2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Don Callejon TK-8 School opened on August 28, 2006, as the first new school in Santa Clara Unified School District in 40 years. The school is named in honor of Don Callejon, former Superintendent, Board member, and dedicated employee of Santa Clara Unified School District for 43 years. The school serves children in Kindergarten through 8th grade. The 74,500-square-foot school provides students and faculty with a modernized, beautiful campus for learning and recreation. Classrooms are designed around a central courtyard that features an outdoor theater and beautiful grassy knolls. The courtyard also includes a geography court with a map of the world surrounded by a school garden area and an outdoor covered lunch space. Outdoor playgrounds are divided into three areas for kindergarten, elementary, and middle school students and are located adjacent to a city park.

In May of 2019, the Santa Clara Unified School District Board of Education determined that Don Callejon would transition as a K-8 school from two attendance boundaries to one. Attendance boundaries were redrawn in anticipation of new schools opening on the Agnews campus. The following school year, planning began for the focus of Don Callejon K-8 School. A K-8 Task Force was formed and met from November 2019 to June 2020. The Task Force objective for the year was to determine our student outcomes from stakeholder input and to select the best instructional approach for those outcomes. From the 2020 parent survey, parents want a focus on the academic skills of literacy, math, and problem-solving. They value building student confidence and responsibility. DCS parents want the students' experiences of STEAM, performing arts, and sports/athletics. Project-based learning and workshop are ideal instructional approaches for STEAM and so the vision/mission was updated (below), and a three-year plan was developed to transition Don Callejon into a "true K-8" school.

The Don Callejon K-8 Vision Mission:

Don Callejon K-8 STEAM school works to Implement a STEAM experience for experiential and real-world learning in all content areas. Students at DCS do the work and thinking of scientists, engineers, mathematicians, readers, writers, and more. Don Callejon STEAM builds students with deep understanding, agency, and strong connections, on their journey toward the SCUSD graduate portrait.:

- Problem Solvers who communicate effectively and have a deep understanding of content.
- Independent workers who have confidence in their ability to learn. Responsible thinkers who are able to persevere through challenges.
- Respectful citizens with integrity who are empathetic towards others.

2023-24 School Description and Mission Statement

Don Callejon K-8 STEAM school is accomplished in Kindergarten through 8th grade with project-based learning, rigorous workshop instruction, and a focus on the arts.

In the 2023-2024 school year, we became a TK-8 school and shifted our focus from a STEAM school to become Don Callejon Arts and Design School to allow us a greater pull from open enrollment and access to additional resources. We also reformulated our vision statement to focus on our arts and design component and we will be working on our mission statement the remainder of the year:

Don Callejon Arts and Design School ignites the flames of creativity in every student, nurturing their innate talents and fostering a deeper understanding of the world through art and design. We merge technical knowledge and innovation to nurture scholars and empower them as visionary leaders in their field of choice.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. School Facility Conditions and Planned Improvements

General

Santa Clara Unified School District (SCUSD) takes great efforts to ensure that all schools are clean, safe, and functional. To assist in this effort, SCUSD uses a facility survey instrument developed by the State of California OPSC. The results of this survey are available by request made to the SCUSD's Facilities department at (408) 423-2061.

Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Maintenance and Repair

SCUSD maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

Cleaning Process and Schedule

The governing board has adopted cleaning standards for all schools in SCUSD, Board Policy 3514. The policy can be found online at www.santaclarausd.org/BoardPolicies. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

Deferred Maintenance

SCUSD participates in the State School Deferred Maintenance Program to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems.

Modernization Projects

SCUSD strives to be a model of financial responsibility, making every effort to spend taxpayer dollars wisely. At the same time, ongoing bond programs are necessary in a district this large, with so many students, teachers, and facilities needs. Bond funds allow the District to maintain safe, modern school facilities and bring in updated technology essential to student achievement. Measure B 1997 improvements included new elementary school play structures, new high school science classrooms and outdoor athletic facilities, the major renovation of eleven elementary schools, an ambitious roof replacement program, and two high school performing arts buildings. Measure J 2004 generated funds to modernize buildings and classrooms for middle schools, high schools, and the adult education campus. Measure H 2010 upgraded fire, safety and security systems, renovated and reopened a closed elementary school, installed solar panels to decrease energy costs, purchased the Agnews campus property, and expanded overcrowded schools. Measure H 2014 funds construction of three new schools on the Agnews campus, expands overcrowded schools, and addresses critical facility needs such as replacing roofs and adding air conditioning to elementary school classrooms. Measure BB 2018 funds the construction of three new schools, reconstructs fields, replaces aging play structures and playground paving, adds shade structures, and upgrades fencing and gates, among many other crucial projects. More: www.santaclarausd.org/bond

