RE: Nomination for membership to the Marin County Committee on School District Organization

Dear Deputy Superintendent Mares,

With the upcoming expiration of my term on the Marin County Committee on School District Organization for Supervisorial District #3 (Moulton-Peters), I am submitting the accompanying nomination for continuing my service as a member of the MCCSDO.

Having been closely involved with the public schools in Mill Valley over several years, as well as a member of the SDO for the past eight years, it would be a privilege to continue to serve our County on the SDO.

In my experience as a trustee of the Mill Valley School District, serving as both Board Vice President and President for annual terms, I understand the importance of listening to an electing constituency, communicating information and decisions to that community, working with district staff, all the while keeping the educational best interests of our community's students at the center of all discourse, debate, and decision making. These skills have proved essential in a few of the important matters that have come before the SDO over the past eight years, including decisions about boundaries between the Larkspur-Corte Madera and Reed Union School Districts, the lapsation of the Union Joint School District and annexation into Lincoln School District and the recent lapsation and annexation of the Lincoln Union School District into Laguna Joint School District.

Qualifications:

- Resident of Marin (and Supervisorial District #3) since 1995.
- Parent of two children educated in Marin County public schools (Mill Valley Middle School and Tamalpais High School).
- Trustee, Mill Valley School District, 2009-2013 (with terms as VP and President)
- Member, Marin County Joint Legislative Advisory Committee (JLAC), 2010-2012.
- Vice President, Marin County School Boards Association, 2011-2013.
- Member, PTAs of Tam Valley Elementary, Mill Valley Middle School, It Takes A Village Special Education PTA, Tamalpais High School.

- Volunteer, in the following Mill Valley School District efforts: successful 2008 Measure A parcel tax campaign, successful 2009 Measure C bond capital campaign, successful 2012 Measure B parcel tax campaign, and the successful 2016 Measure B parcel tax campaign.

Kind regards,

Marin County Committee on School District Organization
Nomination Statement for Supervisorial District 5

Debbie Butler

It would be an honor to continue my service on the Marin County Committee on School District Organization (MCCSDO) representing Supervisorial District 5 for another term. I have had the privilege to serve as a committee member the last 4 years. I have really enjoyed serving with experienced and committed MCCSDO members.

For the past 15 years I have had the privilege to serve as a Trustee on the Novato Unified Board of Education. Over those 15 years I have served as Board President five times. I became aware and familiar with the MCCSDO committee when I served five years on the Marin County School Boards Association as the Novato representative and president for two of those years. I also continue to serve on the Marin County Efficiency and Effectiveness Collaborative (E2) for the past 12 years.

Thank you for your consideration.

Re: AGENDA ITEM #6: Ratification of Resolution No. 001-2021, Lapsation & Annexation of Lincoln Union School District into Laguna Joint School District

On May 26, 2021 the Marin County Committee on School District Organization voted to approve the lapsation and annexation of the Lincoln Union School District into the Laguna Joint School District. While both the lapsation and annexation were approved, the County Committee did not take action on the resolution included in the May 26th meeting packet. Therefore, we are requesting the County Committee to ratify Resolution No. 001-2021 during the Annual Organizational Meeting.

Resolution No. 001-2021 is attached for your consideration. The full meeting packet from the May 26th meeting, which includes materials pertaining to the lapsation and annexation of Lincoln Union, are available here: <https://bit.ly/3Hvn7wg>

**MARIN COUNTY COMMITTEE ON
SCHOOL DISTRICT ORGANIZATION**

Resolution No. 001-2021

Whereas, By Resolutions No. 2020-08-09-B and 0908-2020-02 the Governing Boards of the Lincoln Union School District and the Laguna Joint School District resolved to partner in school district reorganization to take effect July 1, 2021 pending affirmation by the Marin County Committee on School District Organization; and

Whereas, By Resolution No. 04132021-01 the Governing Board of the Lincoln Union School District confirmed its support of being received by the Laguna Joint School District in a school district reorganization lapsing the Lincoln Union School District to take effect on July 1, 2021 pending confirmation by the Marin County Committee on School District Organization; and

Whereas, By Resolution No. 2021-134A the Governing Board of the Laguna Joint School District affirms its commitment to becoming the receiving district in a school district reorganization lapsing the Lincoln Union School District to take effect on July 1, 2021 pending confirmation by the Marin County Committee on School District Organization; and

Whereas, on May 17, 2021 the Marin County Committee on School District Organization held a duly noticed public hearing on the lapsation and annexation of the Lincoln Union School District; and

Whereas, the Marin County Committee on School District Organization has reviewed all documents set forth as "informational items" for section five of the agenda for the public hearing, true and accurate copies of said documents being attached to this resolution; and

Whereas, the Marin County Committee on School District Organization considered all comments, verbal as well as written, received during the public hearing; and

Whereas, the Marin County Committee on School District Organization finds that all jurisdictional and procedural requirements have been met regarding the lapsation of the Lincoln Union School District; and

Whereas, the Marin County Committee on School District Organization finds that lapsation and annexation of the Lincoln Union School District and inclusion of the entire territory of the Lincoln Union School District into the Laguna Joint School District is "in the best interest of the adjoining districts and the residents of the lapsed Lincoln Union School District"; and

Whereas, the Marin County Committee on School District Organization met in public session on May 26, 2021 to consider taking final action on this matter and during said meeting considered all further comments from the representatives from the Lincoln Union School District, other adjoining school districts, and members of the public and then discussed the matter further;

Now, Therefore Be It Resolved, that effective July 1, 2021 the Lincoln Union School District is lapsed and as of that date its entire territory shall be included within the Laguna Joint School District; and

Be it Further Resolved, that the Marin County Superintendent of Schools, or designee, serving as secretary to the Marin County Committee on School District Organization, shall prepare all notices necessary or in furtherance of this action.

Re: AGENDA ITEM # 7: Overview of the Marin County Board of Education Trustee Area Redistricting Process

In 2020 the decennial federal census was conducted. Following each decennial federal census, and according to Education Code 1002, adjustments must be made to boundaries of any or all of the trustee areas of the county board of education, using population figures validated by the Demographic Research Unit of the California Department of Finance as a basis. The materials before you include a packet of historic documents from the Marin County Board of Education Trustee Area Redistricting process.

