g. locked and labeled properly). (X)
b. Paint is not peeling, chipping, or cracking.
c. There does not appear to be damaged tiles or other circumstances that may indicate asbestos exposure.
d. Surfaces (including floors, ceilings, walls, window casings, HVAC grills) appear to be free of mildew, mold odor and visible mold.
e. Other

Structural Damage
There does not appear to be structural damage that has created or could create hazardous or uninhabitable conditions. Examples include but are not limited to the following:

a. Severe cracks are not evident. (X)
b. Ceilings & floors are not sloping or sagging beyond their intended design. (X)
c. Posts, beams, supports for portable classrooms, ramps, and other structural building members appear to be intact, secure and functional as designed. (X)
d. There is no visible evidence of severe cracks, dry rot, mold, or damage that undermines the structural components. (X)
e. Other

Roofs (observed from the ground, inside/outside the building)
Roof systems appear to be functioning properly.
Examples include but are not limited to the following:

a. Roofs, gutters, roof drains, and down spouts are free of visible damage.
b. Roofs, gutters, roof drains, and down spouts are intact.
c. Other

Playground/School Grounds
The playground equipment and school grounds in the vicinity of the area being evaluated appear to be clean, safe, and functional.
Examples include but are not limited to the following:

a. Significant cracks, trip hazards, holes and deterioration are not found.
b. Open "S" hooks, protruding bolt ends, and sharp points/edges are not found in the playground equipment.
c. Seating, tables, and equipment are functional and free of significant cracks.
d. There are no signs of drainage problems, such as flooded areas, eroded soil, water damage to asphalt, or clogged storm drain inlets.
e. Other

Windows/Doors/Gates/Fences (Interior and exterior)
Conditions that pose a safety and/or security risk are not evident.
Examples include but are not limited to the following:

a. There is no exposed broken glass accessible to pupils and staff. (X)
b. Exterior doors and gates are functioning and do not pose a security risk. (X)
c. Windows are intact and free of cracks.
d. Windows are functional and open, close, and lock as designed, unless there is a valid reason they should not function as designed.
e. Doors are intact.
f. Doors are functional and open, close, and lock as designed, unless there is a valid reason they should not function as designed.
g. Gates and fences appear to be functional.
h. Gates and fences are intact and free of holes and other conditions that could present a safety hazard to pupils, staff, or others.
i. Other

OVERALL RATING:	DETERMINE AVERAGE PERCENTAGE OF 8 CATEGORIES ABOVE ⟶	98.48%	SCHOOL RATING** ⟶	GOOD

**For School Rating, apply the Percentage Range below to the average percentage determined above, taking into account the rating Description below.

PERCENTAGE	DESCRIPTION	RATING
99%-100%	The school meets most or all standards of good repair. Deficiencies noted, if any, are not significant and/or impact a very small area of the school.	EXEMPLARY
90%-98.99%	The school is maintained in good repair with a number of non-critical deficiencies noted. These deficiencies are isolated, and/or resulting from minor wear and tear, and/or in the process of being mitigated.	GOOD
75.%-89.99%	The school is not in good repair. Some deficiencies noted are critical and/or widespread. Repairs and/or additional maintenance are necessary in several areas of the school site.	FAIR
0%-74.99%	The school facilities are in poor condition. Deficiencies of various degrees have been noted throughout the site. Major repairs and maintenance are necessary throughout the campus.	POOR