Age of School Buildings

In addition to nearly new classrooms, students enjoy access to a Media Center and Computer Lab with both wireless and hardwired Internet access. A multi-purpose building with a stage, wall tables, and basketball court serve as a place for assemblies, dining, plays, and sports activities. Classrooms are designed around a central courtyard that features an outdoor theater and grassy knolls. The courtyard also includes a geography court with a map of the world and an outdoor covered lunch area. Outdoor play areas are divided into four areas for daycare, kindergarten, elementary and middle school and are located adjacent to a City park.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	52	47	47	47	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parents are encouraged to actively participate in helping the school fulfill its mission. Parents are invited, through multiple publicity channels in English and Spanish, to join the School Site Council, English Learner Advisory Committee, and the nonprofit Don Callejon School Community Organization (DCSCO), which was formed before the school opened its doors, and before many of the parents had school-aged children. Parents are solicited to help with fundraisers, and business-school partnerships are actively promoted through DCSCO. Parents are also welcome during regularly scheduled "Coffee with the Principal" events, which provide a less structured discussion format to discuss issues and concerns that parents may have and to get informal feedback on ideas to strengthen both the school community and the educational experience for our students. We also held a two town halls this year to discuss the new district led Math Pathways and a second town hall to discuss the transition to an Arts and Design School.

Parent participation is required in parent-teacher conferences, Student Study Teams, Individualized Education Plan meetings, and as necessary with staff to ensure student success. The surrounding Rivermark community was actively involved in the planning and design of the school. Parent volunteers remain a cornerstone of the school. It is very common to find parents helping in the classrooms of their own children and throughout the school either as Project Cornerstone volunteers and/or via after school club activities such as Robotics, Crochet Club, and Math Circles.

Anyone interested in becoming more involved is encouraged to contact our school office at (408) 423-3300.

2023-24 School Safety Plan

All California public schools kindergarten and grades one through twelve must develop a comprehensive school safety plan, per California Education Code sections 32280-32289. School safety plans assess school climate and safety, identifying goals and actions to improve safety and climate. The safety plan is written and developed with collaboration from students, parents, community, and law enforcement. It is reviewed and updated annually with the School Site Council (SSC).

We are committed to providing a safe, responsible and respectful school environment for all students, staff, and community. We support and promote building a sense of community and belonging where every child feels included and valued, teaching children positive social skills and attitudes including resolving conflicts without violence, and preparing for and responding appropriately to emergencies and disasters to keep children safe.

The school safety plan is available for review in the school office and was approved by the School Site Council in 2023.

Fiscal Year 2022-23 Types of Services Funded

Don Callejon receives state funding via discretionary and targeted sources. Discretionary funds assist in aiding the school to provide for all the standards supplies and needs of the school, as well as funding the California Youth Outreach program that assists our students where their current lives and/or their past experiences have built a need for mentorship in regards to: conflict management, healthy expression of emotions, problem-solving skills, academic planning, and self-advocacy. The Outreach program works across middle school and high school campuses to make clear expectations and support as they work to define themselves in a positive light.

Our School Site Council and English Language Advisory council help assign our targeted funds to assist our school mission/vision by focusing support and enrichment in 4 areas: English, Math, English Learners, and Social-Emotional Learning. These funds have supported programs such as Math Olympiad, Homework Club, Speech and Debate Club, Robotics, and Walk Through the Ancient World experience. We have also begun a Student Leadership club that will utilize these funds for community building events.

Professional Development

Staff development activities and expenditures are tied to district and school goals including the SPSA, WASC, LCAP, and District Strategic Plan. Staff development time continues to support teachers in self-reflection, analysis of student achievement data, and collaboration activities designed to help reach achievement goals. We believe in modeling lifelong learning for our students by engaging in collaborative sessions and professional development opportunities that align with the school's School Plan for Student Achievement (SPSA) goals and support student achievement in content standards and Expected Schoolwide Learning Results (ESLRs). District and school staff development programs support meeting the academic, social, and emotional needs of all students by providing opportunities for teachers to advance their skills, develop teaching strategies, and create curriculum. During staff in-service days, teachers share information about instructional practices, cognitive development and learning disabilities, and best practices for English Language Learners. These presentations and workshops help us understand who our students are so we can better support them with individual counseling, curriculum design, and instructional practices.

In addition to the number of school days dedicated to districtwide professional development, there is professional development happening on the school campus through professional learning communities, where teachers meet to discuss best practices while assessing student work.

This table displays the number of school days dedicated to staff development and continuous improvement.
