

# TECHNICIAN APPRENTICESHIP PROGRAM

## Start Your Technician Career with Ziegler

The Ziegler Apprenticeship Program offers on-the-job training with no prior experience or education required. As a Ziegler apprentice, you will build your skillset through hands-on and classroom training led by Ziegler technical instructors over the course of the 12-month program. The goal at the completion of the training period is for all apprentices to earn a career as a diesel repair technician at the Ziegler location near them.

### ZIEGLER OFFERS
