2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

The City of Palmdale encompasses forty-five square miles of the Antelope Valley and was the fastest-growing city in the United States during the 1990s. Highland High is one of eight comprehensive high school campuses in the Antelope Valley Union High School District (AVUHSD). The total student population includes students attending the main campus as well as students served through the Alternative Learning Center. Highland's student population is diverse in its make-up with students from many ethnic and racial groups: Asian/Pacific Islander, Filipino, Latino, African American, Native American, and White. Other than English, Spanish is the predominant primary language. The school site has 139 classrooms as well as a theater, student union, two gymnasiums, a football stadium, athletic fields, and a cafeteria. Highland High School had a WASC (Western Association of Schools and Colleges) visitation during the 2021-22 school year and received full accreditation. After the WASC process, the Highland High School staff had the opportunity to review State curriculum standards and update and create new Student Learning Outcomes (SLOs) which all students are expected to master upon graduation. Highland High School has an outstanding staff committed to the success of all students. They are diligent in their commitment to implementing the action plan revised and adopted through the WASC process.

The Highland High School SLOs are:

Students embody our BARK core values. At Highland High School:

- Brilliant students have multiple experiences and opportunities for academic, collegiate, professional, and personal growth.
- Accountable students are academically proficient and prepared for college and career readiness.
- Respectful students cultivate a safe and secure, positive school culture that supports all students' personal and academic growth.
- Kind students communicate effectively and continue to build relationships with all community members.

MISSION STATEMENT: At Highland High School, our aim is to provide students with the necessary tools and skills to achieve self-actualization and become productive citizens. Through our curriculum and educational programs, we strive to empower students to utilize their learned knowledge and skills in pursuit of their personal goals and aspirations. We believe that by equipping our students with the right resources and support, they can achieve success both in and outside the classroom.

VISION STATEMENT: Highland High School aims to create a supportive and inclusive environment for students to achieve interdependence, confidence, and academic success while developing the necessary and self-assurance for future success.

2023-24 School Description and Mission Statement

The transition from traditional education to facilitated education is the transition from consumers of knowledge to producers of knowledge. Producers of knowledge use many different modalities as they work collaboratively with both teachers and peers to comprehend and synthesize information to answer real-world questions. As students develop their ability to use technology effectively through research, collaboration, networking, and individualized study, they will develop powerful skills that will facilitate the communication and execution of their ideas. In effect, today's students will become tomorrow's critical and creative problem solvers that are prepared to shape the future of our world.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

Teachers Without Credentials and Misassignments (considered “ineffective” under ESSA)

Misassignments	12.10	13.20
Vacant Positions	0.00	0.00
Total Teachers Without Credentials and Misassignments	14.10	14.20

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Credentialed Teachers Assigned Out-of-Field (considered “out-of-field” under ESSA)

Indicator	2020-21	2021-22
Credentialed Teachers Authorized on a Permit or Waiver	1.00	1.00
Local Assignment Options	1.70	3.80
Total Out-of-Field Teachers	2.70	4.80

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Class Assignments

Indicator	2020-21	2021-22
Misassignments for English Learners (a percentage of all the classes with English learners taught by teachers that are misassigned)	12.2	12.9
No credential, permit or authorization to teach (a percentage of all the classes taught by teachers with no record of an authorization to teach)	6.1	0.9

