2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Lincoln Crossing Elementary (LCE) School opened in August of 2007 and grew to over 700 students. In 2020-21 our LCE underwent a major transition when a new elementary school opened in WPUSD which pulled a significant portion of LCE's student population. Leaving LCE's population closer to 400 students. LCE continues to grow and is now close to 470 students.

The school serves students in grades TK-5 with a TK-K SDC class, RSP, Speech, and intervention support services. A highlight of this campus is our music and science programs. Science and music are provided to students in grades 1-5 by credentialed teachers who are highly qualified to teach these subjects. Our multipurpose room has a full stage where all grade levels put on top notch performances throughout the year. The school has a full library, science lab, music room, and both a Kindergarten and a 1st-5th grade playground to support all types of learning and interests. We maintain a 1:1 Chromebook ratio for all students in grades K-5th to support extended and independent learning opportunities provided by passionate, dedicated teachers who are focused on student success.

The mission of the LCE team is to prepare our students with the skills, knowledge, and attitudes to become lifelong learners and responsible, contributing members of society. We model "The Colt Way" by being safe, respectful, responsible problem-solvers in class, in play, and in life. This year, our professional development goals centered on social emotional support, data management and collaboration schoolwide.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

In general, our district is preparing for anticipated growth in enrollment and improving existing facilities based on the district's Facilities Master Plan. WPUSD has received state grants to improve and upgrade safety at school sites. The safety of students and staff is a primary focus for Lincoln Crossing Elementary School. The school site safety plan is updated annually. The key elements of the school site safety plan encompass student safety and evacuation procedures. Fire, earthquake and lockdown drills are conducted on a regular basis.

To ensure student safety, staff members supervise students at all times before and after school, during recess and lunch. Any visitors to the campus are required to check in at the school's office. The gates and doors are locked throughout the day. There are a total of 20 TK-5 general-education classrooms. The school is in overall good condition. There are sufficient classroom, playground and staff spaces to support teaching and learning. The school has a multipurpose room, a library, two play areas and sufficient classrooms to meet current needs. The principal works with custodial staff members to ensure the cleaning of the school is maintained to provide a clean and safe school. The maintenance staff ensure that any repairs necessary to keep the school in good repair, and all work orders that have been submitted are completed in a timely manner. A work order system is in place giving the highest priority to emergency repairs.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	52	56	40	42	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2022-23 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Lincoln Crossing is always focused on partnerships with our parents and staff and we have a highly active Parent Teacher Club (PTC). We embrace collaboration with our parents and community and have built strong partnerships.

Parents are considered key partners in the education of all students and are involved in a variety of ways including:

- Serving on an active Parent Teacher Club (PTC) coordinating monthly events/activities that support family and student engagement. Activities include an annual Fun Run, Fall Fest, many family events, and buddy nights, a sweetheart dance, and providing special assemblies. They also assist in the funding of classroom and school materials, and supporting extra curricular activities.
- Supporting classroom Art Docent which present monthly art lessons to classrooms using standards based art curriculum and materials provided by our PTC.
- We have re-established "WatchD.O.G.S.", which brings strong male role models to campus. These male figures provide extra supervision before/after school, during lunches, and recesses and they support keeping our students safe. Offering game days and opportunities to build positive relationships.
- The School Site Council/English Learner Advisory Committee support the school by monitoring the Single Plan for Student Achievement Plan offering feedback on our programs and sharing ideas.
- Volunteering in their child's classroom and/or assisting the classroom teacher with various activities on and off campus.
- Attending class field trips scheduled throughout the school year.

We offer multiple parent event nights throughout the year, such as paint nights, Bingo Nights, Student theater performances, cocoa on campus with holiday shopping, teacher appreciation shops that are hosted by local vendors which supports the Lincoln community too.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

2023-24 School Safety Plan

The School Safety Plan is revised each fall and approved by our PTC/SSC in the winter, lays out a plan for ensuring students learn in a secure and safe environment and covers routine and emergency procedures. Arrival and departure procedures are in place to ensure the safe and orderly ingress/egress of students. The campus is a closed campus during the day with all visitors checking in through the office. Staff monitors students at all times throughout the school day including movement about campus and recess times. Classroom doors are locked during the day. Emergency drills are practices each month. The students and staff take them seriously and are successful at completing them within minutes. The district safety survey resulted in providing safety barriers in the front of campus and additional surveillance cameras on campus.

