

The Course Catalog and how to use it

Our catalog offers a comprehensive list of courses offered at North Medford High School. The intent of this catalog is to provide students and families with the information to plan for next school year, and beyond.

Students will have required courses set by the State of Oregon, as well as choices of electives. The elective offerings are extensive, and should be explored. Students will need to have an idea of electives they really want to take, and those they would be interested in if their first choice is not available during the schedule process.

Our course catalog has a table of contents on the first few pages. This is a list of topics by page number in this year's catalog. The courses are organized alphabetically starting on page 17, this is after the general information on pages 3-16.