- Scenario 2
- Scenario 3
- Scenario 3A
- Hispanic Population Data
- Public Comment
- Legal Presentation
- Demographer Presentation
- Marin County Board of Education Resolution No. 1004, Approving Trustee Area Redistricting

In 2012, Elections Code 21003, changed the way inmates were counted for census purposes to the residential address prior to incarceration. This shift impacted Marin County's population, specifically, to Trustee Area 2, as San Quentin's inmate population was previously included with the 2010 Census.

Other modest changes in the area served by the Marin County Office of Education from 2010 to 2020, include:

- Overall population growth of over 5,950 (2.3%)
- Changes in the demographic composition, most notably, increases in the proportional share of Hispanic/Latino and Asian populations.

As a result of the 2020 Census analysis conducted by contracted demographers, the ideal Trustee Area size is 37,255. The Marin County Board of Education reviewed four boundary map scenarios, provided by

the demographers and reviewed by County Board of Education counsel, to attain nearly equal populations within each Trustee area. As of the November 9, 2021 Marin County Board of Education meeting, the Board adopted Resolution No. 1004 to approve boundary map scenario 3A for County Committee consideration.

Role of the County Committee

1. Upon being so requested by the county board of education, the County Committee shall adjust the boundaries of any or all of the trustee areas of the county board of education as necessary to meet the population criteria set forth in Education Code 1002 (attached).
2. The County Committee may give consideration to the following factors:
 - (1) Topography
 - (2) Geography
 - (3) Cohesiveness, contiguity, integrity, and compactness of territory
 - (4) Community of interests of the trustee areas.

In any event, the county committee shall ensure that trustee areas are as nearly equal in population as practicable.

3. For your consideration, Resolution No. 002-2021, Approving Marin County Office of Education Trustee Area Redistricting, represents the culmination of the Marin County Board of Education process and request of the County Committee.

1002.

(a) Upon being so requested by the county board of education, the county committee on school district organization, by a two-thirds vote of the members ,may either change the boundaries of any or all of the trustee areas of the county, or propose to increase or decrease the number of members of the county board of education, or both. The trustee areas shall be as nearly equal in population as may be, except that in establishing or changing the boundaries of the trustee areas the county committee may give consideration to the following factors:

- (1) Topography.
- (2) Geography.
- (3) Cohesiveness, contiguity, integrity, and compactness of territory.
- (4) Community of interests of the trustee areas.

In any event, the county committee shall ensure that trustee areas are as nearly equal in population as practicable.

(b) Following each decennial federal census, and using population figures validated by the Demographic Research Unit of the Department of Finance as a basis, the county committee shall adjust the boundaries of any or all of the trustee areas of the county board of education as necessary to meet the population criteria set forth in subdivision (a).

(c) Changes in trustee area boundaries or a proposed reduction in the number of county board of education members shall be made in writing and filed with the county board of supervisors not later than the first day of March of any school year.

(d) In those counties in which the election of members of county boards of education are required to be held on the same date as prescribed for the election of members of governing boards of school districts, as provided in Section 1007, the county committees on school district organization shall fix the boundaries of trustee areas, insofar as possible, to coincide with the boundaries of school districts.

(e) Whenever the boundaries of trustee areas are changed so as to be coterminous with those of supervisorial districts of the county, the election for members of the county board of education shall be consolidated with the countywide election.

Legal Guidance

Assistant General Counsel for Schools and College Legal Services, Kaitlyn Schwendeman provided the following:

- The U.S. Supreme Court, in interpreting the federal Voting Rights Act, and the U.S. Constitution, have found that a variance of 10% or less of the population between districts is presumptively constitutional.
- California's Voting Rights Act (CVRA) includes additional restrictions related to minority populations.
- The variances for Scenarios 1, 2, and 3 all follow applicable redistricting laws in that they maintain a majority "minority" area in Trustee Area 2.

2020 Redistricting Timeline

April 2021

- Consulted with legal counsel on redistricting process

May 2021

- Interviewed demographers
- Selected demographer

August 2021

- Preliminary census data becomes available
- Demographer evaluates census data within each voting area of the Marin County Board of Education
- [Initial presentation](#) on redistricting process to Marin County Board of Education
- [Redistricting website](#) created at marinschools.org

September 2021

- Presentation on evaluation of existing voting areas - receive input on potential adjustments
- Final validated redistricting data released by the California Department of Finance

October 2021

- Recommendation of draft redistricting maps Scenario 1 and 2 presented to Marin County Board of Education
- Board reviews and discusses draft redistricting maps from demographer; additional scenario requested
- Draft Maps Posted to [MCOE redistricting website](#)

November 2021

- Public Hearing: Board consideration of redistricting maps provided by demographer
 - The Marin County Board of Education takes action to select a redistricting map and requests the County Committee on School District Organization (CCSDO) to change boundaries according to the 2020 census data.

December 2021 – January 2022

- Marin CCSDO considers redistricting request, per Education Code Section 1002
 - The county committee may give consideration to the following factors:
 - (1) Topography
 - (2) Geography
 - (3) Cohesiveness, contiguity, integrity, and compactness of territory
 - (4) Community of interests of the trustee areas.

In any event, the county committee shall ensure that trustee areas are as nearly equal in population as practicable.

