

Rhythm Dot to Dot

Recommended for Grades K-2

From: Lesson plan used with the permission of Lisa Sellers

Summary: Using the rhythm indicated, draw a line from one note head to another to make a shape.

Rhythm Dot to Dot

What You Need:

- Pencil

Start by looking at the rhythm under each rounded box. Draw a line connecting the noteheads (the round part of a note) together to make a shape.

Music Terms and their Definition:

Notehead: The round part of a note

Quarter note: Gets one beat of sound. Students will clap one time per beat and say "Tah"

Eighth note pairs: 2 Eighth notes: Get two equally spaced sounds per beat. Students will clap two times per beat and say "Tee-tee".

Half note: Gets two beats.

Just for fun Activities: See if you can play with the rhythms with the video. Play when a bee touches a flower. Red is for a drum (or use a box), Blue is for a tambourine (or use some coins in a sandwich bag), Yellow is for Triangle (Or use two spoons. Pinch the round part then tap the handles together) If you have a partner you could pick a color to play.
