2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

Martin Murphy Middle School is a California Gold Ribbon School located in the northern section of Morgan Hill Unified School District in south San Jose. Our school is surrounded by the beautiful mountains of Santa Teresa County Park. We have just over 550 sixth, seventh, and eighth-grade students engaged in a rigorous learning environment that promotes academic excellence.

School Vision

The entire staff creates the conditions to address our challenges together because we believe that kids are powerful.

Succinct Mission Statement:

We empower our students with the education and values needed for future success.

Value Statement

We value and are committed to fostering a sense of belonging, building healthy relationships, and creating conditions for meaningful engagement for all.

School Slogan

“Work Hard! Be Kind! Success is NO accident!”

Martin Murphy teachers participate in the Professional Learning Community (PLC) model that promotes the sharing of best practices across all curricula, the implementation of school-wide technology, and the reflection and analysis of student performance data and assessments. Our teachers meet weekly to review assessment data and utilize results to target student

2023-24 School Description and Mission Statement

learning. This process ensures consistent monitoring and change to meet the needs of our students and promote academic achievement. All staff are trained on positive behavior intervention and support (PBIS) to foster a positive school climate. Staff and students participate in bullying prevention strategies, PBIS, and restorative justice practices. Additionally, we have a Wellness Center that is staffed with a full-time Wellness counselor and a Wellness assistant. The Wellness Center is available to students during school hours and encompasses a calm, welcoming environment. Murphy also partners with Discovery Counseling Services to provide on-site therapeutic one-on-one counseling support.

Each of our classrooms is equipped with a networked projector and all students have internet access that helps increase student engagement, academic rigor, content mastery, and 21st-century skills. All students are assigned a Chromebook for use throughout the day and to take home. In addition to using Chromebooks daily in classes, students can extend their learning from home. Additionally, teachers use the innovative learning center (I Center) to complete projects, host guest speakers, and various other engaging learning tasks. Also, we fund an after-school homework center twice a week and a math competition class once a week.

We have expanded the Advancement Via Individual Determination (AVID) Program to include all grade levels at Murphy. The AVID elective teaches students to learn about higher education and to practice critical thinking skills that will help them be successful in college. AVID students visit two colleges or universities each year to experience the challenges and benefits of higher education. This year, most of the AVID students will work daily with our neighboring elementary school, Los Paseos, to mentor, tutor, and engage in fun activities with the younger students.

This year, our band program has expanded from three periods a day to five periods. This allows more specialized classes and a higher number of sixth-grade students to be exposed to music.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

The CDE published the first year of available teacher data for the 2020-21 SARC in June 2022, and the CDE published the second year of data for the 2021-22 SARC in June 2023. The EC Section 33126(b)(5) requires the most recent three years of teacher data to be requested in the SARC, as data is available. The teacher data for the 2022-23 SARC will not be available prior to February 1, 2024, and therefore is not included in the template.

Note: The data in this table is based on Full-Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

School Facility Conditions and Planned Improvements

Martin Murphy Middle School was built in 1977. Currently, the center area of the interior campus (icenter) is being used by classes so students can collaborate and complete large projects. The icenter allows for multiple classes to join as one.

The entire Murphy campus has WiFi, a phone system, and a public address system with clocks and speakers. All classrooms have projectors so students and teachers can present. Within the last few years, the classrooms at Murphy received new ceiling tiles, the old carpet was removed and the classrooms were painted.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	28	25	36	35	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parent involvement and communication are essential to our school's success. Martin Murphy Middle School continually strives to involve parents by exchanging information that helps parents understand and support school programs and by providing opportunities for parent participation in school activities.

We encourage our parents to attend School Site Council and English Learner Advisory Committee meetings to provide feedback for making school decisions. Our Home and School Club is instrumental in fundraising and supporting many school events and activities. In addition, they provide a community venue for parent communication through monthly meetings.

Communication is further enhanced through the Student/Parent Handbook, the school website, student report cards, and Parent Square automated email service. Our Community Liaison regularly provides translation in Spanish for all written and in-person communication. In addition, we have a Back to School Night and Open House to further promote our school programs, student achievement, and school successes. A 6th-grade orientation night is held annually to preview school programs and academics for incoming students.

2023-24 School Safety Plan

The safety of students and staff is a top priority for Martin Murphy Middle School. Before, during, and after school, the campus is monitored by instructional support staff, certificated staff, and administration. All visitors must sign in at the front office and wear appropriate identification while on campus. We have a closed campus, so students are not allowed off campus during the school day. We increased our safety protocols to align with the Santa Clara County Public Health Department's guidelines for school operations.

The comprehensive school safety plan has been designed to assist in preparing for emergencies, managing emergency response efforts, and maintaining a safe school environment. The plan requires identification of security needs, development of prevention and intervention techniques, evaluation of facilities, and communication with staff and students. Components of the plan include child abuse reporting procedures, procedures for teacher notification of dangerous pupils, disaster response procedures, sexual harassment policies, and suspension and expulsion policies. The safety plan was reviewed and updated on September 28, 2023, by the School Site Council. The Board approves site safety plans at the end of January. The staff receives training on the updated safety plan twice annually.

We make the plan available on our school website and keep copies in the office for parents. We ensure all staff is properly trained throughout the year. We practice fire and earthquake drills and active shooter drills throughout the year. An updated copy is available to the public at the school office. The plan includes procedures for emergencies, individual staff responsibilities during an incident, exit routes, and inventories of emergency supplies.

Fiscal Year 2022-23 Types of Services Funded

We receive funding for school improvement and curriculum through state and federal programs. These federal and state funds are used to support student success such as MTSS and PBIS stipends, PLC planning days, software programs for Math and ELA support, curriculum materials, student afterschool support and PD opportunities for teachers. Home and School Club raises funds through fundraisers, donations, and school events. Parents will also donate both funds and services to our school community. These funds are typically spent on student rewards, sports and academic awards and student activities.

Professional Development

Professional development at Martin Murphy Middle School is presented to train teachers and meet the broader school goals. It is designed to assist staff members in refining existing skills and learning new teaching strategies to achieve district and state goals.

The professional development program is ongoing and reflects the vision and mission of our school. Our Guiding Coalition and teachers are committed to the ongoing practices of a Professional Learning Community (PLC). Our teachers analyze formative and summative assessment data to ensure accurate reflections of student academic growth. This information is utilized to inform decisions on learning strategies and best practices to increase levels of student content mastery.

Our Guiding Coalition and English Language Facilitator have provided some professional development opportunities and optional topics provided by admin throughout the year. Teachers have received professional development on Constructing Meaning or are scheduled to receive it. This training provides teachers with lesson-building skills and instructional tools needed to support English Language Learners. Martin Murphy's PBIS Team meets regularly to reflect on the program, refine our practices, and create documents or plan staff and student trainings.

Additionally, data is shared with the Guiding Coalition on classroom observations focused on the school-wide goals selected at the beginning of the year. These goals are based on the district's Five Dimension Focus Questions.

Professional development is offered to administrators and teachers regularly during the school year and summer by the district. Murphy prioritizes and aligns their professional development learning with the School Plan for Student Achievement (SPSA) and the Local Control Accountability Plan.
