

FAVORITE SONGS – WHAT ARE YOURS?

Recommended for Grades K-2

Summary: Ask an adult or older sibling about their favorite music!

What You Need:

- A grown-up or older sibling who remembers their favorite songs when they were your age.
- Optional: Pencil & Paper
- Optional: Device to find the recorded song

Interview an adult about music! Ask them some questions about music when they were growing up. Take notes. Here are some sample questions to ask:

- Did you have a favorite song as a kid?**
- Did you have a favorite singer/band growing up? Who was it? What was your favorite song?**
- How did you listen to music when you were a kid?**
- Did you have music in school? Do you remember what kind of songs you sang?**
- Did you play games? Did you dance or play instruments? Did you like music class? Why or why not?**

Start by finding a grownup or older sibling who enjoyed music when they were a student like you. You can ask them the questions above or make up your own. What are their favorites? Why did they like it? Does it have any hand motions? Can they teach you a song they knew? Can they play a song on a device that they liked? Can they teach you a music game from when they were a kid? Did they learn how to play an instrument? Can they play it for you now?

Just for fun activities: Here's a song they might know from when they were a student like you. See if your grown-up will dance with you. <https://video.link/w/dtE1>
