

## Rhythm Dot to Dot

Recommended for Grades 3-5

**Summary:** Using the rhythm indicated, draw a line from one note head to another to make a shape.

### Rhythm Dot to Dot

#### What You Need:

- Pencil and a copy of this page

*Start by looking at the rhythm under each rounded box. Draw a line connecting the noteheads (the round part of a note) together to make a shape.*

For each box,...connect the type of note in the box at the bottom to create a dot-to-dot picture shape

1

2

3

Quarter notes

Eighth note PAIRS

Half Notes

#### **Music Terms and their Definition:**

**Notehead:** The round part of a note

**Quarter note:** Gets one beat of sound. Students will clap one time per beat and say "Tah"

**Eighth note pairs:** 2 Eighth notes: Get two equally spaced sounds per beat. Students will clap two times per beat and say "Tee-tee".

**Half note:** Gets two beats.

**Just for fun Activities:** See if you can play with the rhythms with the video. Play when the person jumps on a color. Red is for a drum (or use a box), Yellow is for a tambourine (or use some coins in a sandwich bag), Orange is for Clave (or use wooden spoons), Blue is for Triangle (Or use two spoons. Pinch the round part then tap the handles together) If you have a partner you could pick a color to play. <https://video.link/w/lqZ2> Eine Kleine Nacht Musik
