

WORD of

THE WEEK

# EXAMPLE

## DEFINITION:

Mathematics, or math, is the study of numbers and how they are related to each other and to the real world.

## DRAW A PICTURE:

## WORD:

# MATH

## EXAMPLE:

Adding  $3 + 7 = 10$

Subtracting  $10 - 4 = 6$

Multiplying  $2 \times 4 = 8$

Dividing  $6 / 2 = 3$

## REAL WORLD USE:

Balancing a checkbook, measuring out a recipe, and counting paper plates for a party are all examples of mathematics in daily life.

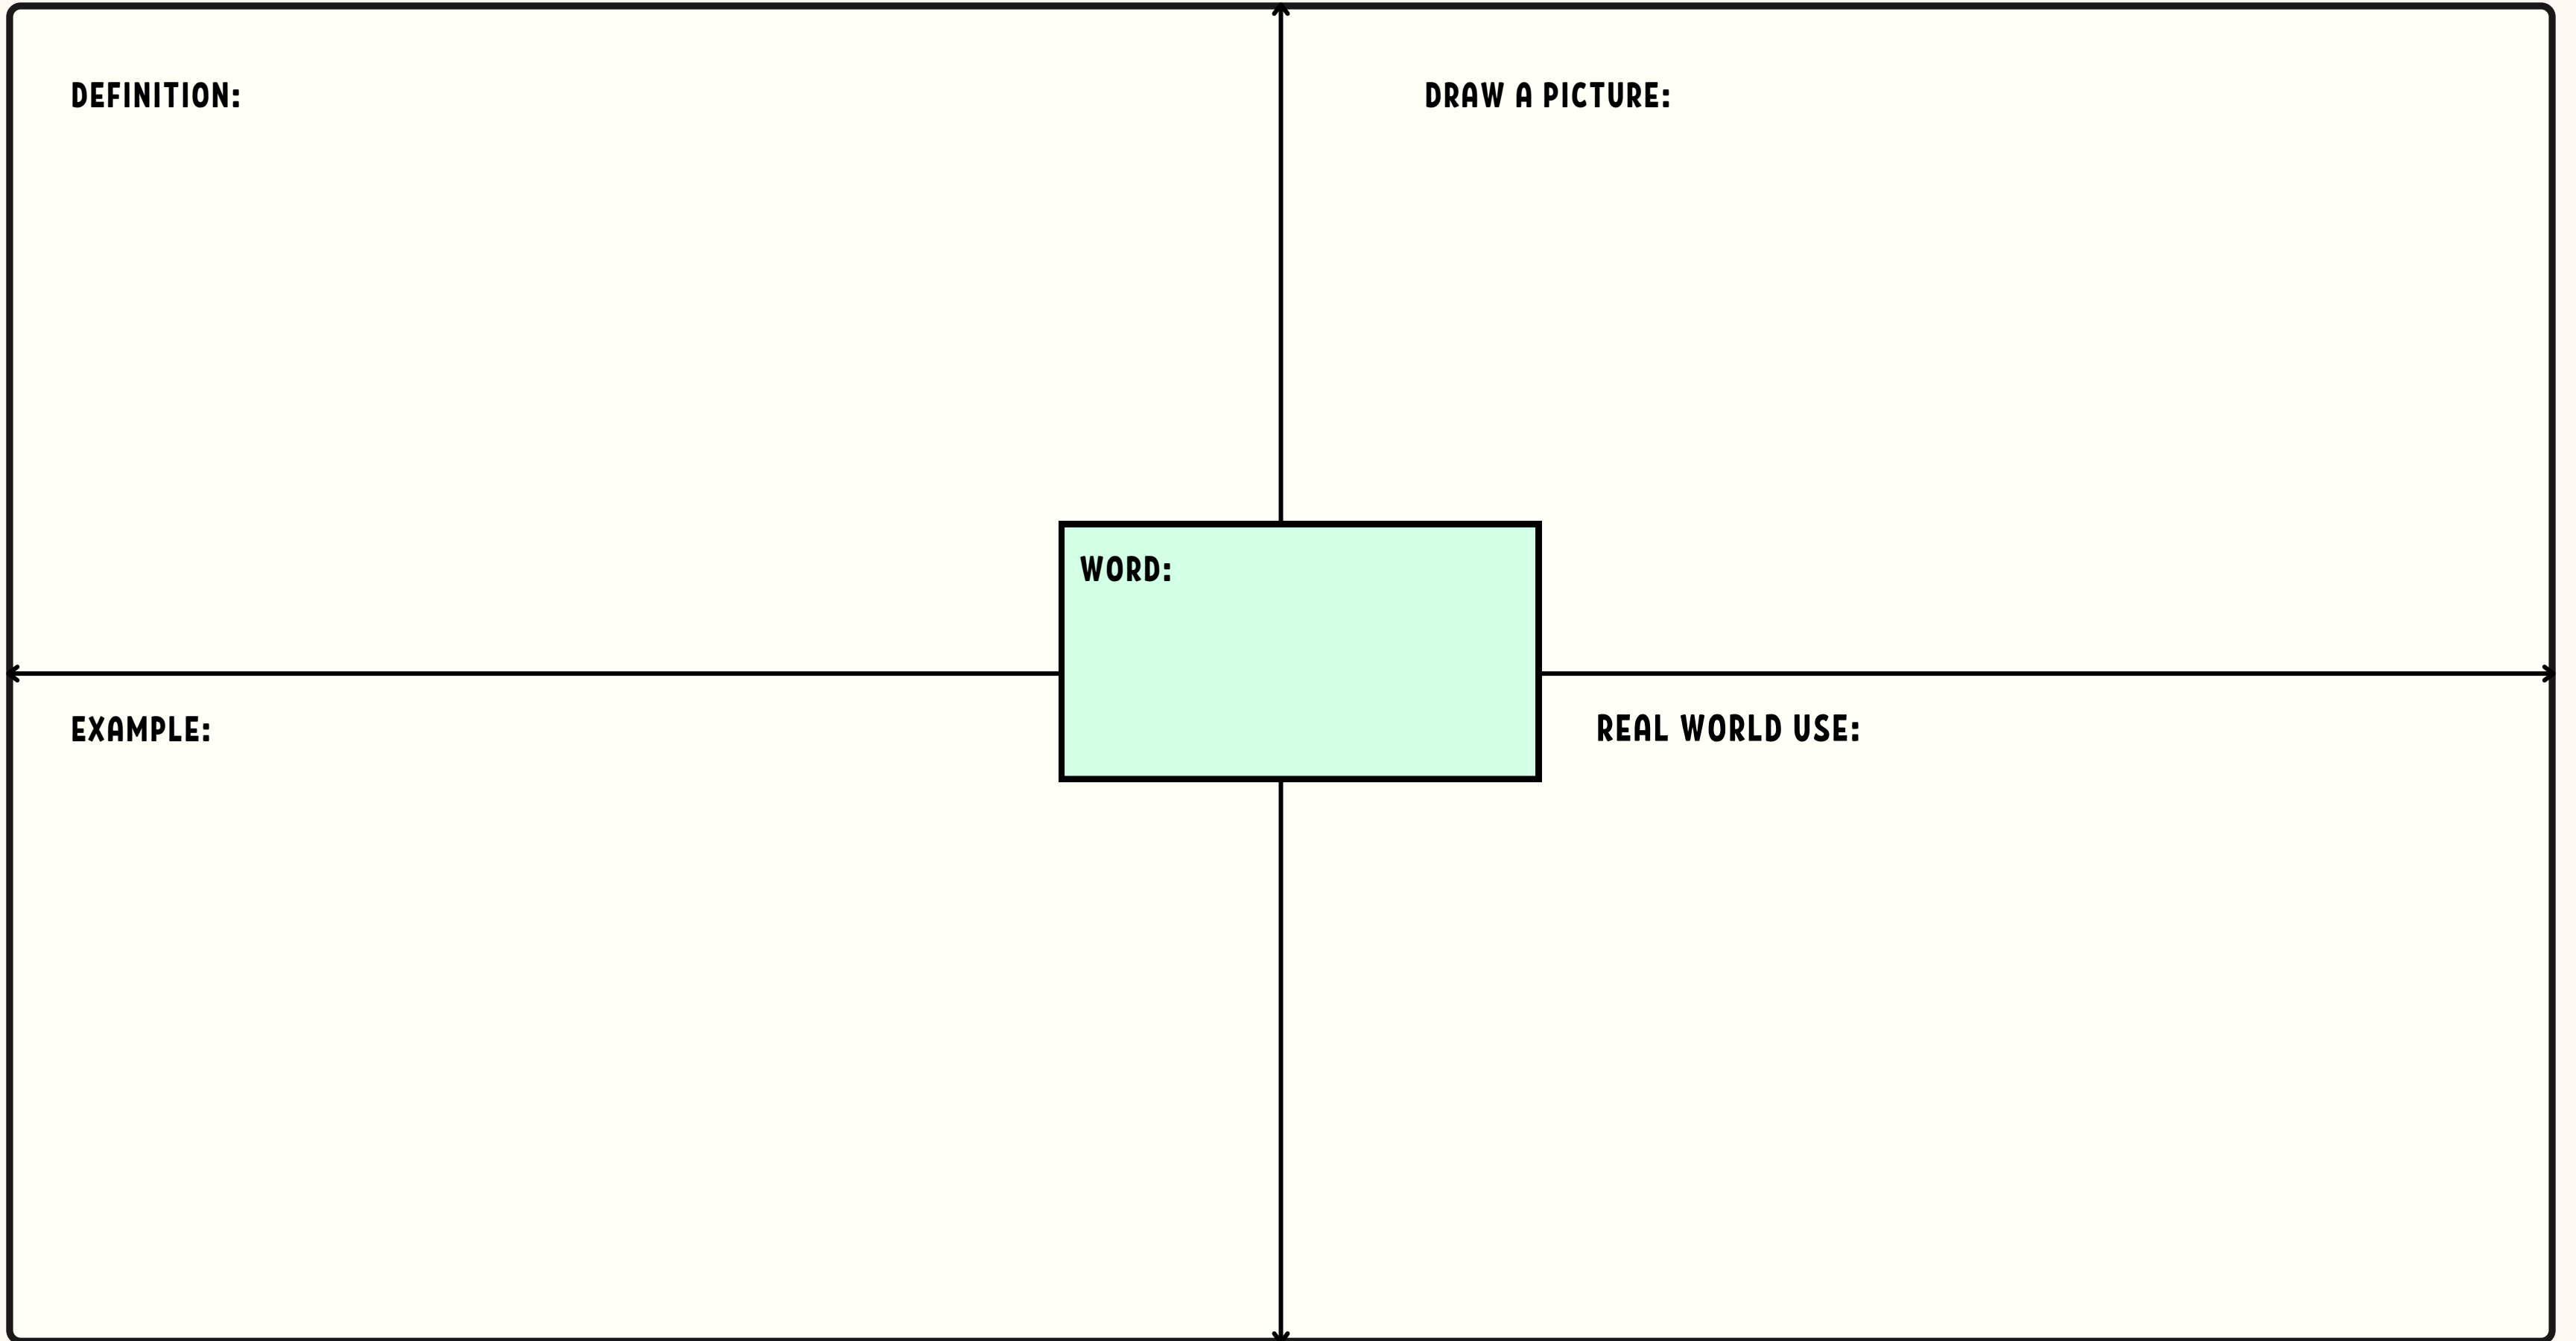

