

ALL ABOUT TITLE IX

Your rights and resources under Title IX

WHAT IS TITLE IX?

Title IX is a comprehensive federal law that prohibits discrimination and harassment on the basis of sex in any federally funded education program or activity.

HOW DOES IT APPLY?

Regardless of whether discrimination and/or harassment occurs at school, Title IX obligates school districts to address any impact of that conduct on students that interferes with their ability to access their education. Schools must provide students with their Title IX rights and the contact information for adults at school who can respond to allegations of misconduct and support impacted students.

BVSD AND TITLE IX

It is essential that students and staff members have the confidence that the Boulder Valley School District will do everything in its power to protect victims and to take action against misconduct.

WHAT IS SEXUAL HARASSMENT AND DISCRIMINATION?

Sexual harassment and discrimination affect hundreds of thousands of Americans each year. It is defined as any unwanted, forced, or coerced sexualized misconduct including sex-based comments, gender slurs, unwanted sexual advances, offensive questions about sexual orientation, gender identity, or sexual experience. It also includes nonconsensual touching, groping/fondling, and penetration.
