Ronald Reagan Academy

2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard)

https://www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

A Message from the Principal:

Ronald Reagan Academy provides students with an individualized educational program towards graduation. Students meet an average of once per week with their instructor and are required to complete a minimum of 20 hours of academic work per week. Students completing English or Math are also required to attend the designated class one time a week for 1.5 hours each session depending on the courses needed to complete in order to graduate. Students meet with their instructors in office cubicles in one of two classrooms on the Ronald Reagan Academy campus. Students are provided with content specific work packets on a weekly basis that are to be completed at home and turned in to their teacher the subsequent week. Each packet is worth one credit. Students must complete an end of unit assessment before moving onto each subsequent packet. The hour that students spend with teachers is tentatively scheduled as 15 minutes for review of homework, 30 minutes of instruction and 15 minutes to review new homework assignments.

Ronald Reagan Academy provides an alternative education placement to those students who function best in a highly individualized and minimal school setting. Because student work is primarily completed independently, Ronald Reagan Academy is reserved for students who have evidenced ability to work independently and with minimal academic support.

A Ronald Reagan Academy task-force is currently working on updating all course curriculum that aligns with common core standards.

2023-24 School Description and Mission Statement

Focus for Improvement

The focus of improvement for Ronald Reagan Academy is based on the following as recommended by our Mid-Cycle WASC review completed during the Fall Semester of the 2019-2020 school year:

Recommendations

- 1. The school site administration needs to allocate the appropriate resources to hire a full time FTE English Teacher to provide English Instruction as well as ELD Instruction.
- 2. The school site staff needs to rewrite their course materials to reflect on implementing the common core curriculum
- 3. The school site and district administration need to evaluate the process for referring students to RRA and closely monitor the placement of ELD and SPED Students.
- 4. The school site staff need to increase the accessibility and usage of technology by staff members and students.
- 5. The school site staff needs to create a plan that leads to a greater awareness, involvement, and responsibility of all stakeholders in the school's on-going journey of continuous improvement

During the Spring Semester of the 2022-2023 School Year, Ronald Reagan received a 3 year WASC Accreditation

About this School

2022-23 Student Enrollment by Grade Level

Grade Level	Number of Students
Grade 8	1
Grade 9	1
Grade 10	10
Grade 11	35
Grade 12	52
Total Enrollment	99

2022-23 Student Enrollment by Student Group

Student Group	Percent of Total Enrollment
Female	49.5%
Male	50.5%
Asian	2%
Hispanic or Latino	90.9%
White	7.1%
English Learners	39.4%
Foster Youth	1%
Homeless	3%
Migrant	1%
Socioeconomically Disadvantaged	89.9%
Students with Disabilities	8.1%

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

2020-21 Teacher Preparation and Placement

Authorization/Assignment	School Number	School Percent	District Number	District Percent	State Number	State Percent
Fully (Preliminary or Clear) Credentialed for Subject and Student Placement (properly assigned)	0.50	10.37	235.30	86.41	228366.10	83.12
Intern Credential Holders Properly Assigned	0.00	0.00	11.00 4.04		4205.90	1.53
Teachers Without Credentials and Misassignments ("ineffective" under ESSA)	0.00	0.00	6.90	2.54	11216.70	4.08
Credentialed Teachers Assigned Out-of- Field ("out-of-field" under ESSA)	4.30	89.63	8.80	3.24	12115.80	4.41
Unknown	0.00	0.00	10.20	3.76	18854.30	6.86
Total Teaching Positions	4.80	100.00	272.30	100.00	274759.10	100.00

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2021-22 Teacher Preparation and Placement