**DEFINITION:**

**DRAW A PICTURE:**

**WORD:**

**EXAMPLE:**

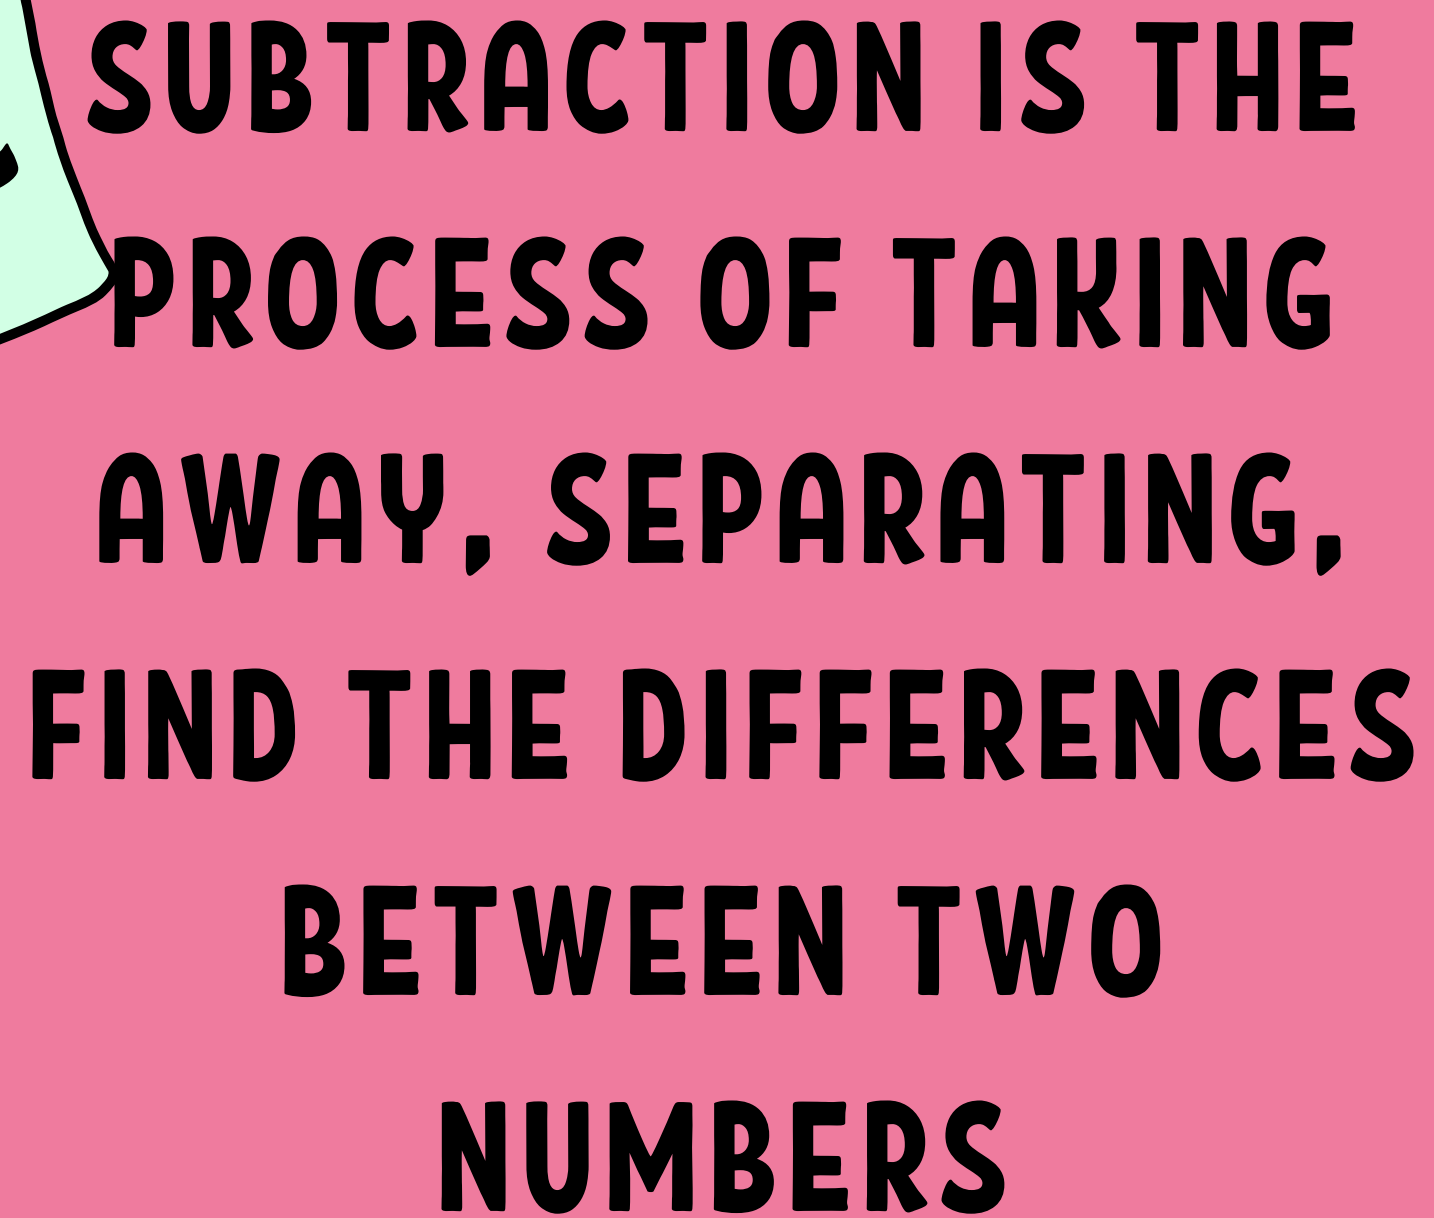

**REAL WORLD USE:**

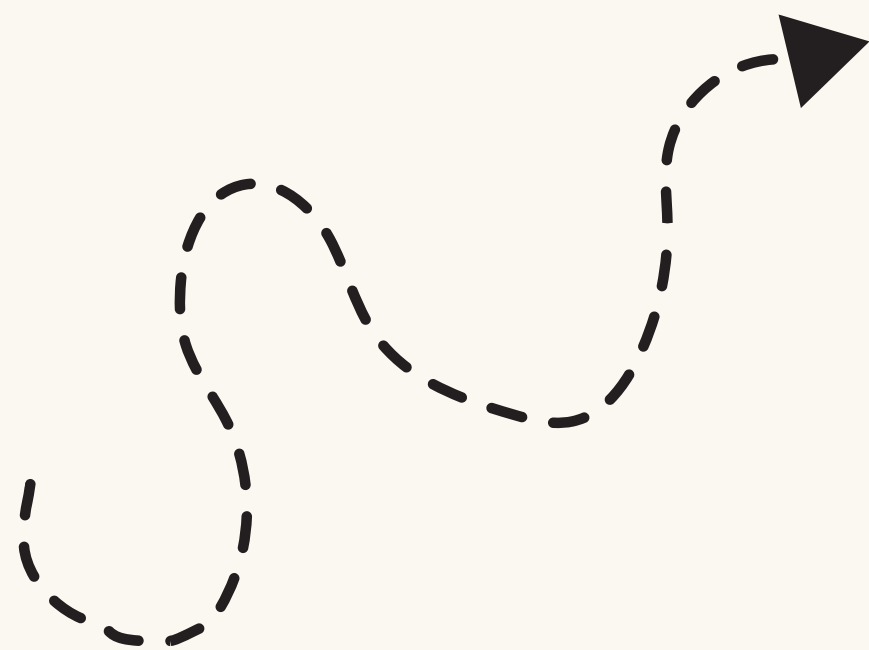

Word of the Week:

**Subtract**

**SUBTRACTION IS THE  
PROCESS OF TAKING  
AWAY, SEPARATING,  
FIND THE DIFFERENCES  
BETWEEN TWO  
NUMBERS**

# POSTER CONTEST RULES

1

Make your Poster. Follow these guidelines.

- Paper size 8 1/2in x 11 in.
- Follow 4 square format example on next slide.
- Include your name and homeroom teacher's name
- Color your poster. It will be displayed in the hallway.

2

Submit your poster to your homeroom teacher before the end of the week.

3

Your name will be entered into a raffle to win a gift card. There will be one lucky winner chosen each week!