February 2022

- Final trustee area map and descriptions to the County Registrars of Voters and County Boards of Supervisors

March 1, 2022 – Deadline to submit redistricting changes

SCENARIO 1

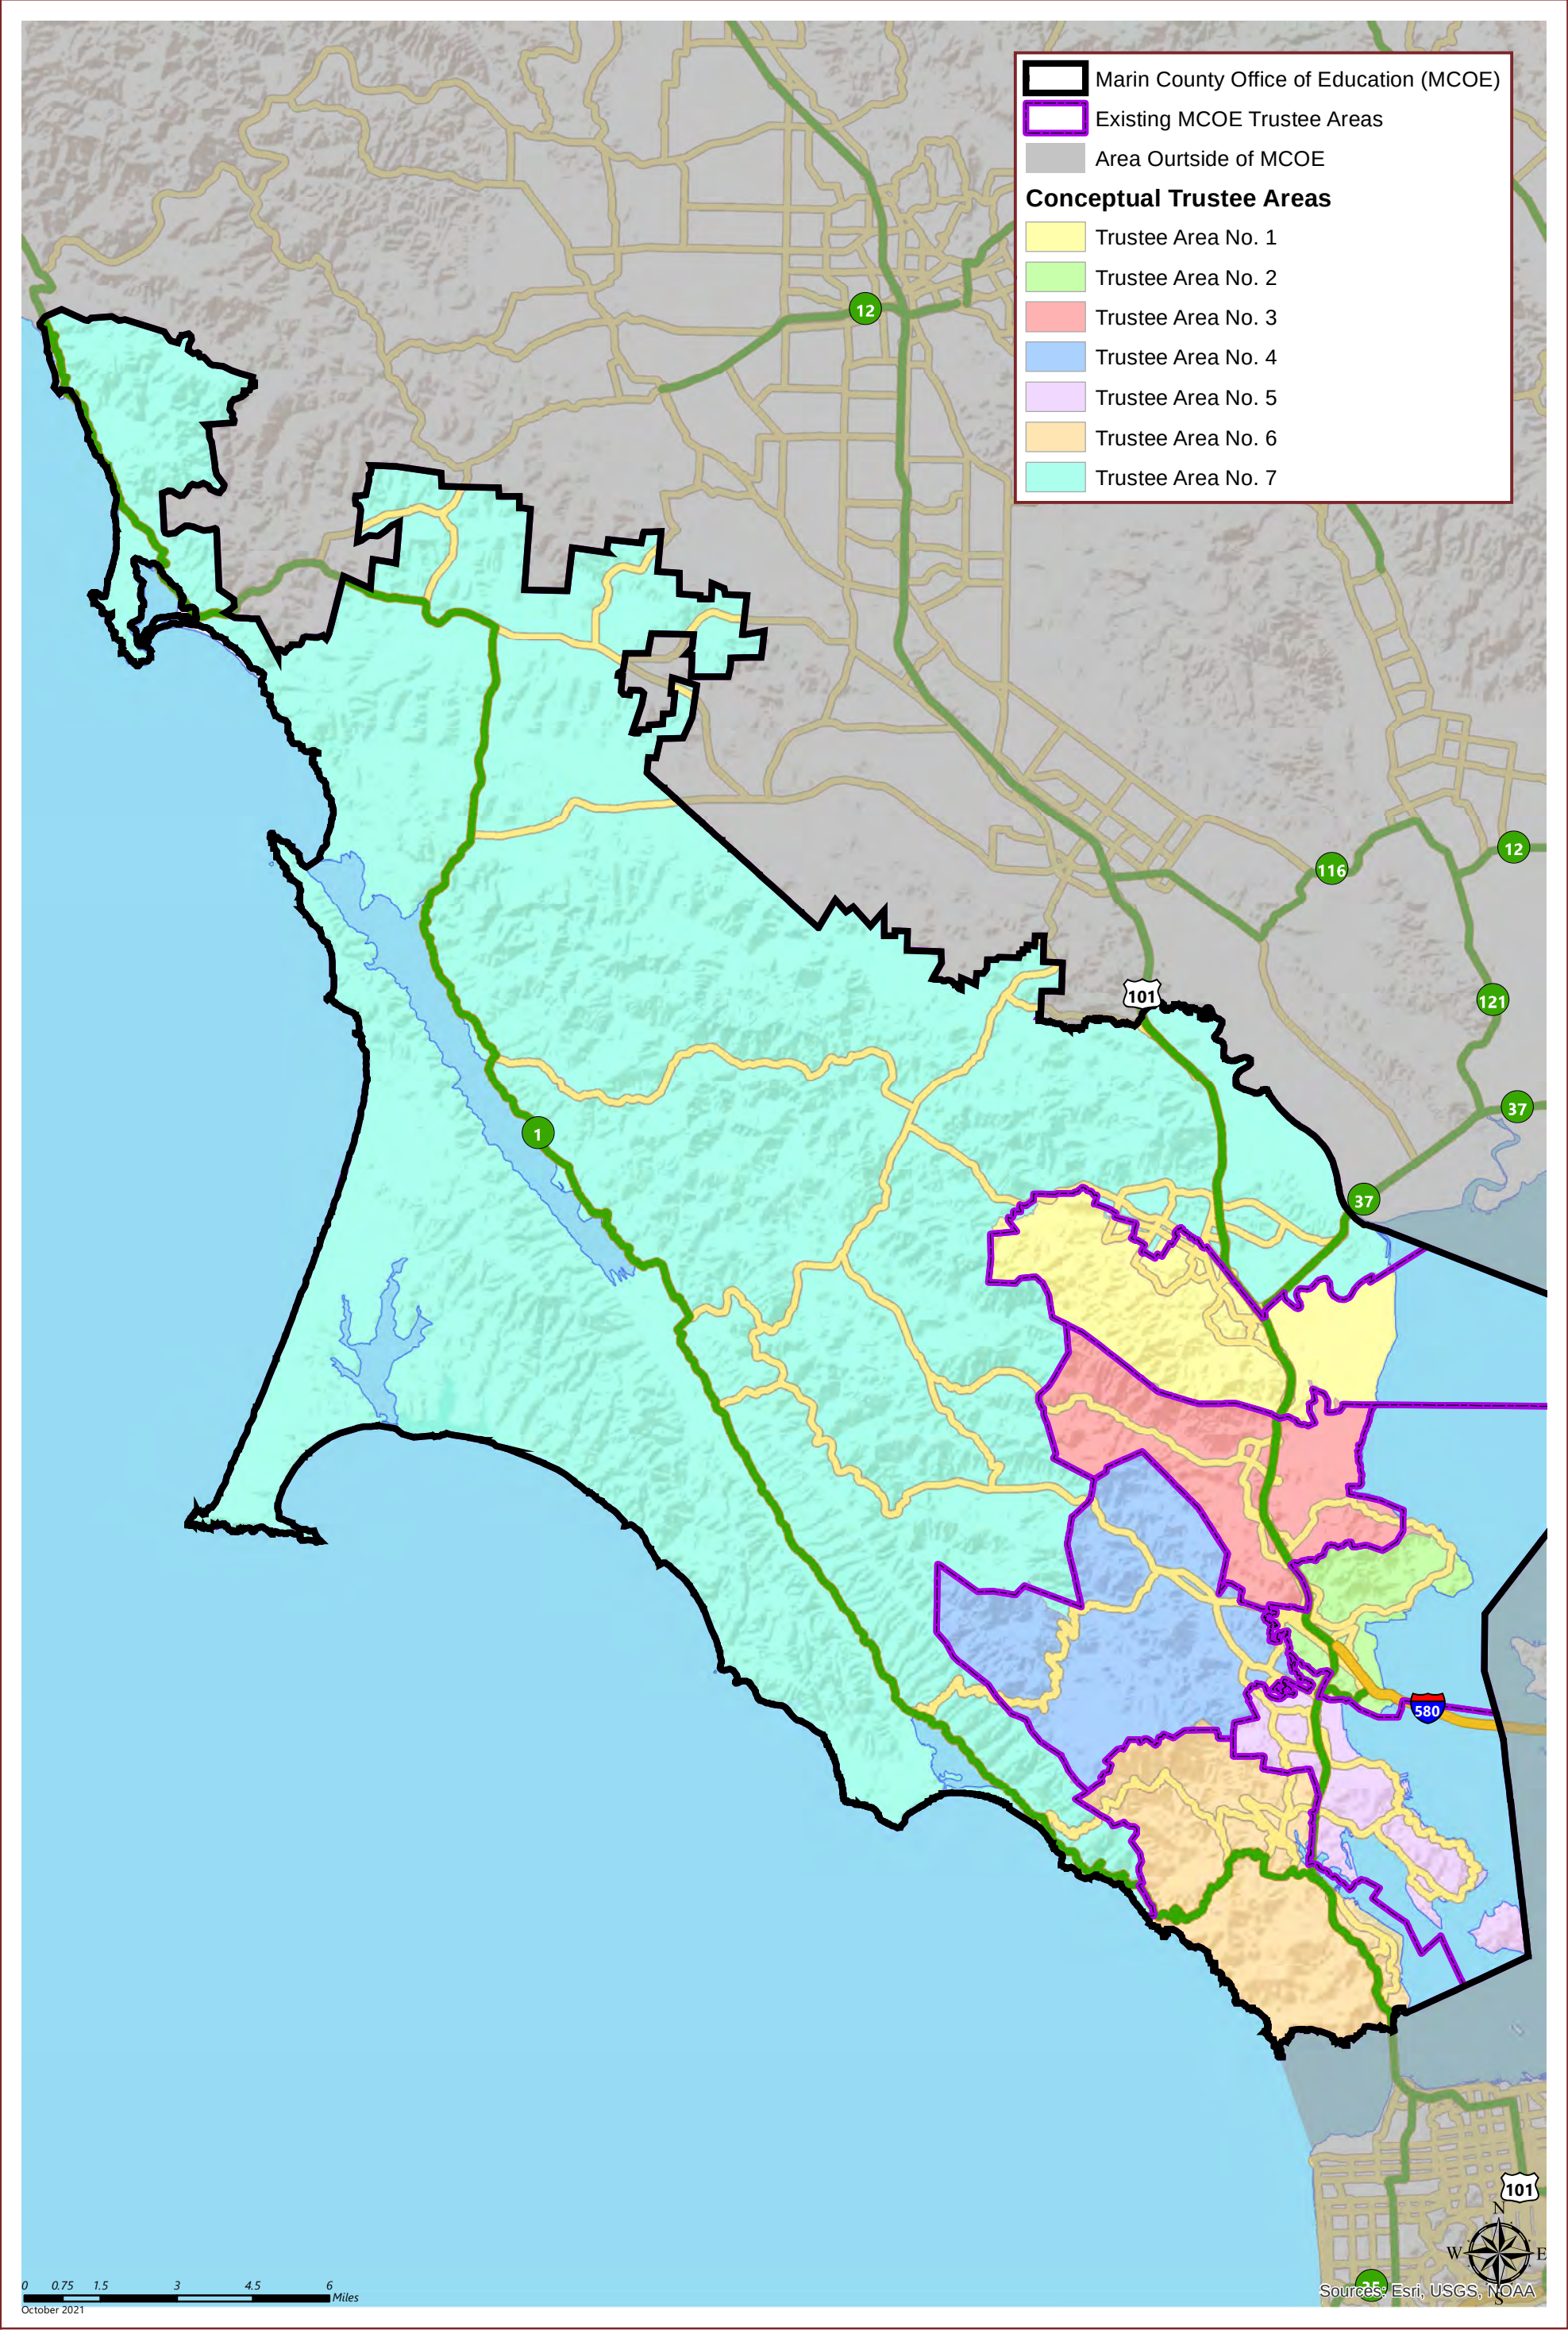

Description and Details

Scenario 1: Shared during the October Marin County Board of Education meeting

- Creates a clear boundary between Trustee Areas 4 and 5 (Greenbrae area)
- Trustee Area 5 now encompasses more of the Greenbrae area, rather than divide it into two areas
- Narrows the division of the Larkspur area from three Trustee Areas (2, 4 and 5) to two Trustee Areas (2 and 5)
- Moves all the Santa Venetia area into Trustee Area 3