The Positive Behavioral Interventions and Support (PBIS) system is being re-established. PBIS is an evidence-based, tiered framework for supporting students' behavioral, academic, social, emotional, and mental health. When implemented with fidelity, PBIS improves social emotional competence, academic success, and school climate. It is the basis of our reward system, Colts Tickets. Throughout the week staff give Colt Tickets to students for being respectful, responsible, safe, problem-solvers and hold a class drawing on Fridays for rewards.

Fiscal Year 2022-23 Types of Services Funded

Lincoln Crossing receives General Funds and Supplemental Funds under the Local Control Accountability Plan (LCAP) and are monitored by staff and the School Site Council/English Learner Advisory Committee. Some funded areas are as follows:

- General Funds provide materials and supplies needed to operate the school; copy paper, maintenance of copier & Riso, grade level planners, postage, start of school staff meeting
- Supplemental Funds are used to support students with a focus on English Learners, Foster Youth, and underserved students. The following systems develop both academic and social-emotional support for students as needed: Multi-Tiered Systems of Support (MTSS), Positive Behavioral Interventions and Supports (PBIS), Student Support Team (SST), AVID professional development and meetings, Student Leadership Advisors, Intervention Support Providers (ISP), technology support programs
- Substitute costs, when available, for staff to work together on committees, in grade level teams analyzing data to help all students reach their potential.
- Teacher stipends for Yearbook to capture student memories

Professional Development

This year we have focused our Professional Learning (PL) on further developing our Multi-Tier Systems of Support (MTSS), Advancement Via Individual Determination (AVID), and Professional Learning Communities (PLCs). Finding substitutes to cover classes is still a challenge so PL has mainly happened in Staff, Leadership, and PLC meetings, with some virtual options when available.

We remain focused on engaging in “best first instruction” which begins with data analysis. We build our lessons around where students currently are, provide scaffolds as needed and utilize strategies that provide access for all students. This all begins with analyzing student data which means the data needs to be collected. We continue to refine our Cycle of Inquiry Training (data analysis) by having all staff trained on data entry and accessing data in EduClimber so current data can be utilized to plan instruction and develop interventions. The PBIS team is also receiving training in documenting incidents in PowerSchool so we can develop our behavioral approach to meet the needs of the students based on types of incidents. There is also a focus on getting all third through fifth grade teachers certified in AVID. Given we have 5 teachers to certify, we are developing the AVID plan and aligning training in WICOR strategies to strengthen our AVID implementation.

Professional Development

- Our first day of professional development was focused on implementing strong PLCs. We developed protocols and tools to support agenda building and collection of minutes as this information forms the focus for classroom instruction and Tier II interventions.
- Continued training on accessing data to monitor student progress happens during Staff, Leadership, and PLC meetings.
- Our AVID team (3rd-5th grade teachers) participated in a virtual AVID training multiple times throughout the year. They attended individual courses aligned with each teacher's "next steps" as well. Implementation was then followed up during Leadership meetings. There continues to be follow up opportunities and some collaborative courses offered this spring and summer for those who can attend, extending our AVID implementation. Our team has been given the opportunity to participate in AVID mini-sessions that are 90 minutes long; all staff were/are invited to these trainings, which take place after school/contract time throughout the year
- Staff meetings have been utilized to provide PD around MTSS and PBIS, providing a way to have two-way conversation and address specific needs for students and staff. We also visit district provided PD, "Weekly Tech Tips", during the meetings as much as possible
- Staff who are engaging in their annual evaluation process present a set of goals for the year, and we work collaboratively throughout the year to study, reflect, and grow as it relates to their goal
- We continue to train staff on programs that support intervention needs (i.e. Soliday training for our SPED team)
- Meeting weekly with the Special Education Team allows us to monitor student growth, inquire about County Office PD as needed and guide our MTSS implementation as we collaboratively discuss staff and student needs. This year we have had the County Behaviorist guiding implementation of strategies that support student choice in ways they can access communication, resulting in decreases
- Some staff were part of the Math Pilot which provided math training.

Professional learning is encouraged and supported in that we make it available, we compensate staff/teachers for their time, and we encourage sharing of information within our community to build capacity and support building interest in future offerings.
