

InstructionArtificial IntelligenceIntroduction

The Plattsmouth Community Schools acknowledges that artificial intelligence continues to emerge as a resource that may assist students with future technology and different wants of learning. However, artificial intelligence also poses a challenge to delineate the responsible use of artificial intelligence with student plagiarism. As a result, the Board of Education adopts this Policy to specifically address how the District will address academic honesty and integrity regarding a student's use of artificial intelligence/

Permissible Uses of Artificial Intelligence in School Assignments

Students may use artificial intelligence or related platforms when any of the following occurs:

1. The student receives advance permission from the teacher for the given assignment or project; or
2. The teacher's classroom rules or expectations established artificial intelligence as a permissible resource for students to access.

Any student with questions about the use of artificial intelligence should contact their teacher in advance of using artificial intelligence to assist with any assignment. It is the responsibility of each student to understand the permissible use (if any) of artificial intelligence in a given class or for a particular assignment. Students must be fully forthright and honest about their use of artificial intelligence to assist with any school assignment.

Impermissible Uses of Artificial Intelligence in School Assignments

Unless otherwise permitted by this Policy, students may not use artificial intelligence or related platforms to assist or complete any assignment, project, test, or other school-related task. The impermissible use of artificial intelligence may subject the student to discipline in accordance with the District's plagiarism policy and academic dishonesty rules.
