Summary & Background

On March 11, 2021, President Biden signed into law the American Rescue Plan (ARP) Act of 2021. The ARP Act included an unprecedented \$800 million reservation within the Elementary and Secondary School Emergency Relief (ESSER) Fund to support the specific and urgent needs of homeless children and youth in recognition of the extraordinary impact of the coronavirus disease (COVID-19) pandemic on students experiencing homelessness. The Department is administering these funds through the ARP Homeless Children and Youth (ARP-HCY) Fund. The ARP-HCY fund was created for the purposes of identifying homeless children and youth, providing wraparound services in light of the impact of the COVID-19 pandemic, and providing assistance needed to enable homeless children and youth to attend school and participate fully in school activities, including in-person instruction this spring and summer learning and enrichment programs.

After reserving \$1 million of the \$800 million (0.125 percent) for national activities including technical assistance, the USDE awarded the remaining \$799 million to State educational agencies (SEAs) as follows:

- \$199,750,000 (25% of the \$799 million) was made available to States immediately. NYSED received approximately \$14,720,327 in this disbursement. This disbursement was designed to provide funding to States immediately as a supplement to their McKinney-Vento Education for Homeless Children and Youth HCY funds, so that States can address urgent needs of homeless children and youth—including academic, social, emotional, and mental health needs—and so States and local educational agencies (LEAs) can increase capacity by hiring staff, dedicating resources, and planning partnerships with community-based organizations, among other strategies. Funds must be administered by the Office of the State Coordinator for the Education of Homeless Children and Youth, consistent with the requirements for HCY funds. These funds were disbursed to eligible LEAs through the ARP-HCY Part I Application issued in November 2021.
- \$599,250,000 (75% of the \$799 million) was made available to States after submitting the required application to USDE. Upon approval of New York's State Plan by the USDE, NYSED received approximately \$44,190,109 in the second disbursement. States are required to distribute the funds they will receive in the second phase to LEAs via a formula that uses the LEA's allocation under Title I, Part A (Title I) of the Elementary and Secondary Education Act of 1965 (ESEA) and the number of identified homeless children and youth in either 2018-19 or 2019-20, whichever was greater.. For more information on the NYSED's approved ARP HCY plan, please visit <https://oese.ed.gov/files/2021/09/New-York-ARP-HCY-State-Plan.pdf> .

Timeline

Funds appropriated under the ARP-HCY program will be available for obligation until September 30, 2024.

Allowable Uses of Funds

ARP-HCY Part II funds supplement the HCY program, and all allowable HCY uses apply to these funds. For more information, LEAs should reference the list of authorized activities in section 723(d) of the HCY statute, 42 U.S.C. § 11433(d). These activities may include any expenses necessary to facilitate the identification, enrollment, retention, and educational success of homeless children and youth, such as:

- providing wraparound services (which could be provided in collaboration with and/or through contracts with community-based organizations, and could include academic supports, trauma informed care, social-emotional support, and mental health services);
- purchasing needed supplies (e.g., PPE, eyeglasses, school supplies, personal care items);
- providing transportation to enable children and youth to attend classes and participate fully in school activities;
- purchasing cell phones or other technological devices for unaccompanied youth to enable the youth to attend and fully participate in school activities;
- providing access to reliable, high-speed internet for students through the purchase of internet connected devices/equipment, mobile hotspots, wireless service plans, or installation of community Wi-Fi hotspots (e.g., at homeless shelters), especially in underserved communities;
- paying for short-term, temporary housing (e.g., a few days in a motel) when such emergency housing is the only reasonable option for

2. **In the space provided below, please describe the extraordinary impact of the pandemic on students experiencing homelessness, including academic, social, emotional, and mental health needs.**

CACPCS is a Children's Aid community school. As a community school CACPCS is committed to a whole-child approach to learning and achievement by removing the barriers to learning and creating the conditions for learning. This approach requires a deep understanding of the population of students we serve as well as the community we serve. Since its inception in 2012, CACPCS has utilized a team of full-time and part-time Children's Aid staff dedicated to understanding the strengths and needs of our students, their parents and our community in order to coordinate and deliver a range of comprehensive student services to support our students throughout the year (alongside the teachers and school leaders). This team that we refer to as our Community School team, is led by a Community School Director who supervises an Assistant Community School Director and Life Coach Director who supervise part-time attendance support staff as well as full-time social workers who we call Life Coaches.

