

Color the Lines and Spaces - Letter Names

Recommended for Grades 3-5

Summary: Color the Line notes and Space note according to their pitch name. See the key below.

If you forgot the names of the lines and spaces of the Treble Staff....see the 2nd page

Color the LINE Notes...E,G,B,D,F see below

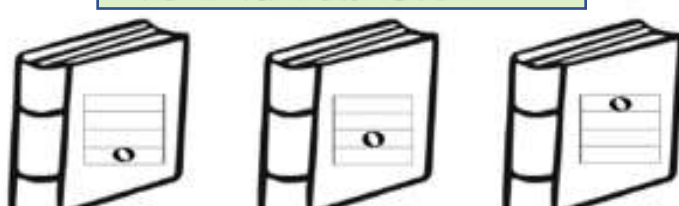

Color the SPACE notes.....F,A,C,E...see below

Directions: Color the books accordingly:
E: Yellow G: Green B: Blue D: Red F: Purple

Directions: Color the books accordingly:
F: Green A: Blue C: Red E: Yellow

Color the Lines and Spaces-Letter Names

What You Need:

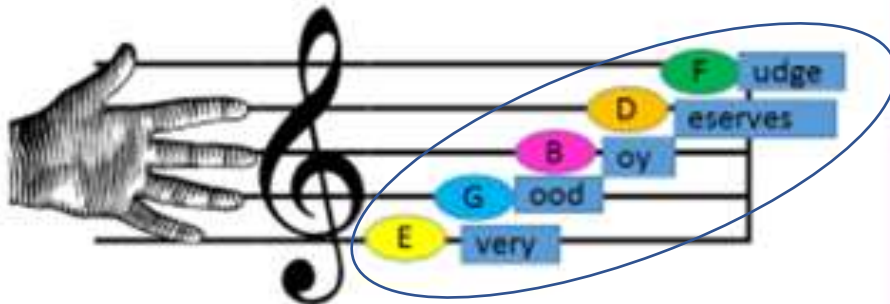

- Something to color with: Yellow, Green, Blue, Red, Purple,
- If you forgot how to name the lines and spaces of the Treble Staff, look on the second page. (You can also rap it!)

Start by practicing how your music teacher taught you, naming the lines and spaces of the Treble staff. If you forgot, or have never learned the names of the lines and spaces on the Treble staff, look at page 2. Line notes are on the left and Space notes are on the right on this page. Use this key to color the specific **LINE** pitches: E=yellow, G=Green, B=Blue, D=Red, F=Purple. Use this key to color the specific **SPACE** pitches: F=Green, A=Blue, C=Red, E=Yellow. Did you notice that some of the letters are the same in the line and space pitches? That's because there are only 7 letters used to name pitches: A,B,C,D,E,F,G. They repeat. We call this the "Music Alphabet."

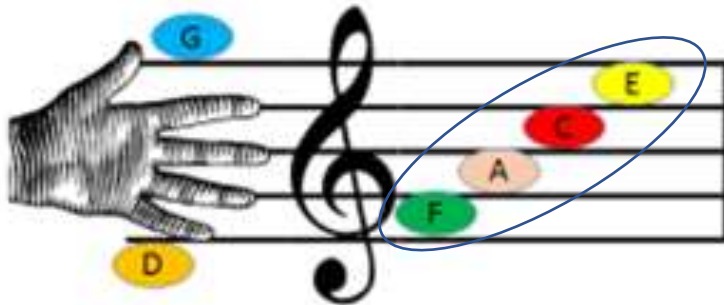

Naming Lines and Spaces Help Sheet

E, G, B, D, F

Are the lines of the treble clef

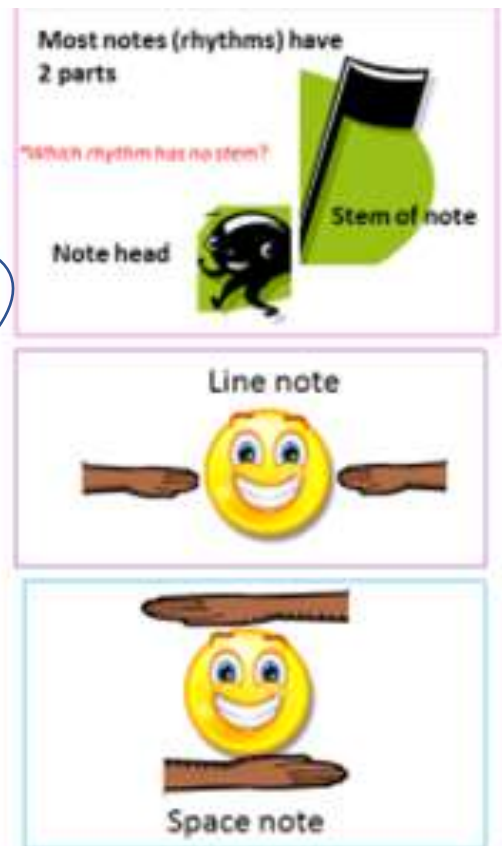

Space: rhymes with F, A, C, E

RAP:

E, G, B, D, F are the lines of the Treble Clef : || F, A, C, E face rhymes with space. Space Face

Deciphering what you are seeing: Look at the three boxes on the side. They show you how the parts of a note and how to tell a line note from a space note. (Hint: line notes have a line in the middle of the round part, space notes don't) A **Treble Clef** is the "cursive S" looking thing at right of each hand. The lines and spaces are called a "**Staff**". When you put a Treble Clef on a staff, then you have a **Treble staff**. As staff has **5 lines** and 4 spaces. There is hand at the left of each staff because you can use your hand as a staff also. Each finger is a line and the spaces between your fingers are the spaces of the staff. Next to the letters on the LINES...you see words. This is a memory trick. If you start from the bottom it says: **Every Good Boy Deserves Fudge**. (Girls, here's your version: **Every Girl Born Deserves Fudge**) this will help you remember them in order. The SPACES make their own memory trick. Starting from the bottom, they spell the word FACE. It turns out that **Space** and **FACE** rhyme. At the bottom of the picture above is a little Rap you can say to help you remember both the lines and spaces. Note: This shape  is called a "Repeat Sign". It means to "do it again". There are two extra notes in the staff with space notes at the very bottom and top called D and G. You will not need those for this activity.

Just for fun: Challenge: Can you name the **rhythm** with legs in the top box, on the right, that is separated into two parts? Hint: Its name has something in common with a spider and octopus.