Authorization/Assignment	School Number	School Percent	District Number	District Percent	State Number	State Percent
Fully (Preliminary or Clear) Credentialed for Subject and Student Placement (properly assigned)	1.90	30.02	225.00	80.95	234405.20	84.00
Intern Credential Holders Properly Assigned	0.00	0.00	13.10	4.71	4853.00	1.74
Teachers Without Credentials and Misassignments ("ineffective" under ESSA)	0.00	0.00	4.10	1.50	12001.50	4.30
Credentialed Teachers Assigned Out-of- Field ("out-of-field" under ESSA)	4.10	63.20	14.10	5.08	11953.10	4.28
Unknown	0.40	6.49	21.50	7.76	15831.90	5.67
Total Teaching Positions	6.60	100.00	277.90	100.00	279044.80	100.00

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered "ineffective" under ESSA)

Authorization/Assignment	2020-21	2021-22
Permits and Waivers	0.00	0.00
Misassignments	0.00	0.00
Vacant Positions	0.00	0.00
Total Teachers Without Credentials and Misassignments	0.00	0.00

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Credentialed Teachers Assigned Out-of-Field (considered "out-of-field" under ESSA)

Indicator	2020-21	2021-22
Credentialed Teachers Authorized on a Permit or Waiver	0.00	0.00
Local Assignment Options	4.30	4.10
Total Out-of-Field Teachers	4.30	4.10

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Class Assignments

Indicator	2020-21	2021-22
Misassignments for English Learners (a percentage of all the classes with English learners taught by teachers that are misassigned)	0	0
No credential, permit or authorization to teach (a percentage of all the classes taught by teachers with no record of an authorization to teach)	0	0

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: For more information refer to the Updated Teacher Equity Definitions web page at https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Ronald Reagan Academy works hard to provide a rigorous and accessible curriculum that prepares students for all state assessments as well as life beyond high school. The individualized delivery of instruction partnered with content-specific support labs make student success possible.

Year and month in which the data were collected

9/2020

Subject

Textbooks and Other Instructional Materials/year of Adoption

From Most Recent Adoption ? Percent Students Lacking Own Assigned Copy

Reading/Language Arts	All in good condition. Holt Literature and Language Arts is the adopted English Language Arts Curriculum. Adopted in 2004 Collections NEWSELA Edgenuity	Yes	0

School Facility Conditions and Planned Improvements

All school site buildings are well lit and secured by gates that are locked at night. All parking lots are well lighted for added security.

Ronald Reagan facilities consist of an office and two classrooms. One classrooms holds 6 cubicles that teachers use to meet individually with students. The other classroom holds 3 cubicles and tables and chairs for online and full course instruction. Ronald Reagan students also have access to the Sierra Vista High School campus library, computer lab and multi-purpose room that student utilize for breakfast and lunch.

The computer lab provides Ronald Reagan students and staff with access to 20 total computers available for student use. The library provides students with 6 desktop computers.

As a school site we are always being pro-active in looking for facility improvements that will positively impact our students and their learning. Dinuba Unified and the Alternative Education staff are committed to providing facilities that are safe and up to date to serve our students, families, and community.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
- 2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
- 3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23
English Language Arts/Literacy (grades 3-8 and 11)	28	23	46	44	47	46
Mathematics (grades 3-8 and 11)	3	5	25	27	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Student Groups	CAASPP Total Enrollment	CAASPP Number Tested	CAASPP Percent Tested	CAASPP Percent Not Tested	CAASPP Percent Met or Exceeded
All Students	42	22	52.38	47.62	22.73

Students with Disabilities					

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Student Groups	CAASPP Total Enrollment	CAASPP Number Tested	CAASPP Percent Tested	CAASPP Percent Not Tested	CAASPP Percent Met or Exceeded
All Students	42	20	47.62	52.38	5.00

Students Receiving Migrant Education Services	0	0	0	0	0
Students with Disabilities					

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Subject	School	School	District	District	State	State
	2021-22	2022-23	2021-22	2022-23	2021-22	2022-23
Science (grades 5, 8 and high school)	13.16	9.62	19.58	22.47	29.47	30.29

2022-23 CAASPP Test Results in Science by Student Group

This table displays CAASPP test results in Science by student group for students grades five, eight, and High School. Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Student Group	Total Enrollment	Number Tested	Percent Tested	Percent Not Tested	Percent Met or Exceeded

2022-23 Career Technical Education Programs

All 12th grade students are required to complete an application for Reedley College and an application for financial aide (FAFSA).