The Community School team articulated homelessness as a major barrier to student success at CACPCS under normal circumstances but certainly at the start of the pandemic. This team also noted that homelessness was often accompanied by other complex issues like food insecurity, parental unemployment, domestic violence, and/or immigration issues. Currently, approximately 8% of CACPCS's student population is experiencing homelessness. This has been consistent throughout the pandemic. Of those students who are currently enrolled at CACPCS who are experiencing homelessness, the majority are "doubled up" or living in NYC's shelter system this was also consistent throughout the pandemic.

When schools were forced to transition to remote learning in March of 2020, CACPCS provided tablets and Google Chromebooks to any of our homeless students as well as any student who needed them. As remote learning began in the Spring of 2020, however, the Community School team noticed a pattern of serious absences from those students living in shelters. As a result of our weekly review of attendance data, we began disaggregating our weekly and monthly attendance data so we could track the attendance of homeless students specifically in order to understand those patterns of absences better.

Under the supervision of the Community School Director, the part-time attendance support staff and the Life Coaches established contact with the parents and caregivers while the Life Coach Director established contact with the staff at each shelter. What became clear was that students living in shelters did not have access to the internet consistently. As a result, since April of 2020, CACPCS has supplied hotpots along with devices to homeless students (especially those living in shelters) to ensure they have stable access to the internet to support their learning. Now that CACPCS has returned to in-person schooling for all students, the families of those students who are homeless and/or living in shelters continue to benefit from the use of these hotspots to ensure they are always connected given how COVID classroom closures could have potentially impacted their access to the same remote learning their classmates would have access to when we needed to make that adjustment.

Finally, since the start of this pandemic CACPCS's Life Coaches have continued to provide case management support to homeless students and their families and have made dozens of referrals for this population to services like cash and food assistance programs, mental health providers and housing advocates. Life Coaches and other members of the Community School team provided homeless students and their families with information on how to access COVID-19 resources and connected some of these families to immigration counseling services. Life Coaches also provided grief counseling and opportunities for all students (including homeless students) to express their feelings throughout the pandemic and when there were protests and social unrest. This team of social workers provided a valuable safety net of mental health and social and emotional supports to homeless students and continue to do so today.

As a result of all of these efforts by end of the 2020-21 school year, we saw the attendance of our homeless students improve and even outpace the attendance improvements of some of the other subpopulations we were tracking like our English Language Learners and/or child welfare-involved students. While this COVID-19 crisis appears to be waning, CACPCS families experiencing homelessness are just beginning to recover, as a result CACPCS's Community School team, led by the Community School Director, have continued to provide

Page Last Modified: 04/29/2022

the kind of comprehensive supports described above and will continue to do so for the foreseeable future.

3. **In the space provided below, please describe how the LEA intends to use ARP-HCY Part II funds to address the needs identified in #2 above, including, but not limited to activities intended to:**
- **Increase capacity by hiring staff, dedicating resources, and planning partnerships with community-based organizations, among other strategies;**
 - **Focus on identifying students this spring and to connect students experiencing homelessness and their families to summer learning and enrichment programs this summer (summer 2022), and to engage students and their families in preparation for this fall;**
 - **Identify historically underserved populations such as rural children and youth, Tribal children and youth, students of color, children and youth with disabilities, English learners, LGBTQ+ youth, and pregnant, parenting, or caregiving students experiencing homelessness; and**
 - **Work with community-based organizations for this purpose, as well as to provide wraparound services to these students.**

These activities may include any expenses necessary to facilitate the identification, enrollment, retention, and educational success of homeless children and youth.

CACPCS intends to use 100% of its allocation towards the salary of the Community School Director who leads the work of the Community School team described above, but also serves as the school's McKinney-Vento Liaison. The Community School Director is a member of the school's leadership team and reports to the Head of School, insuring that the needs of our students experiencing homelessness receive strong support from everyone from the part-time staff tracking attendance to the principals and Head of School. The Community School Director supervises an Assistant Community School Director and a Life Coach Director. Together this team oversees afterschool and summer programs; health and wellness services including mental health counseling and social-emotional skill-building; and family support services for all students ensuring students experiencing homelessness are not overlooked as programs are planned and implemented.