SCENARIO 2

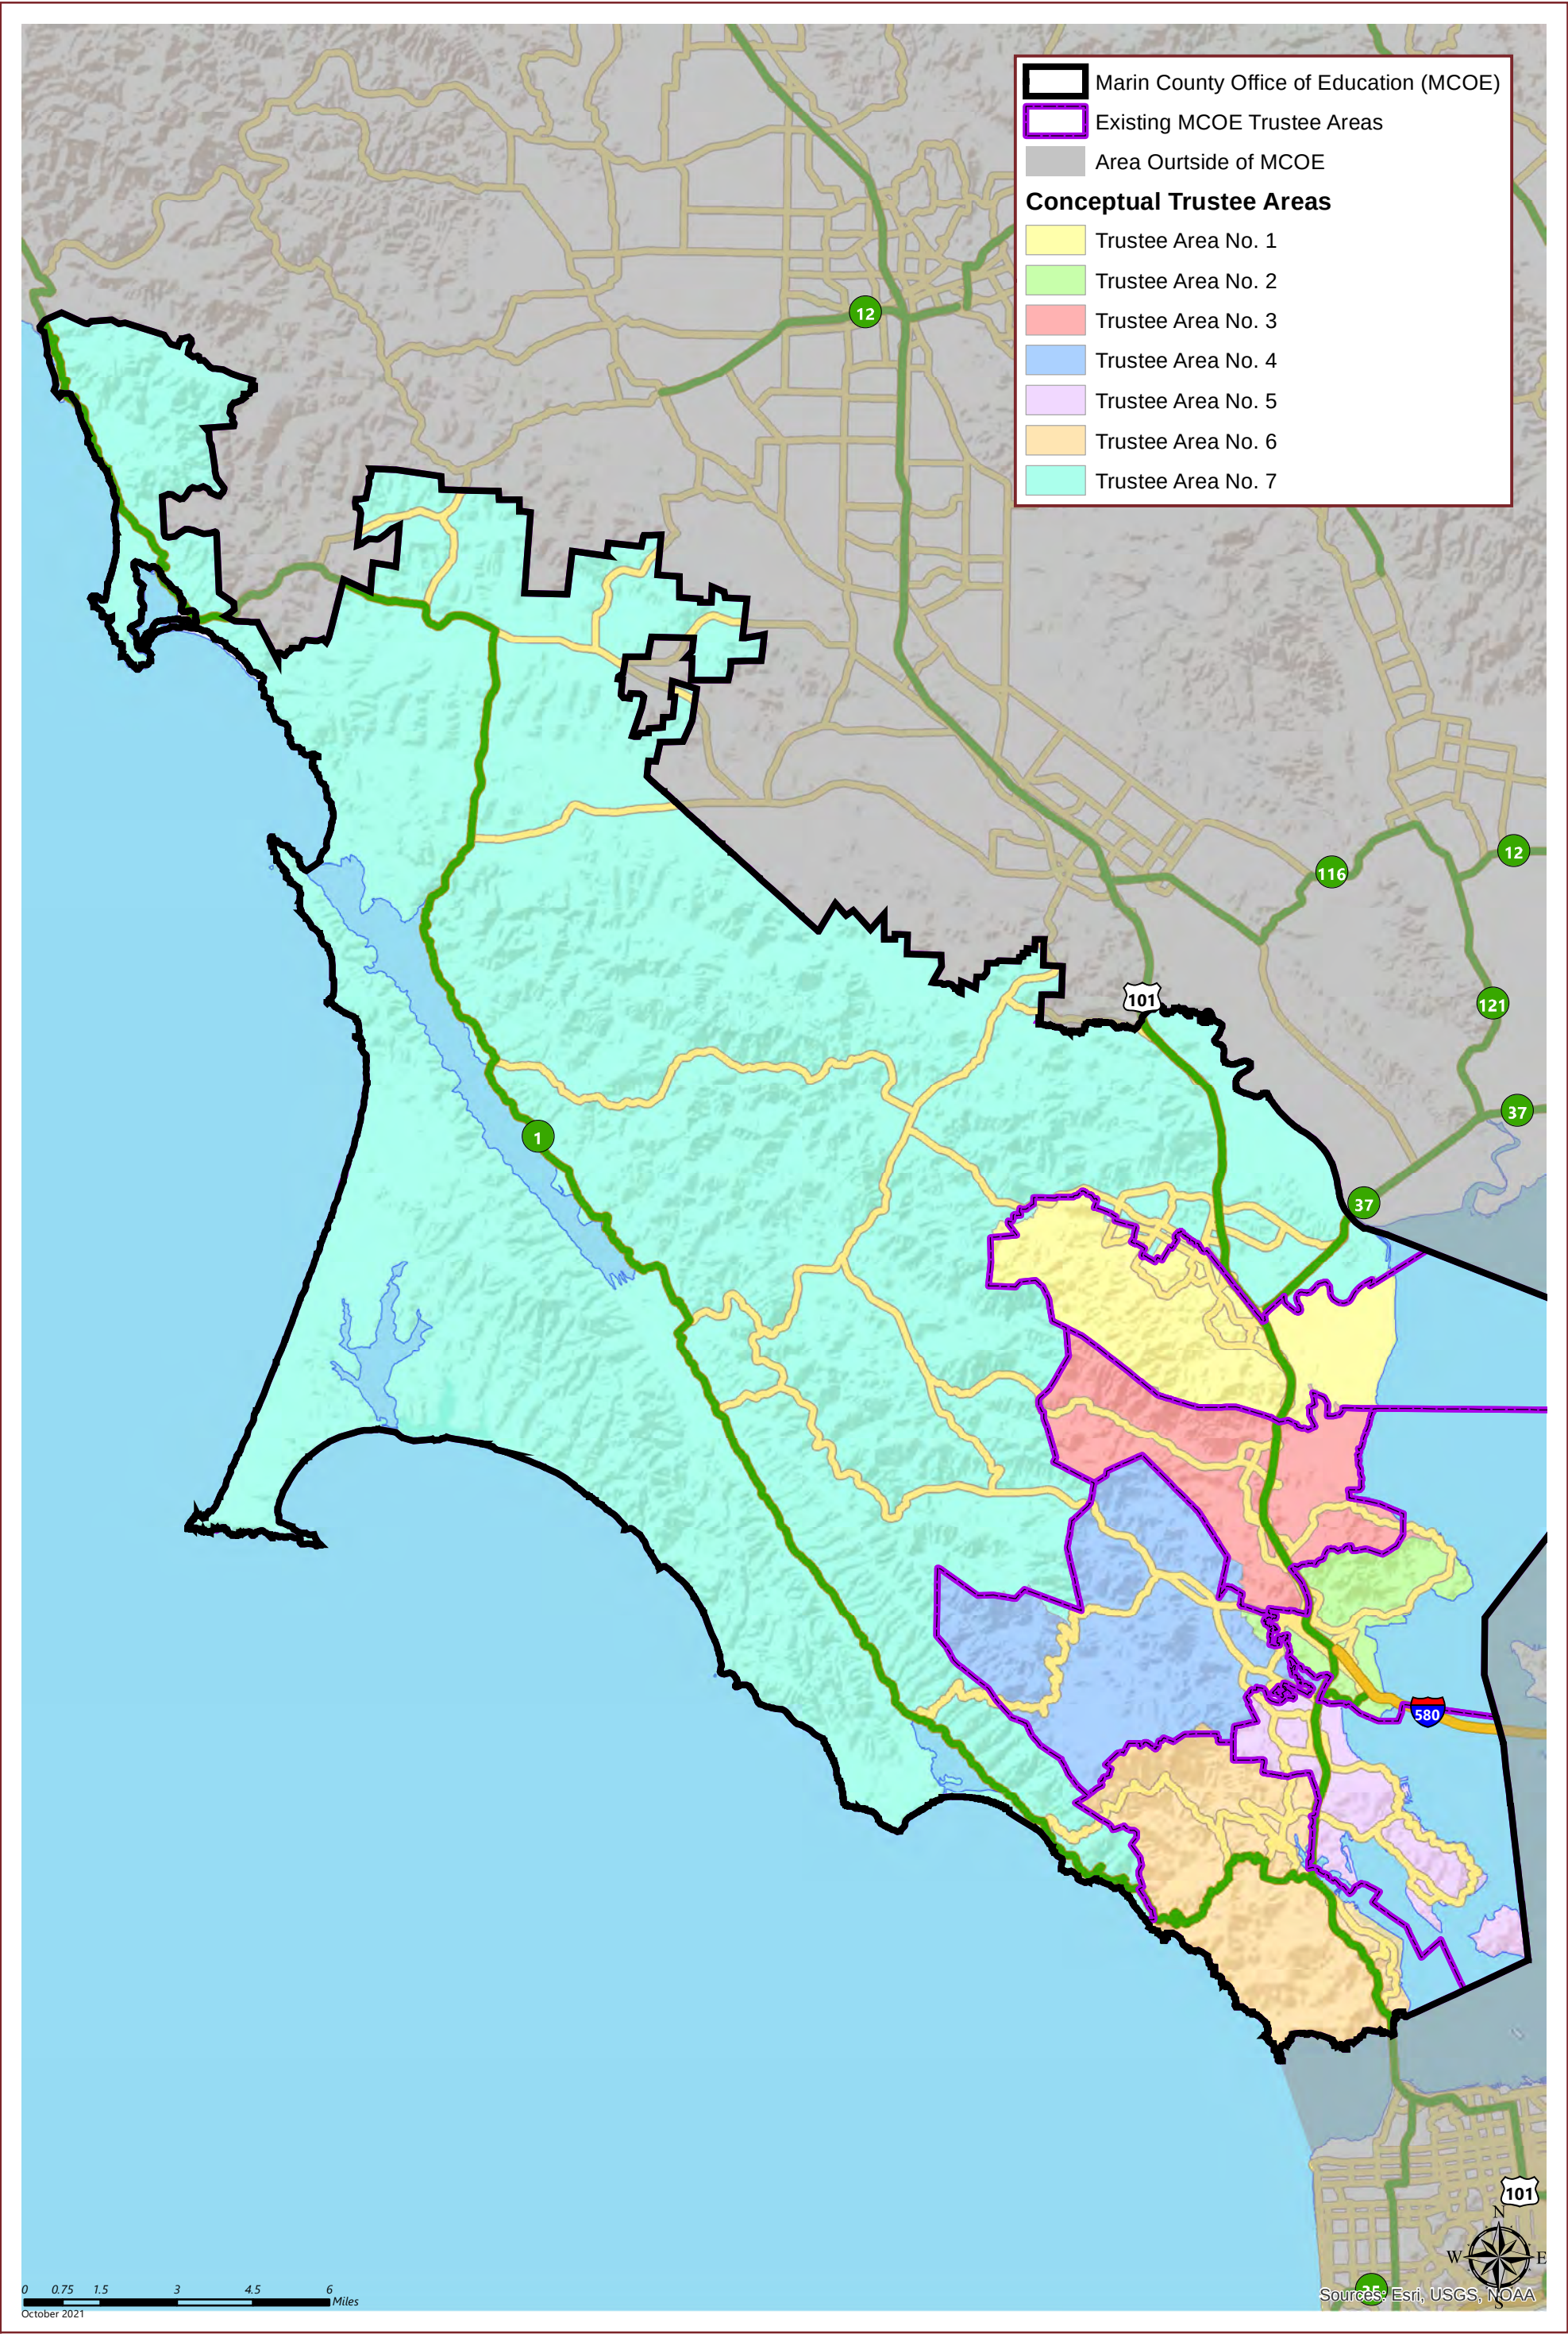

Description and Details

Scenario 2: Shared during the October Marin County Board of Education meeting

- Keeps the central and downtown San Rafael area intact
- Creates a clear boundary between Trustee Areas 2 and 4 that makes sense based on density (between San Rafael and San Anselmo)
- Trustee Area 4 now encompasses most of the Larkspur/Greenbrae area, rather than divide it into three areas
- Creates a clear boundary between Trustee Areas 3 and 4 (Terra Linda and the Sleepy Hollow)

SCENARIO 3

Description and Details

Scenario 3: *In response to a request to consider changes to Trustee Area 1 to include all of Novato and adjustments to achieve a greater percentage of the Hispanic population in one Trustee area – see below for the narrative response from our demographers. This scenario was shared during the November Marin County Board of Education meeting.*

- Moves Kentfield to Trustee Area 5
- Trustee Area 4 now encompasses all of Greenbrae area
- Trustee Area 3 now encompasses more of San Anselmo area
- Moves Lincoln Avenue corridor from Trustee Area 3 to Trustee Area 2
- Moves the western section of North San Pedro, north of China Camp, from Trustee Area 3 to Trustee Area 2
- Moves San Pablo Avenue in San Rafael from Trustee Area 3 to Trustee Area 2
- Keeps more of Southern Novato in Trustee Area 1
- Shifts Trustee Area 1 to include more dense areas of Novato, near Downtown Novato
- Moves all of San Marin area to Trustee Area 7
- Changes in Hispanic percentages in comparison to Scenarios 1 and 2:

Hi Terena,

There really isn't a scenario that will keep Novato together. There's too many people in Novato for one trustee area, and many of the census blocks I'd consider moving into Area 1 are pretty dense. I could move a few more census blocks into Area 1, maybe two or three, before Area 1 starts getting too large. But doing so would cause us to have to move more population back into Area 7, as you noted, to get back under a 10% variance. I ran my models and moving **one** of the more logical census blocks from Area 7 to Area 1 would cause Area 7 to have to take in almost all of the west half of Area 4, pushing all the way to just outside the Fairfax town limits where Trustee Agrelius resides, and that would get us to a 9.9% variance. If I further push Trustee Area 7 down towards where Trustee Robinson resides (within two or three census blocks) then we get to a 6.6% variance. This is a lot of movement to take one more census block into Area 1. Let me know if you want me to formalize a scenario like this. Area 1 won't look much different, but 4, 6, and 7 will.

Thanks,
Andrew

Thanks Andrew. This is very helpful. I'm anticipating a question that may come related to the boundary between Trustee Area 1 and Area 7, although I suspect I already know the answer. Is there another option for Scenario 3 that keeps the majority of Novato in Area 1 and instead draws on the population from another area? In looking at the other potential areas which border Area 7, there doesn't appear to be another population area (census blocks) to make up for the loss of population from Area 7 that would occur with the attached scenario.

Best,
Terena

Subject: Marin COE - New Scenario and Requested Maps

Hi Terena,

Attached is a new Scenario 3 for Marin COE. I tried to keep my focus on keeping Hispanic/Latino communities together, especially in the San Rafael/Novato areas. For the most part, the trustee areas in this scenario are very similar to what are existing today. In keeping the Novato populations together, it does push Trustee Warren out of Area 1 and into Area 7, leaving the proposed Area 1 without a trustee. Overall, this isn't a big change from how the current Trustee Areas represent the population. As it stands today, the Hispanic/Latino population accounts for 25.00% of the total population in Area 1. After shifting those neighborhoods in Novato, the Hispanic/Latino population increase to just 28.1%, so it doesn't make a significant impact. Additionally, the changes I made to Area 2 in this scenario only nominally increase the Hispanic/Latino total population from 44.5% to 45%. The more telling statistics in this scenario are the 18 and Over population as well as the citizen voting age population. While the Hispanic/Latino population makes up 45% of the total population in Area 2 in this scenario, they only account for 39.9% of the 18 and over population, and just 16.6% of the Hispanic/Latino CVAP population, meaning that although we have a Hispanic/Latino plurality in Area 2, their share of the CVAP is extremely low. I don't see a way to accomplish what had been discussed in the meeting, unfortunately. We can discuss more on a call if you'd like. I've added Scenario 3 to the Google Maps site as well.

I've reattached scenarios 1 and 2 because I found a typo on the previous sheets and wanted to correct that. I've also attached a map of the Hispanic population percentages by census block, similar to what we looked at during the meeting. Please look everything over and let me know if there are any questions.

Thanks,
Andrew

Census Redistricting Public Comments

Comment received via email on October 19, 2021:

Dear Trustees of the Marin County Board of Education,

I am writing to ask that the upcoming redistricting process for the Marin County Board of Education acknowledges its Latinx residents as a community of interest.

Latinx people have been historically underrepresented in positions of influence in Marin County. The census has shown a dramatic increase in the number of Latinx residents in Marin. District boundaries should be extremely well-thought to ensure we can participate equitably in your elections. The current lines, and two currently proposed scenarios, crack our communities into separate districts, thus reducing our political power. We think we belong together. Districts 1 should include the neighborhoods in Novato with Latinx populations, and district 2 should include the Latinx neighborhoods north of the Canal as well.

In Marin County, data shows that there are persistent racial disparities in access and achievement between white students and students of color. According to the Marin Promise Partnership's report card on the racial opportunity gap,

- 59% of white students are ready for Kindergarten, compared to 33% of students of color
- 77% of white 3rd grade students meet Common Core Standards for Reading, compared to only 45% of students of color
- 73% of white 8th grade students meet standards for math, compared to 38% of students of color
- 65% of white students, but only 33% of students of color are prepared for college

It is imperative that Latinx people in Marin have the opportunity to present a unified voice in electoral decisions effecting the community in the decade ahead. Latinx voters should have agency in electing the School Board members who can fight for the education of Latinx kids.

The Marin County Board of Education must recognize Latinx communities in Novato and San Rafael as communities of interest in the redistricting plans. This will demonstrate the spirit of fairness and inclusion that is tantamount to this very important process for our democracy.

Thank you for our consideration. We hope that Latinx communities will be fairly represented in the decade ahead.

Dear Trustees of the Marin County Board of Education,

I am writing to ask that the upcoming redistricting process for the Marin County Board of Education acknowledges its Latinx residents as a community ensuring fair districts. This will create an ethical open government that expands voting rights for our Latinx neighbors in government and school boards.

Our Latinx neighbors have been underrepresented in the election process in Marin County. The census has shown a dramatic increase in the number of Latinx residents in Marin, and please rethink district boundaries to ensure Latinx citizens can participate equitably in our elections.

The current lines, and two currently proposed scenarios, crack Latinx communities into separate districts, thus reducing political power. I believe communities belong together. Districts 1 should include the neighborhoods in Novato with Latinx populations, and district 2 should include the Latinx neighborhoods north of the Canal as well.

In Marin County, data shows that there are persistent racial disparities in access and achievement between white students and students of color. According to the Marin Promise Partnership report card on the racial opportunity gap as of the '18-'19 school year.

- 65% of white students, but only 33% of students of color are prepared for college. Latinx students have unique needs and need equal representation.

It is critical that our Latinx neighbors have the opportunity to present a unified voice in electoral decisions affecting the community in the decade ahead. Latinx voters should be able to elect school board members who can fight for the education needs of the Latinx community.

The Marin County Board of Education must recognize Latinx communities in Novato and San Rafael as communities of interest in the redistricting plans.

Thank you for your consideration. We hope that Latinx communities will be fairly represented.

Sincerely,

Cristine Jones

OF CALIFORNIA

Census Redistricting: Marin COE November 9, 2021

Presented by:

**Kaitlyn Schwendeman, Assistant General Counsel
School & College Legal Services of California**

Education Code section 1002

- “(b) Following each decennial federal census, and using population figures validated by the Demographic Research Unit of the Department of Finance as a basis, the county committee shall adjust the boundaries of any or all of the trustee areas of the county board of education as necessary to meet the population criteria set forth in subdivision (a).”

Education Code section 1002

- Primary criteria:
 - “...In any event, the county committee shall ensure that trustee areas are as **nearly equal in population** as practicable.”

Education Code section 1002

- Secondary Criteria:
 - Topography
 - Geography
 - Cohesiveness, contiguity, integrity and compactness of territory
 - Community of interests in the trustee areas

Voting Rights Act of 1965

- Section 2 of the VRA is a nationwide prohibition against voting practices and procedures, (including redistricting plans) that discriminate on the basis of **race, color or membership in a language minority group**. It prohibits not only election-related practices and procedures that are intended to be racially discriminatory, but also those that are shown to have a racially discriminatory result.

California Voting Rights Act

- “An at-large method of election may not be imposed or applied in a manner that **impairs the ability of a protected class to elect candidates of its choice or its ability to influence the outcome of an election, as a result of the dilution or the abridgment of the rights** of voters who are members of a protected class, as defined pursuant to Section 14026.”

Minority Vote Dilution

- Vote dilution, as opposed to vote denial, refers to the use of redistricting plans and other voting **practices that minimize or cancel out the voting strength of racial and other minorities.** In the words of the Supreme Court, the essence of a vote dilution claim “is that a certain electoral law, practice, or structure interacts with social and historical conditions to cause an inequality in the opportunities enjoyed by black and white voters to elect their preferred representatives.”

Minority Vote Dilution

- Districting plans may dilute minority voting strength by cracking or “fragmenting the minority voters among several districts where a bloc-voting majority can routinely outvote them” or by “packing them into one or a small number of districts to minimize their influence.” *De Grandy*, 512 U.S. at 1007

Impact on Trustees

- Trustees must be cautious when reviewing maps to ensure that they are putting their duties to the voters and the county office before any personal impacts of redistricting.
 - Maps do not include identification of where Trustees reside for this reason.
- It is considered best practice to avoid reviewing and discussing the impact of potential redistricting scenarios on Trustees when reviewing and adopting maps.
- Once a map is adopted, Trustees can work with the County Superintendent and legal counsel to address impacts on individuals.

QUESTIONS

**MARIN COUNTY BOARD OF EDUCATION
RESOLUTION NO. 1004**

RESOLUTION APPROVING TRUSTEE AREA REDISTRICTING

WHEREAS, Education Code 1002 requires the adjustment of boundaries of any or all of the trustee areas of the county board of education following each decennial federal census, and using population figures validated by the Demographic Research Unit of the California Department of Finance as a basis; and

WHEREAS, Education Code 1002(a) requires trustee areas shall be as nearly equal in population; and

WHEREAS, Education Code 1002(b) states upon being so requested by the county board of education, the county committee shall adjust the boundaries of any or all of the trustee areas of the county board of education as necessary to meet the population criteria set forth in subdivision (a) of Education Code 1002; and

WHEREAS, the Marin County Board of Education contracted with demographers to evaluate the current population within each trustee voting area of the Marin County Board of Education; and

WHEREAS, the 2020 census data utilized for this review was validated and finalized by the California Department of Finance on September 27, 2021; and

WHEREAS, Elections Code 21003 changed the way inmates were counted for census purposes to the residential address prior to incarceration, effective January 1, 2020; and

WHEREAS, on October 12, 2021, the contracted demographers recommended boundary adjustments due to a 15.7% variance in population between trustee areas; and

WHEREAS, the Marin County Board of Education was presented with three boundary adjustment scenarios, each of which will reduce the population variance and ensure trustee areas shall be as nearly equal in population; and

WHEREAS, the recommended boundary adjustment scenarios each comply with Education Code section 1002 and state and federal constitutional voting requirements under the federal Voting Rights Act of 1965, and the California Voting Rights Act of 2001; and

WHEREAS, the Marin County Board of Education posted all materials and scenarios related to the redistricting process to the Marin County Board of Education census redistricting website, including demographer and legal presentations, timelines, demographic data, and boundary adjustment scenarios; and

WHEREAS, the Marin County Board of Education census redistricting website solicited public feedback on all posted materials; and

WHEREAS, the Marin County Board of Education reviewed the boundary adjustment scenarios during two regular board meetings, in October and November; and

WHEREAS, the Marin County Board of Education held a public hearing on November 9, 2021.

NOW, THEREFORE, BE IT RESOLVED that the Marin County Board of Education adopts boundary adjustment scenario 3A.

BE IT FURTHER RESOLVED that the Superintendent, as Secretary of the Board of Education, is authorized to continue contracted services with demographers to contact the Marin County Committee on

School District reorganization to request approval and adoption of the Marin County Board of Education approved boundary adjustment scenario 3A and is further authorized to prepare new legal descriptions based upon the approved boundary adjustment and to convey such descriptions and other requested information to the County of Marin Elections Department, and thereafter maintains such records as permanent records.

PASSED AND ADOPTED by the Marin County Board of Education, at a regular meeting held on the 9th day of November by the following vote:
