Independent Auditor's Report

To the Board of Trustees of
New Caney Independent School District
New Caney, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of New Caney Independent School District (the District), as of and for the year ended August 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 1 to the basic financial statements, during the year ended August 31, 2022, the District implemented Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Board of Trustees of
New Caney Independent School District

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Supplementary Information, as listed in the table of contents, and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information and Schedule of Expenditures of Federal Awards are the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information and Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Report

Management is responsible for the other information included in the annual report. The other information comprises the Schedule of Required Responses to Selected School FIRST Indicators but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 20, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of the New Caney Independent School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended August 31, 2022.

Financial Highlights

- The liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows of resources at the close of the most recent fiscal year by \$(63,560,653) (*net deficit*).
- The District's total net deficit decreased by \$25,220,056 from current operations.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$124,028,368, a decrease of \$9,802,459 in comparison with the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$52,989,253, or 32 percent of total general fund expenditures.
- The District's total bonded debt increased by \$16,982,310 (3 percent) during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains required supplementary information and supplementary and other information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position (Exhibit A-1) presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position/(deficit). Over time, increases or decreases in net position/(deficit) may serve as an indicator of how the financial position of the District is changing.

The Statement of Activities (Exhibit B-1) presents information showing how the District's net position/(deficit) changed during the year. Changes in net position/(deficit) are reported upon occurrence of the underlying event giving rise to the change, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some transactions that will not result in cash flows until future fiscal periods (e.g., uncollected taxes).

The government-wide financial statements of the District are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District include *Instruction, Instructional Resources and Media Services, Curriculum and Instructional Staff Development, Instructional Leadership, School Leadership, Guidance, Counseling and Evaluation Services, Health Services, Student Transportation, Food Services, Extracurricular Activities, General Administration, Plant Maintenance and Operations, Security and Monitoring Services, Data Processing Services, Community Services, Interest on Long-term Debt, Issuance Costs and Fees, Facilities Repair and Maintenance, Payments Related to Shared Services Arrangements and Other Intergovernmental Charges, as applicable.*

The government-wide financial statements can be found as noted in the table of contents of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains fifty-three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund, debt service fund and the capital projects funds, all of which are considered to be major funds. Data from the other fifty governmental funds are combined into a single, aggregated presentation titled total nonmajor funds.

The District adopts an annual revenue and appropriations budget for its general fund, debt service fund and national school breakfast and lunch program special revenue fund. All other governmental funds adopt project length budgets. Subsequent to adoption, amendments approved by the governing body are reflected in a revised budget column. A budgetary comparison statement has been provided for the general fund and national school breakfast and lunch program special revenue fund to demonstrate compliance with its budget.

The basic governmental fund financial statements can be found as noted in the table of contents of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of students. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the District's own programs. A statement of fiduciary net position and a statement of changes in fiduciary net position are presented for fiduciary funds, as noted in the table of contents of this report.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found as noted in the table of contents of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information and supplementary and other information, including schedules required by the Texas Education Agency. Such information can be found as noted in the table of contents of this report.

Government-wide Financial Analysis

As mentioned earlier, net position may serve over time as a useful indicator of a District's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$(63,560,653) at the close of the most recent fiscal year.

New Caney Independent School District's Net Position

	Governmental Activities					
	2022		2021		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%
Current and other assets	\$ 149,520,249	22	\$ 167,552,357	26	\$ (18,032,108)	(11)
Capital assets	519,211,088	78	465,417,308	74	53,793,780	12
Total assets	668,731,337	100	632,969,665	100	35,761,672	
Total deferred outflows of resources	37,679,640	100	43,371,123	100	(5,691,483.00)	(13)
Other liabilities	22,770,213	3	31,151,385	4	(8,381,172)	(27)
Long-term liabilities outstanding	682,280,206	97	687,905,254	96	(5,625,048)	(1)
Total liabilities	705,050,419	100	719,056,639	100	(14,006,220)	
Total deferred inflows of resources	64,921,211	100	46,064,858	100	18,856,353	41
Net position						
Net investment in capital assets	(29,273,385)	46	(28,324,723)	32	(948,662)	3
Restricted	8,874,659	(14)	9,155,275	(10)	(280,616)	(3)
Unrestricted	(43,161,927)	68	(69,611,261)	78	26,449,334	(38)
Total net position (deficit)	\$ (63,560,653)	100	\$ (88,780,709)	100	\$ 25,220,056	

