"Partnering with students, families, and community to provide opportunities for life-long success through academic excellence and individual growth in a safe and supportive environment."

February 2, 2024

Lehigh Area Community,

On February 1, 2024, an Instagram account was created for the sole purpose of allowing individuals to post negative and harassing messages pertaining to fellow students. The Instagram page indicated you could pay the creator to remove negative posts or to pay them to reveal who the originator was of those individual posts. Instagram removed the original page last evening; however, a new one was created immediately after. High School Administration and School District Police are working with the Lehigh Borough Police Department to investigate who created the page. We have also referred this to the Carbon County District Attorney's office.

Please know that this administration has zero tolerance for bullying of any kind and will work diligently to protect our school community from individuals who target our students. If you have any information related to this or any other cyberbullying attacks, please reach out to my office at (610) 377-4490 x 1515.

Sincerely,

Dr. Christina Fish
