In consideration of the covenants and agreements included herein, Verdant and Contractor agree as follows:

Agreement Summary:

- 1.2. Contractor is established to advance its mission: *Edmonds School District's mission is to advocate for each and every student by providing learning environments that embrace their cultural and linguistic diversity as an asset that will prepare them for success as lifelong learners and responsible world citizens.*

The program will focus on physical fitness, developing friendships, building self-esteem, building confidence, and on the student's mental health. The Move 60! program provides a fun, safe, welcoming environment, where students might be coming from difficult situations. They are with caring adults, friends, and the program allows them to get exercise and breakfast at the before school programs which sets up the student for a successful day where they are ready to learn. When students are enrolled*

in Move 60! they build friendships and they have a connection with a staff member in the school building which in turn creates a connection to the school. The Move 60! program over the years has created a culture of social connectedness with a goal on the importance of having the community play a part in improving health for everyone. Move 60! is different from the outside organizations like Boys and Girls Club, YMCA, or Right At School that offer sports or child care (but not both). The Move 60! program is free versus the other programs that cost money for child care and sports programs. The Move 60! program has an Edmonds School District employee/staff member from the school building leading the Move 60! program and the outside companies hire employees that are not associated with the school.

The Move 60! program strives to help students understand the joy of exercising, feel better mentally, decrease depression and anxiety, and provide an opportunity for students to socialize with friends and bond with a school-affiliated adult.

3.3. Annual Project Outcomes:
