Each appointment lasts about an hour. Your child will be given an academic screening, a vision and hearing screening, and a speech and language screening.

Why: Screening the children before placing them in classes helps us get a good idea of how to help your child grow as a learner, enables us to have more balanced classrooms, and helps us to know how many students to plan for when school starts.

How: Call the school office at 417-345-2350 to make an appointment.

Bring: Birth Certificate, Shot Records, Proof of Residency (utility bill, bank statement with your name and address etc).