They also attend an annual College and Career Day and field study trip to Reedley College. Resume and interview preparation are integrated into English and elective coursework.

Ronald Reagan Academy students also have access to CTE courses facilitated through Dinuba Adult School and Dinuba High School upon request.

Students who are 18 or nearing the age of 18 are provided with opportunities to enroll into CTE courses to gain career readiness skills.

2022-23 Career Technical Education (CTE) Participation

Measure	CTE Program Participation
Number of Pupils Participating in CTE	
Percent of Pupils that Complete a CTE Program and Earn a High School Diploma	
Percent of CTE Courses that are Sequenced or Articulated Between the School and Institutions of Postsecondary Education	

Course Enrollment/Completion

This table displays the course enrollment/completion of University of California (UC) and/or California State University (CSU) admission requirements.

UC/CSU Course Measure	Percent
2022-23 Pupils Enrolled in Courses Required for UC/CSU Admission	93.88
2021-22 Graduates Who Completed All Courses Required for UC/CSU Admission	0

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade Level	Component 1: Aerobic Capacity	Component 2: Abdominal Strength and Endurance	Component 3: Trunk Extensor and Strength and Flexibility	Component 4: Upper Body Strength and Endurance	Component 5: Flexibility
Grade 9	0	0	0	0	0

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

School Site Council and English Language Acquisition Committee

All new students enroll at Ronald Reagan accompanied by at least one parent to meet with administration. At that time, rules, regulations, graduation and program requirements are reviewed. Parents are encouraged to meet or call administration/staff regarding their students' progress and to share any concerns. Our School Site Council (SSC) and ELAC meetings are also ways in which we involve parents (temporarily held virtually via Zoom).

Home Visits and Conferences

Teachers and staff also make regular contact with parents regarding attendance, behavior and academic performance and phone and one to one parent conferences and home visits are held often to address student needs. Every six weeks a progress report is sent home via mail giving parents an update on their student's academic progress.

Parent conferences are held between counselor, teacher, parent and students as needed to provide student and parent with information regarding student progress or lack there of.

If you would like more information about Parent Engagement Opportunities please contact:

2023-24 Opportunities for Parental Involvement

Please feel free to contact Mrs. Denna Schaub, Ronald Reagan Academy Administrative Assistant at 555-595-7240 with any additional questions.

C. Engagement

State Priority: Pupil Engagement

The SARC provides the following information relevant to the State priority: Pupil Engagement (Priority 5):

- High school dropout rates;
- · High school graduation rates; and
- Chronic Absenteeism

Dropout Rate and Graduation Rate (Four-Year Cohort Rate)

Indicator	School 2020-21		School 2022-23	District 2020-21	District 2021-22	District 2022-23	State 2020-21	State 2021-22	State 2022-23
Dropout Rate	10.1	7.9	15.4	4.3	6.2	4.4	9.4	7.8	8.2
Graduation Rate	47.8	63.2	58.5	83.5	87.9	88.6	83.6	87	86.2

2022-23 Graduation Rate by Student Group (Four-Year Cohort Rate)

This table displays the 2022-23 graduation rate by student group. For information on the Four-Year Adjusted Cohort Graduation Rate (ACGR), visit the CDE Adjusted Cohort Graduation Rate web page at www.cde.ca.gov/ds/ad/acgrinfo.asp.

Student Group	Number of Students in Cohort	Number of Cohort Graduates	Cohort Graduation Rate

2023-24 School Safety Plan

Ronald Reagan Academy and Dinuba Unified School District see the safety of our students and staff as our utmost priority. The Ronald Reagan administrative team monitors school grounds, via surveillance cameras, before the start of each day and throughout the afternoon. All campus visitors must register with the office and wear a visitor badge while on campus for safety purposes. We hold fire and lockdown drills each school year with staff and students.

