

**POLICY REGARDING HOLDS ON THE
DESTRUCTION OF ELECTRONIC INFORMATION AND PAPER RECORDS**

The Plymouth Board of Education (the “Board”) complies with all state and federal regulations regarding the retention, storage and destruction of electronic information and paper records. The Superintendent or his/her designee shall be responsible for implementing administrative regulations concerning the placing of a “hold” on electronic information and paper records that may reasonably be anticipated to be subject to discovery in the course of litigation.

All school officials and employees have a duty to preserve all paper records and electronic information, including records and electronic information that might otherwise be deleted or destroyed, that relate to any matter that is currently in litigation or may be anticipated to involve future litigation.

The Superintendent or his/her designee shall be responsible for developing and implementing administrative regulations to preserve records, including e-mails and electronically stored information, that could potentially be related to any matter that is currently in litigation or may be anticipated to result in future litigation. Such regulations shall identify those individuals responsible for identifying those matters for which records must be preserved as well as developing procedures, with the help of technical staff, for the preservation of electronically stored information.

ADMINISTRATIVE REGULATIONS REGARDING HOLDS ON THE DESTRUCTION OF ELECTRONIC INFORMATION AND PAPER RECORDS

I. RECORDS CUSTODIAN

These regulations are designed to assist in implementation of Board Policy P-2002 regarding holds on the destruction of electronic information and paper records. The Superintendent of Schools shall designate a Records Custodian who will be responsible for implementation of District policies and regulations for the preservation of paper records and electronically stored information, including e-mails.

II. HOLDS ON THE DESTRUCTION OF ELECTRONIC INFORMATION AND PAPER RECORDS

Upon receipt of notice that the District is involved in litigation as a party to a lawsuit, the District is issued a subpoena by a party to a lawsuit in which it is not a party, or if the District receives information that would lead a reasonable person to anticipate the possibility of litigation, the Records Custodian is to immediately take steps to ensure that any paper records and electronically stored information that could be related to the litigation or potential litigation are preserved from deletion or destruction. Actions to preserve records and electronically stored information shall include, but are not limited to, the postponing or canceling of any automatic deletion of electronically stored information until relevant information and documents can be identified and stored, notification to employees of a “litigation hold” to prevent the deletion and destruction of documents that might be related to the litigation or potential litigation, and the identification of documents and information that are subject to preservation. This litigation hold triggers the duty to preserve documents, such as transitory messages, that otherwise could be deleted under the district’s record retention policy.

The Records Custodian shall issue a “litigation hold” memorandum that specifically describes the types of documents and information that must be preserved and describes how those materials are to be identified, maintained and stored. The memorandum shall specifically state that the duty of preservation is ongoing and that it is the responsibility of employees to continue to identify and preserve relevant documents until notified via a subsequent memorandum that the litigation hold is no longer in effect. All employees who are sent a “litigation hold” memorandum are to acknowledge receipt and understanding of the memorandum in writing, which may be in the form of an e-mail response. A copy of any “litigation hold” memorandum shall be sent to the District IT department.

The Records Custodian shall be responsible for the collection and coordination of the retention of documents that are subject to the litigation hold, including electronically stored information. He/she shall work with the District’s IT personnel to ensure compliance with the litigation hold. Specifically, the Records Custodian shall determine the types of electronically stored information that exist and where that information is maintained, identify where both identified paper documents and electronically stored information will

be stored, and implement procedures to ensure that District employees are complying with the litigation hold. No system wide process for automatic deletion of electronic information will be implemented while a litigation hold is in effect without prior notice to the Records Custodian and verification by the Records Custodian that the deletion process will not destroy documents or information that is subject to a litigation hold. The Records Custodian may need to periodically reissue the “litigation hold” memorandum and will ensure that the “litigation hold” memorandum is provided to new employees who may have access to relevant information. Finally, the Records Custodian shall ensure that all steps taken by the District to identify and preserve relevant information are documented.

REVISED _____

POLICY REGARDING RETENTION OF ELECTRONIC RECORDS AND INFORMATION

I. POLICY

The Plymouth Board of Education (the “Board”) complies with all state and federal laws and regulations regarding the retention, storage and destruction of electronic information and records. The Superintendent or designee shall be responsible for developing and implementing administrative regulations concerning the retention, storage, and destruction of electronic information and the dissemination of such administrative regulations to all school officials, employees, and individuals granted access to the computer systems and/or networks of the Plymouth Public Schools (the “District”) and/or who send electronic messages as part of their work for the District. Collectively, all individuals granted access to the District’s computer systems are referred to as the “Users”.

II. USE OF ELECTRONIC MESSAGES AND ELECTRONIC COMMUNICATIONS

The Board has installed computers and a computer network(s), including Internet access and electronic messaging systems, on Board premises and may provide other electronic devices that can access the network(s) and/or have the ability to send and receive messages with an operating system or network communication framework. Devices include but are not limited to personal computing devices, cellular phones, Smartphones, network access devices, radios, personal cassette players, CD players, tablets, walkie-talkies, personal gaming systems, Bluetooth speakers, personal data assistants, and other electronic signaling devices. Electronic messaging systems include mobile, chat, and instant message; cloud collaboration platforms, including internal chat, peer-to-peer messaging systems, and draft email message transfer; and products that have the ability to create duration-based or subjective removal of content, such as Snapchat, and security focused platforms, such as Signal. The Board’s computers, computer networks, electronic devices, Internet access and electronic messaging systems are referred to collectively as "the computer systems" and are provided in order to enhance both the educational opportunities for our students and the business operations of the District.

Electronic messages sent by Users as part of their work and/or by using the District’s computer systems and/or network(s) are not private communications and are potentially subject to disclosure, regardless of whether the messages are sent using personal devices or the District’s computer systems. Users must understand that the Board has reserved the right to conduct monitoring of the District’s computer systems and may do so *despite* the assignment to individual Users of passwords for system security. Any password systems implemented by the District are designed solely to provide system security from unauthorized users, not to provide privacy to the individual system User.

The system's security aspects, message delete function and personal passwords may be bypassed for monitoring purposes. Therefore, Users must be aware that they should not

have any expectation of personal privacy in the use of these computer systems. This provision applies to any and all uses of the District's computer systems, including any incidental personal use permitted in accordance with the Board's policy and regulations regarding computer use by Users.

Any retained messages may be retrieved as part of routine monitoring by the Board, an employee investigation, a search for documents pursuant to a Freedom of Information Act request, or a formal discovery process as part of litigation. Users should bear in mind that electronic messages may be retained at different locations within the computer network and that these messages are subject to retrieval, regardless of whether the User has deleted such messages from the User's accounts. Consequently, Users should use discretion when using computers or other electronic technology to send, record or retain electronic messages and information.

III. RETENTION OF ELECTRONICALLY STORED INFORMATION

Electronically stored information on District computers or electronic communication systems shall be retained only as long as necessary. The same record retention policy that applies to paper records applies to electronically stored information, including electronic messages. Therefore, like paper records, the content and function of an electronic record, including electronic messages, determines the retention period for that document. The District will comply with all of the minimum standards set forth in the Municipal Records Retention Schedules, as issued by the Office of the Public Records Administrator for the State of Connecticut.

In addition to the retention guidelines established by the Board and used by District officials and employees, all District officials and employees have a duty to preserve all records and electronic information, including records and electronic information that might otherwise be deleted or destroyed, that relate to any matter that is currently in litigation or may be anticipated to involve future litigation.

**ADMINISTRATIVE REGULATIONS REGARDING THE
RETENTION OF ELECTRONIC RECORDS AND INFORMATION**

I. RECORDS CUSTODIAN

These regulations are designed to assist in implementation of Board Policy P-2002 regarding the retention of electronic records and information. These regulations supplement and do not replace District policy relating to education records.

The Superintendent of Schools shall designate a Records Custodian who will be responsible for implementation of District policies and regulations for the retention of records, including electronic messages and electronically stored information.

II. DEFINITIONS

- A. Electronic messages include e-mail, fax, instant messaging, text messaging, and Web-based messaging services. Electronic messages may be transmitted by a variety of mediums, including computers and mobile computing devices. In addition to the body of the message, electronic messages also contain metadata, such as transactional information (e.g., date and time sent, sender/receiver) and may contain attachments such as calendars, directories, distribution lists, sound recordings, photographs, images, word-processing documents, spreadsheets, and other electronic documents.
- B. Electronically stored information is information that is fixed in a tangible form and is stored in a medium from which it can be retrieved and examined. It can consist of writings, drawings, graphs, charts, photographs, sound recordings, images, and other data or data compilations stored in any medium from which information can be obtained into usable form.
- C. Public records are any recorded data or information relating to the conduct of the public's business prepared, owned, used, or received by a public agency, whether such data or information is handwritten, typed, tape-recorded, videotaped, printed, photostated, photographed or recorded by any method.
- D. Digital imaging is the process of converting original records on paper or film into electronic images. The process typically requires a document scanner or digital camera, a computer and software to capture the image, and indexing of the digitized images.
- E. Transitory correspondence consists of communication that does not relate to an individual's job responsibilities or has a short term administrative value.
- F. Routine correspondence consists of any communication that is part of or relates to commonplace tasks or duties within an office and is done at regular or specified

intervals.

III. CLASSIFICATION OF ELECTRONIC MESSAGES

The same record retention policy that applies to paper records applies to electronically stored information, including electronic messages. Therefore, like paper records, the content and function of an electronic record, including electronic messages, determine the retention period for that document. The District will comply with all of the minimum standards set forth in the Municipal Records Retention Schedules, as issued by the Office of the Public Records Administrator for the State of Connecticut.

Users shall use the following steps in determining whether to maintain electronic messages and, if so, for how long:

Step 1: Determine whether the message is a public record or a non-record.

Step 2: If the message is a non-record, destroy at will (e.g., spam and unsolicited advertisements).

Step 3: If the message is a record, determine which records series the message belongs to, for example:

1. If the message is Transitory Correspondence, delete at will.
2. If the message is Routine Correspondence, retain for 2 years.
3. If the message is All Other Correspondence, retain for the equivalent records series.

