

# Community School Report

Holden R-3  
School District

March  
2023

## 2023-2024 Calendar Approved

In January each year a calendar committee gathers to discuss possibilities for the next year's academic calendar. Following their meeting, two or three calendar options are then presented to Holden R-3 staff in a survey. The results of the survey are shared with the Board of Education who then choose which calendar to approve. Holden R-3 strives to have a calendar that works for families and allows for productive and effective instructional time. As always, our academic calendars can be found on our website at <https://www.holdenschools.org/domain/342>

## SPRING BREAK March 6-10

### Science Olympiad Qualifies for State

On February 18, our Science Olympiad Teams from Holden High School & Holden Middle School competed at Regionals, held at UCM. The HHS team placed 4th and the HMS team placed 2nd, which means both teams qualified to compete at State! 32 students between middle school and high school will be competing in State Science Olympiad at Missouri State University on April 1. They will be competing in 23 events in Division B (Middle School) and 23 events in Division C (High School). For event specifics and team member names, check out the story on our website at [holdenschools.org](https://www.holdenschools.org) Both MS & HS teams pictured below with awards at UCM.