Our safety plan is updated annually. All staff members are kept up to date on any safety measures that pertain to Ronald Reagan Academy and how to keep their classrooms safe for students and staff. All staff is trained on safety measures at the beginning of the school year and throughout the school year as well. Administration and Ronald Reagan staff work to maintain a safe and inviting campus culture, where students feel safe to learn and teachers feel safe to teach.

Ronald Reagan also has access to an SRO Officer with Dinuba PD to handle any legal issues that may arise on campus.

2020-21 Secondary Average Class Size and Class Size Distribution

This table displays the 2020-21 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students
English Language Arts	11	4		1
Mathematics	2	1		
Science	5	4		
Social Science	2	19		

2021-22 Secondary Average Class Size and Class Size Distribution

This table displays the 2021-22 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students
English Language Arts	6	12	1	
Mathematics	7	6		
Science	3	7		
Social Science	3	14		

2022-23 Secondary Average Class Size and Class Size Distribution

This table displays the 2022-23 average class size and class size distribution. The columns titled "Number of Classes" indicates how many classes fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

minute in the portion of the portion										
Subject	Average Class Size	Number of Classes with 1-22 Students	Number of Classes with 23-32 Students	Number of Classes with 33+ Students

Social Science	
Total AP Courses Offered Where there are student course enrollments of at least one student.	

Professional Development

Focus for Improvement

The focus of improvement for Ronald Reagan Academy is based on the following as recommended by our Mid-Cycle WASC review completed during the Spring Semester of the 2022-2023 school year:

Recommendations

Professional Development

- 1. The school site administration needs to allocate the appropriate resources to hire a full time FTE English Teacher to provide English Instruction as well as ELD Instruction.
- 2. The school site staff needs to rewrite their course materials to reflect on implementing the common core curriculum
- 3. The school site and district administration need to evaluate the process for referring students to RRA and closely monitor the placement of ELD and SPED Students.
- 4. The school site staff need to increase the accessibility and usage of technology by staff members and students.
- 5. The school site staff needs to create a plan that leads to a greater awareness, involvement, and responsibility of all stakeholders in the school's on-going journey of continuous improvement

As a result, RRA Staff will be provided the following:

A one-hour professional development block of time is now embedded into the Ronald Reagan weekly program schedule.

Professional development in common core and technology are embedded into this time frame.

In addition, RRA has a staff development day set aside for all teachers at the beginning of the year to go over all paperwork related to their teaching assignments in independent study.

We also have our STS (site technology specialist) work with each teacher to maximize the technological resources available.

Administration also attends an annual Independent Study Compliance Conference to ensure that we stay current with independent study policies and practices.

This table displays the number of school days dedicated to staff development and continuous improvement.

Subject	2021-22	2022-23	2023-24
Number of school days dedicated to Staff Development and Continuous Improvement	2	2	

(REV 05/09)

GENERAL INFORMATION

The Facility Inspection Tool (FIT) has been developed by the Office of Public School Construction to determine if a school facility is in "good repair" as defined by Education Code (EC) Section 17002(d)(1) and to rate the facility pursuant to EC Section 17002(d)(2). The tool is designed to identify areas of a school site that are in need of repair based upon a visual inspection of the site. In addition, the EC specifies the tool should not be used to require capital enhancements beyond the standards to which the facility was designed and constructed.

Good repair is defined to mean that the facility is maintained in a manner that ensures that it is clean, safe, and functional. As part of the school accountability report card, school districts and county offices of education are required to make specified assessments of school conditions including the safety, cleanliness, and adequacy of school facilities and needed maintenance to ensure good repair. In addition, beginning with the 2005/2006 fiscal year, school districts and county offices of education must certify that a facility inspection system has been established to ensure that each of its facilities is maintained in good repair in order to participate in the School Facility Program and the Deferred Maintenance Program. This tool is intended to assist school districts and county offices of education in that determination.

