

Welcome to TIPS!

The Targeted Interventions and Planned Support (TIPS) program provides supplemental instruction to children in kindergarten through fifth grade. These students gain additional support in the area of Language Arts/Literacy and Math. The goal of our program is to improve and maintain proficiency in those areas.

TIPS is conducted in a small-group pull out or push in setting, or a combination of both to deliver differentiated research-based interventions targeting specific skills. We work collaboratively with the classroom teacher to help ensure that specific academic goals are being set for each student.

Group lessons, individual lessons, content-related projects and fun, educational games contribute to the overall framework. We are very excited to start another school year & look forward to working with our students.

If you have any questions, please feel free to contact us.

Here's to a great, successful year full of learning!

Mrs. Bresky, *TIPS Language Arts/Literacy Teacher*

Mrs. Gallagher, *TIPS Math Teacher*
