 - (2 documents)
 - Original Birth Certificate
- You will receive an email to complete the registration process

Kindergarten Screening

Parents/Guardians will receive an invitation to sign up for a Kindergarten Screening appointment on either **May 20th or May 23rd, 2024.**

Kindergarten screening is a great way to familiarize your child with their new school and gives the school an opportunity to meet your child.

A teacher will greet you and your student in the front lobby. Incoming students will go to the school cafeteria with a teacher for kindergarten screening which takes about 30 minutes. Students first meet with a teacher and then have an opportunity to play in a small group with 3-4 other incoming kindergarteners. Parents/guardians wait in the lobby for their student.

What is Kindergarten Screening?

Kindergarten screening assesses a range of developmental tasks including self-care skills, language development, cognitive skills, gross motor skills, and fine motor skills.