County superintendents are required to annually visit the schools in the county of his or her office as determined by EC Section 1240. Further, EC Section 1240(c)(2)(I), states the priority objective of the visits made shall be to determine the status of the condition of a facility that poses an emergency or urgent threat to the health or safety of pupils or staff as defined in district policy, or as defined by EC Section 17592.72(c) and the accuracy of data reported on the school accountability report card with the respect to the safety, cleanliness, and adequacy of school facilities, including good repair as required by EC Sections 17014, 17032.5, 17070.75, and 17089. This tool is also intended to assist county offices of education in performing these functions.

The EC also allows individual entities to adopt a local evaluation instrument to be used in lieu of the FIT provided the local instrument meets the criteria specified in EC Section 17002(d) and as implemented in the FIT. Any evaluation instrument adopted by the local educational agency for purpose of determining whether a school facility is maintained in good repair may include any number of additional items but must minimally include the criteria and rating scheme contained in the FIT.

USER INSTRUCTIONS

The FIT is comprised of three parts as follows:

Part I, Good Repair Standard outlines the school facility systems and components, as specified in EC Section 17002(d)(1), that should be considered in the inspection of a school facility to ensure it is maintained in a manner that assures it is clean, safe and functional. Each of the 15 sections in the Good Repair Standard provides a description of a minimum standard of good repair for various school facility categories. Each section also provides examples of clean, safe and functional conditions. The list of examples is not exhaustive. If an evaluator notes a condition that is not mentioned in the examples but constitutes a deficiency, the evaluator can note such deficiency in the applicable category as "other."

Some of the conditions cited in the Good Repair Standard represent items that are critical to the health and safety of pupils and staff. Any deficiencies in these items require immediate attention and, if left unmitigated, could cause severe and immediate injury, illness or death of the occupants. They constitute extreme deficiencies and indicate that the particular building system evaluated failed to meet the standard of good repair at that school site. These critical conditions are identified with underlined text followed by an (X) on the Good Repair Standard. If the underlined statement is not true, then there is an extreme deficiency (to be marked as an "X" on the Evaluation Detail) resulting in a "poor" rating for the applicable category. It is important to note that the list of extreme deficiencies noted in the Good Repair Standard is not exhaustive. Any other deficiency not included in the criteria but meeting the definition above can be noted by the evaluator and generate a poor rating.

Part II, Evaluation Detail is a site inspection template to be used to evaluate the areas of a school on a category by category basis. The design of the inspection template allows for the determination of the scope of conditions across campus. In evaluating each area or space, the user should review each of the 15 categories identified in the Good Repair Standard and make a determination of whether a particular area is in good repair. Once the determination is made, it should be recorded on the Evaluation Detail, as follows:

ОК	No Deficiency - Good Repair: Mark "OK" if all statements in the Good Repair Standard are true, and there is no indication of a deficiency in the specific category.
D	Deficiency: Mark "D" if one or more statement(s) in the Good Repair Standard for the specific category is not true, or if there is other clear evidence of the need for repair.
х	Extreme Deficiency: Indicate "X" if the area has a deficiency that is considered an "Extreme Deficiency" in the Good Repair Standard or there is a condition that qualifies as an extreme deficiency but is not noted in the Good Repair Standard.
NA	Not Applicable: If the Good Repair Standard category (building system or component) does not exist in the area evaluated, mark "NA".

Page 1 of 6

FACILITY INSPECTION TOOL SCHOOL FACILITY CONDITIONS EVALUATION

(REV 05/09)

Below are suggested methods for evaluating various systems and areas:

- **Gas** and **Sewer** are major building systems that may span the entire school campus but may not be evident as applicable building systems in each classroom or common areas. However, because a deficiency in either of these systems could become evident and present a health and safety threat anywhere on campus, the user should not mark "NA" and should instead include an evaluation of these systems in each building space.
- Roofs can be easily evaluated for stand alone areas, such as portable classrooms. For permanent buildings containing several areas to be evaluated, roofs should be considered as parts of individual areas in order to accurately account for a scope of any roofing deficiency. For example, a 10 classroom building contains damaged gutters on one side of the building, spanning across five classrooms. Therefore, an evaluator should mark five classrooms as deficient in the roof category and the other five classrooms as in good repair, assuming there are no other visible deficiencies related to roofing.
- Overall Cleanliness is intended to be used to evaluate the cleanliness of each space. For example, a user should note a deficiency due to dirty surfaces in Overall Cleanliness, rather than Interior Surfaces. At the same time, the user should note such deficiency only in Overall Cleanliness in order to avoid accounting for such deficiency twice, i.e. in two sections.
- The tool is designed to evaluate stand-alone restrooms as separate areas. However, restrooms contained within other spaces, such as a kindergarten classroom or a library, can be evaluated as part of that area under Restrooms. If the area evaluated does not contain a restroom, Restrooms should be marked "NA."
- **Drinking fountains** can exist within individual classrooms or areas, right outside of classrooms or restrooms or other areas, or as stand alone fixtures on playgrounds and sports fields. If a drinking fountain or a set of fountains is located inside a building or immediately outside the area being evaluated, it should be included in the evaluation of that area under Drinking Fountains. If a fountain is located on the school grounds, it should be evaluated as part of that outside space. If there is no drinking fountain in the area evaluated, Drinking Fountains should be marked "NA."
- Playgrounds/School Grounds, should be evaluated as separate areas by dividing a campus into sections with defined borders. In this case, several sections of the good repair criteria would not apply to the evaluation, as they do not exist outside of physical building areas, such as Structural Damage and Fire Safety, for example.

Part III includes the Category Totals and Ranking, the Overall Rating, and a section for Comments and Rating Explanation.

Once the inspector completes the site inspection, he or she must total the number of areas evaluated. The inspector must also count all of the spaces deemed in good repair, deficient, extremely deficient, or not applicable under each of the 15 sections. Next, the evaluator must determine the condition of each section by taking the ratio of the number of areas deemed in good repair to the number of areas being evaluated (after subtracting non-applicable spaces from the total number of areas evaluated). If any of the 15 sections received a rating of extreme deficiency, the ratio (i.e., the percentage of good repair) for that section and the category the section is in should default to zero. The total percent per category (A through H) is determined by the total of all percentages of systems in good repair divided by the number of sections in that category. For example, to determine the total percent for the Structural category, add the percentages for the Structural Damage and Roof sections and divide the result by two.

Next, the overall school site score is determined by computing the average percentage rating of the eight categories (i.e., the total of all percentages divided by eight). Finally, the rater should determine the overall School Rating by applying the Percentage Range in the table provided in Part III to the average percentage calculated and taking into consideration the Rating Description provided in the same table.

*Although the FIT is designed to evaluate each school site within a reasonable range of facility conditions, it is possible that an evaluator may identify critical facility conditions that result in an Overall School Rating that does not reflect the urgency and severity of those deficiencies and/or does not match the rating's Description in Part III. In such instances, the evaluator may reduce the resulting school score by one or more grade categories and describe the reasons for the reduction in the space provided for Comments and Rating Explanation.

When completing Part III of the FIT, the instructor should note the date and time of the inspection as well as weather conditions and any other pertinent inspection information in the specific areas provided and utilize the Comments and Rating Explanation Section if needed.

Page 3 of 6

(REV 05/09)

PART I: GOOD REPAIR STANDARD

(X): If underlined statement is not true, then this is an extreme deficiency (marked as an "X") on the Evaluation Detail resulting in a "poor" rating for the applicable category.