Step 4: Maintain the messages for the required retention period under the equivalent records series.

IV. DIGITAL IMAGING OF PAPER/HARD COPY RECORDS

Paper records may be digitized and maintained as electronic records; however, in doing so, the District must ensure the authenticity, reliability, integrity and usability of the reformatted records. If the District uses a vendor for digital imaging services, the District remains responsible for ensuring compliance with this policy.

In its use of digital imaging, the District shall:

1. Establish and maintain a quality assurance process to ensure the creation of accurate and authentic digital images and accurate indexes and production metadata.
2. Create and maintain accurate and authentic digital images in accordance with accepted standards and best practices.
3. Create and maintain accurate indexes and production metadata to properly identify and retrieve digital images.

4. Store and protect digital images against file corruption, alteration, or deletion throughout the designated retention period.
5. Perform periodic backups of all digital images, associated indices, and production metadata and maintain a geographically remote offsite backup copy to enable recovery and access in the event of a wide-spread disaster or emergency.
6. Perform and certify annual tests of backup media to ensure all files have been backed up and are readable.
7. Migrate digital images, associated indexes, and production metadata to a newer media platform or file format as needed to ensure the content remains accessible.
8. Define and document the normal operations and use of the imaging technology and electronic content management system to ensure system trustworthiness.

If paper public records have been converted to digital images, the District shall retain and/or dispose of the original paper records pursuant to the following guidelines.

Permanent

If records are required to be retained permanently or have been designated as archival, they may be digitally scanned and retained in an electronic format, but security copies of the records must be retained in a “human-readable” format, such as paper or microfilm. The Records Custodian must first verify with the Office of the Public Records Administrator for approval of the security copy storage format.

Less than Permanent

These records may be transferred to a digital imaging format with disposal of the original, paper records. To dispose of the original records following their digital imaging, the Records Custodian must first obtain prior authorization from the Public Records Administrator and State Archivist (using Form RC-075.1, available from the Office of the Public Records Administrator). Following destruction of the original records, the Records Custodian must document that the paper records were destroyed lawfully.

To dispose of digital images once the minimum retention period has expired, the Records Custodian shall obtain prior authorization from the Public Records Administrator and State Archivist. The District must document that the digital images were destroyed lawfully under the appropriate disposition authority. The District shall follow a destruction process by which content is systematically deleted with an audit trail that is legally admissible in court. Destruction should be documented by recording the date of destruction on the form “Records Disposition Authorization” and attaching any supporting documentation, or by following the District’s process for documenting document destruction. After disposing of the records in accordance with these procedures, the Records Custodian will follow all other steps required by the Office of

the Public Records Administrator.

V. RETENTION OF ELECTRONIC RECORDS

Electronic messages and electronically stored information will be archived by the District for their required retention period using method(s) approved by the Records Custodian, which may include the following:

1. Print message or record and store in appropriate hard copy file.
2. Place in computer folders and save on hard drive.
3. Save to a removable disk which is then stored in an appropriate location.
4. Transfer to an automated records management software application.
5. Manage at the server by an automated classification system.

The Records Custodian will be responsible for working with the District Systems Administrator to implement a schedule and system for reviewing electronically stored information. This review shall occur at least annually. No system wide process for automatic deletion of electronic information will be implemented without notice to any individual who may have such information and each such individual will verify that they have reviewed and archived information that must be retained. Following this review, all electronic messages and/or electronically stored information that have not been archived according to District policies and procedures shall be designated for deletion or archiving, and the affected District Users will be notified about the procedures to be followed to implement this process. The Records Custodian or designee shall follow up with notified Users to ensure compliance.

Additionally, the Records Custodian, working with the District Systems Administrator, shall ensure that any process for automatic deletion of electronic information from the system will not delete information stored in folders and/or system locations that have been designated as appropriate for archiving electronically stored information.

ADOPTED – 9/14/2022

REVISED – 11/9/22

UNIFORM TREATMENT OF RECRUITERS

Subject to the provisions of law, all recruiters, including commercial, military and nonmilitary concerns, recruiters representing institutions of higher education, and prospective employers shall be provided equal opportunities of access to students enrolled in the district's secondary school[s]. Access may be granted through programs conducted by the Guidance Department. Such programs may consist of career days, college fairs, and individual school visitations.

Except as provided below, military recruiters and institutions of higher education shall, upon request, be given access to the names, addresses and telephone numbers of secondary school students.

On an annual basis, the school district will notify parents of secondary school students of their right to object to the disclosure of the student's name, address and telephone number to military recruiters or to an institution of higher education. If a secondary school student or the parent of a secondary school student objects in writing to the disclosure of a student's name, address or telephone number to a military recruiter or an institution of higher education, then the district shall not disclose the student's name, address or telephone number to a military recruiter or an institution of higher education. The objection shall remain in force until the district re-issues the annual notification referenced above, after which time the parents and/or secondary school student must inform the school district in writing again of their objection to the disclosure of the information described above.
