Millions of Americans don't know the state of their credit scores, but thanks to Best Money Moves, keeping track of your credit is about to get a whole lot easier.

We've developed a credit score tool that's safe, easy-to-use and confidential. Log in to your Best Money Moves account, to check your VantageScore 3.0 from Equifax for free.

HOW DO I CHECK MY CREDIT SCORE?

Check your credit score for free, simply by logging into your Best Money Moves account on your mobile device or desktop computer. You'll notice a blue box in the top left corner of your user dashboard labeled "Get my Credit Score."

After clicking this box, you will be asked to provide some straightforward personal information. Then, we'll take it from there and connect your VantageScore 3.0 from Equifax to your Best Money Moves Account.

That's it! (Really.) Once enabled, your credit score will be updated automatically every month.

WILL CHECKING MY CREDIT SCORE THROUGH BEST MONEY MOVES IMPACT MY SCORE AT ALL?

We're happy to report that checking your credit score through Best Money Moves will not impact your score in any way.

WILL MY EMPLOYER BE ABLE TO SEE MY CREDIT SCORE?

All information on your employee dashboard is private – and that includes your credit score.

For tracking purposes, your employer may see an overall average of all the credit scores measured on Best Money Moves, but they will never see individual score data related to your name.