Gas Leaks

Gas systems and pipes appear safe, functional, and free of leaks. Examples include but are not limited to the following:

- a. There is no odor that would indicate a gas leak. (X)
- b. Gas pipes are not broken and appear to be in good working order. (X)
- c. Other

Mechanical Systems

Heating, ventilation, and air conditioning systems (HVAC) as applicable are functional and unobstructed. Examples include but are not limited to the following:

- a. The HVAC system is operable. (X)
- b. The facilities are ventilated (via mechanical or natural ventilation).
- The ventilation units are unobstructed and vents and grills are without evidence of excessive dirt or dust.
- d. There appears to be an adequate air supply to all classrooms, work spaces, and facilities (i.e. no strong odor is present, air is not stuffy)
- e. Interior temperatures appear to be maintained within normally accepted ranges.
- f. The ventilation units are not generating any excessive noise or vibrations.
- g. Other

Sewer

Sewer line stoppage is not evident. Examples include but are not limited to the following:

- a. There are no obvious signs of flooding caused by sewer line back-up in the facilities or on the school grounds. (X)
- b. The sanitary system controls odors as designed.
- c. Other

Interior Surfaces (Floors, Ceilings, Walls, and Window Casings)

Interior surfaces appear to be clean, safe, and functional. Examples include but are not limited to the following:

- a. Walls are free of hazards from tears and holes.
- b. Flooring is free of hazards from torn carpeting, missing floor tiles, holes.
- c. Ceiling is free of hazards from missing ceiling tiles and holes.
- d. There is no evidence of water damage (e.g. no condensation, dampness, staining, warping, peeling, mineral deposits, etc.)
- e. Other

Overall Cleanliness

School grounds, buildings, common areas, and individual rooms appear to have been cleaned regularly. Examples include but are not limited to the following:

- a. Area(s) evaluated is free of accumulated refuse, dirt, and grime.
- b. Area(s) evaluated is free of unabated graffiti.
- c. Restrooms, drinking fountains, and food preparation or serving areas appear to have been cleaned each day that school is in session.
- d. Other

Pest/Vermin Infestation

Pest or vermin infestation are not evident. Examples include but are not limited to the following:

- a. There is no evidence of a major pest or vermin infestation. (X)
- b. There are no holes in the walls, floors, or ceilings.
- c. Rodent droppings or insect skins are not evident.
- d. Odor caused by a pest or vermin infestation is not evident.
- e. There are no live rodents observed.
- f. Other

Electrical (Interior and Exterior)

- 1. There is no evidence that any portion of the school has a power failure. (X)
- 2. Electrical systems, components, and equipment appear to be working properly. Examples include but are not limited to the following:
- a. There are no exposed electrical wires. Electrical equipment is properly covered and secured from pupil access. (X)
- b. Outlets, access panels, switch plates, junction boxes and fixtures are properly covered and secured from pupil access.
- c. Other
- 3. Lighting appears to be adequate and working properly, including exterior lights. Examples include but are not limited to the following:
- a. Lighting appears to be adequate.
- b. Lighting is not flickering.
- c. There is no unusual hum or noise from the light fixtures.
- d. Other

(REV 05/09) Page 4 of 6

Restrooms

Restrooms in the vicinity of the area being evaluated appear to be accessible during school hours, clean, functional and in compliance with SB 892 (EC Section 35292.5). The following are examples of compliance with SB 892:

- a. Restrooms are maintained and cleaned regularly.
- b. Restrooms are fully operational.
- c. Restrooms are stocked with toilet paper, soap, and paper towels.
- d. Restrooms are open during school hours.
- e. Other

Sinks/Fountains (Inside and Outside)

Drinking fountains appear to be accessible and functioning as intended. Examples include but are not limited to the following:

- a. Drinking fountains are accessible.
- b. Water pressure is adequate.
- c. A leak is not evident.
- d. There is no moss, mold, or excessive staining on the fixtures.
- e. The water is clear and without unusual taste or odor.
- f. Other

Fire Safety

The fire equipment and emergency systems appear to be functioning properly. Examples include but are not limited to the following:

- a. The fire sprinklers appear to be in working order (e.g., there are no missing or damaged sprinkler heads). (X)
- b. Emergency alarms appear to be functional. (X)
- c. Emergency exit signs function as designed, exits are unobstructed. (X)
- d. Fire extinguishers are current and placed in all required areas.
- e. Fire alarms pull stations are clearly visible.
- f. Other