The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

School Facility Conditions and Planned Improvements

The Antelope Valley Union High School District maintains educational facilities that are safe and clean. We strive to provide an educational environment that exceeds adequacy standards established by the state as set forth in the Williams vs. State of California educational lawsuit recently mandated for public schools in the State of California. Students attend classes where rooms are properly heated and ventilated. Classrooms are appropriate for the learning environment including the absence of noise levels, which would interfere with communication between teachers and students. There are sufficient numbers of clean, well-stocked, functioning restrooms on all campuses, and there are no unsanitary or unhealthful conditions that would impact a student's ability to learn. The AVUHSD is staffed to provide each school with site-based maintenance and operational staff including custodial staff, grounds crews, and maintenance and repair personnel. These persons are based at each school site and report to school site administrators in rendering service to the District. Site-based maintenance and operations persons are supported by a central maintenance and operations crew including carpenters; painters; heating, ventilation, and air conditioning personnel; and one individual who operates the District's field mower. All sites receive operating funds for maintenance and operations from restricted funds identified for maintaining each campus. In addition, the District takes full advantage of the State's deferred maintenance funding program whereby a five-year deferred maintenance plan is submitted and updated to reflect major repair/reconstruction projects in the District. This includes appropriate upgrades and repairs to roofing, asphalt, electrical, and plumbing on District-owned facilities.

Highland High School is a thirty-one-year-old facility. The growing population of students at Highland High increases the wear and tear on the facility as well as the extensive use of the facilities by community groups. Continual maintenance and upgrades have been a priority to ensure an effective learning environment. In the last few years, Highland High has undergone a complete lighting improvement program during which lighting in all classrooms was modernized through the Bright Schools project. Continually many classrooms have had new carpet installed, the gym floors are routinely refinished, and painting projects are ongoing. Highland operates site-based maintenance and custodial staff who report to school site administrators. Our staff strives to maintain a safe and clean campus exceeding the standards set forth by the State of California. Classrooms are adequately heated and ventilated. There are a sufficient number of restrooms for student use, which are cleaned at least three times per day. The Math building was opened in the 2003-04 school year adding much-needed classroom space to the Highland campus for the Math and Special Education Departments.

During the 2022-2023 school year Highland High School relocated several department facilities to buildings on the border of campus to secure the main campus and prioritize school safety. Attendance, special education, and student support center rooms have all been relocated. During the 2023-2024 school year the security offices and on campus student intervention room were relocated to a centralized location on campus.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 Career Technical Education Programs

Highland High School provides students with a wide range of Career Technical Education (CTE) opportunities to prepare them for both college and career paths. Courses are offered in the following industry sectors:

Our Public Service Academy is a recognized California Partnership Academy through the California Department of Education. The academy allows students to learn content applicable to careers in the public service and health science fields within a small learning community of student cohorts who take the same academic and technical courses throughout their high school experience. It is one of a select few approved high school programs in Los Angeles County to offer EMT certification courses.

Students in the academy partake in field trips to industry and higher education institutions, work-based learning opportunities, and leadership training and experiences. Highland High School has an active Career Technical Student Organization (CTSO), SkillsUSA Chapter, that all CTE students have the opportunity to be enrolled in to develop and build on their leadership, and apply their content knowledge through competitions and additional activities. HHS offers STEM and law/government courses outside the school day to extend college and career offerings for students. Our site receives support, works collaboratively with the Career Technical Education office to provide CTE opportunities to ensure students have access to the technology, curriculum, and partnerships, and teachers have the access to professional development that supports a high-quality CTE program.

Each industry sector has an advisory committee that includes members representing the local/regional workforce, and K-16 partners specific to the content area.

Data is pulled from the California Longitudinal Pupil Achievement Data System (CALPADS) to provide comparison data for HHS CTE students and progress in the College and Career Indicator for CTE pathways. Supplemental data provided in

2022-23 Career Technical Education Programs

coordination with the CTE office includes work-based learning, college coursework and acceptance rates, graduation rates, attendance, and post-graduation follow-up.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parental involvement is a vital part of creating a sense of community at Highland High School and greatly affects the success of the campus. Our goal is to assist in creating positive and productive home/school/community partnerships that will promote involvement in school planning and development. Highland offers numerous opportunities for parents to become involved and contribute to the educational program such as the opportunity to serve on the Principal's Advisory Committee or the English Learners Advisory Committee, African American Parent Advisory Committee, and Latino Parent Advisory Committee. These Advisory Committees address a broad variety of issues ranging from academic programs to parent and student concerns. The English Learners Advisory Committee (ELAC) has a direct impact on student achievement through opportunities to become directly involved in program decision-making.

Highland administrators and the counseling department maintain an open-door policy in order to provide an inviting atmosphere for parents who may need assistance. Parents are also welcome to visit their child's classes. Each year, many parents observe their children in the classroom in order to monitor progress and also gain a better understanding of Highland's educational program. Teachers communicate regularly with parents and showcase their classroom during Back to School Night and our schoolwide Showcase.

Highland has active athletics and activities, as well as support through Booster Associations that provide hundreds of parents the opportunity to become involved in fund-raising, chaperoning, and other aspects of athletic and activity programs.

2023-24 School Safety Plan

Highland High School has developed and implemented a Safe School Plan based on the concept that comprehensive school safety is fundamental to students' school success and achievement. A complete copy of the School Safety Plans can be obtained in the Administration Office. The administrators, teachers, and classified staff members share in the responsibility of creating and maintaining a safe educational environment for each and every student. Safety is central to the daily operation of any school campus. Before students can learn or improve they must first feel safe at school. The classrooms and school campus environment as a whole must be free from disruptive behavior, discipline problems, and other unnecessary distractions that interrupt the learning process. California Education Code, District policies, and school rules are enforced to ensure a positive climate in which students may pursue their education. Students are informed of the California Education Codes relating to student conduct, District policies, and school rules at the beginning of each school year through meetings with Vice Principals, School Counselors, and Classroom Teachers. All staff undertook ALICE training during the 2019-2020 school year in order to be prepared for school safety incidents that require this type of training.

In addition to safety enhancements across the District (see below), at Highland High School students MUST have IDs when entering campus. Large bags and cases of any type are subject to being searched. We have also eliminated various entrances and now provide two main student entrances at the north gates and 400s. All visitors MUST enter through the front office and adhere to a new identification process. We also have increased the number of lockdown drills. Since March 2018, we conduct ongoing safety committee meetings that include parents, students, teachers, administrators, and neighboring schools. These meetings focus on assessing safety needs and proposing solutions.

District Statement:

We want our community to be aware of our continued commitment to safety which includes multiple, proactive approaches to fortifying security throughout our schools.

2023-24 School Safety Plan

At the beginning of the 2022-2023 school year, we conducted safety reviews of our campuses that resulted in the implementation of enhanced safety measures. These measures vary by school and include enhanced fencing, additional security and counseling personnel, updated surveillance cameras, front entrance modifications, and door-locking devices. We also incorporated additional training with the Lancaster Sheriff's Station and revised student, staff, and visitor identification processes.

For more than 25 years, we have had a dedicated school deputy on campus each day. In addition to this, we continue to focus on our students' social-emotional needs through various programs and counseling outreach, provide safety training to our students and staff, and underscore the importance of vigilance through "See Something, Say Something." Our district and site websites have links to confidential student referral forms, where students and parents are able to submit safety concerns for the administration to address.

The current Comprehensive School Safety Plan was updated, reviewed, and approved by the board and the Principal's Advisory Committee during the spring semester of 2023.

2020-21 Secondary Average Class Size and Class Size Distribution

This table displays the 2020-21 average class size and class size distribution. Professional Development

In addition to district staff development opportunities, Highland High School uses monthly faculty, department, and site-leadership meetings to conduct staff development, review student data, generate common assessments, and examine curricular needs for the continued transition to Common Core and NGSS. Staff is also provided paid professional development opportunities based off of collaborative Instructional Coaching. Highland High School has 7 Instructional Coaches that specialize in 21st Century teaching, MTSS, SEL and academic improvement. These coaches are in place to support teachers, instruction, and learning in all core academic areas. Optional professional development opportunities are offered to teachers along with school wide professional development that occurs during faculty meetings and during contracted non student days.

This table displays the number of school days dedicated to staff development and continuous improvement.