Hazardous Materials (Interior and Exterior)

There does not appear to be evidence of hazardous materials that may pose a threat to pupils or staff. Examples include but are not limited to the following:

- a. Hazardous chemicals, chemical waste, and flammable materials are stored properly (e.g. locked and labeled properly). (X)
- b. Paint is not peeling, chipping, or cracking.
- There does not appear to be damaged tiles or other circumstances that may indicate asbestos exposure.
- d. Surfaces (including floors, ceilings, walls, window casings, HVAC grills) appear to be free of mildew, mold odor and visible mold.
- e. Other

Structural Damage

There does not appear to be structural damage that has created or could create hazardous or uninhabitable conditions. Examples include but are not limited to the following:

- a. Severe cracks are not evident. (X)
- b. Ceilings & floors are not sloping or sagging beyond their intended design. (X)
- c. Posts, beams, supports for portable classrooms, ramps, and other structural building members appear to be intact, secure and functional as designed. (X)
- d. There is no visible evidence of severe cracks, dry rot, mold, or damage that undermines the structural components. (X)
- e. Other

Roofs (observed from the ground, inside/outside the building)

Roof systems appear to be functioning properly.

Examples include but are not limited to the following:

- a. Roofs, gutters, roof drains, and down spouts are free of visible damage.
- b. Roofs, gutters, roof drains, and down spouts are intact.
- c. Other

Playground/School Grounds

The playground equipment and school grounds in the vicinity of the area being evaluated appear to be clean, safe, and functional.

Examples include but are not limited to the following:

- a. Significant cracks, trip hazards, holes and deterioration are not found.
- b. Open "S" hooks, protruding bolt ends, and sharp points/edges are not found in the playground equipment.
- c. Seating, tables, and equipment are functional and free of significant cracks.
- d. There are no signs of drainage problems, such as flooded areas, eroded soil, water damage to asphalt, or clogged storm drain inlets.
- e. Other

Windows/Doors/Gates/Fences (Interior and exterior)

Conditions that pose a safety and/or security risk are not evident. Examples include but are not limited to the following:

- a. There is no exposed broken glass accessible to pupils and staff. (X)
- b. Exterior doors and gates are functioning and do not pose a security risk. (X)
- c. Windows are intact and free of cracks.
- d. Windows are functional and open, close, and lock as designed, unless there is a valid reason they should not function as designed.
- e. Doors are intact.
- f. Doors are functional and open, close, and lock as designed, unless there is a valid reason they should not function as designed.
- g. Gates and fences appear to be functional.
- h. Gates and fences are intact and free of holes and other conditions that could present a safety hazard to pupils, staff, or others.
- i. Other

*Note: An extreme deficiency in any area automatically results in a "poor" ranking for that category and a zero for "Total Percent per Category".

OVERALL RATING:	DETERMINE AVE
-----------------	---------------

DETERMINE AVERAGE PERCENTAGE OF 8 CATEGORIES ABOVE	98.84%	SCHOOL RATING**	GOOD
--	--------	-----------------	------

**For School Rating, apply the Percentage Range below to the average percentage determined above, taking into account the rating Description below.

PERCENTAGE	DESCRIPTION	RATING
99%-100%	The school meets most or all standards of good repair. Deficiencies noted, if any, are not significant and/or impact a very small area of the school.	EXEMPLARY
90%-98.99%	The school is maintained in good repair with a number of non-critical deficiencies noted. These deficiencies are isolated, and/or resulting from minor wear and tear, and/or in the process of being mitigated.	GOOD
75.%-89.99%	The school is not in good repair. Some deficiencies noted are critical and/or widespread. Repairs and/or additional maintenance are necessary in several areas of the school site.	FAIR
0%-74.99%	The school facilities are in poor condition. Deficiencies of various degrees have been noted throughout the site. Major repairs and maintenance are necessary throughout the campus.	POOR