Net investment in capital assets includes land and improvements, buildings and improvements, furniture and equipment, right-to-use assets, and construction in progress, less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. At the end of the current fiscal year, the District reports a negative balance in Net Investment in Capital Assets which is attributed to expenditure of bond proceeds not meeting the criteria for capitalization.

Net position that is restricted for debt service and grants total \$8,874,659 of total net position.

Unrestricted net position of (\$43,161,927) deficit resulted from the implementation of GASB Statement No. 75 for postemployment benefit (retiree health care provided through TRS-CARE) in a prior fiscal year.

Governmental Activities. Governmental activities decreased the District's net deficit by \$25,220,056 from current operations. The elements giving rise to this change may be determined from the table below.

New Caney Independent School District's Changes in Net Position

	Governmental Activities					
	2022		2021		Increase (Decrease)	
	Amount	%	Amount	%	Amount	%

Interest on long-term debt	18,226,824	8	22,616,209	10	(4,389,385)	(19)
Issuance costs and fees	367,471	-	1,461,443	1	(1,093,972)	(75)
Facilities repair and maintenance	5,955	-	67,065	-	(61,110)	(91)
Payments related to shared services arrangements	360,727	-	431,976	-	(71,249)	(16)
Other intergovernmental charges	674,662	-	620,810	-	53,852	9
Total expenses	218,993,051	100	231,282,963	100	(12,289,912)	
Change in net position	25,220,056		(6,615,763)		31,835,819	
Net position (deficit) - beginning	(88,780,709)		(82,164,946)		(6,615,763)	
Net position (deficit) - ending	\$ (63,560,653)		\$ (88,780,709)		\$ 25,220,056	

Revenues are generated primarily from two sources. Grants and contributions (program and general revenues totaling \$152,681,971) represent 63 percent of total revenues and property taxes (\$86,900,082) represent 35 percent of total revenues. The remaining 2 percent is generated from investment earnings, charges for services, insurance proceeds, and miscellaneous revenues. The most significant change in revenues is the increase in property taxes due to increases in taxable value and an increase in state allotment.

The primary functional expense of the District is instruction (\$112,598,954) which represents 51 percent of total expenses. The remaining functional categories of expenses are individually 10 percent or less of total expenses. Expenses decreased \$12,289,912, the most significant increase being due to accounting for the decrease in the state's on behalf contribution for GASB 68, interest on long-term debt and issuance costs and fees.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$124,028,368, a decrease of \$9,802,459 in comparison with the prior year.

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$52,989,253 and total fund balance was \$60,528,390. As a measure of the general fund's liquidity, it may be useful to compare unassigned and total fund balance to total fund expenditures. Unassigned fund balance represents 32 percent of total general fund expenditures, while total fund balance represents 37 percent of the same amount. The fund balance of the District's general fund increased by \$17,848,006 during the current fiscal year. The fund balance of the general fund increased primarily due to revenues from an increase in property taxes and an increase in state allotment that offset an increase overall in functional expenditures.

The debt service fund has a total fund balance of \$7,251,781, all of which is restricted for retirement of long-term debt. The net increase in fund balance during the current year in the debt service fund was \$268,912. The increase in fund balance was due primarily to an increase in property taxes that exceeded an increase in current debt service requirements.

The capital projects fund has a total fund balance of \$49,554,886, all of which is restricted for capital acquisition programs and contractual obligations. The net decrease in fund balance during the current year in the capital projects fund was \$31,945,970. The net decrease in fund balance during the current year in the capital projects fund was due to the increased construction expenditures using the prior year and current year proceeds from the sale of building bonds.

General Fund Budgetary Highlights

The District amended the budget several times throughout the year. The variations between the original budget and the final amended budget of the general fund included an increase in state program revenues and an decrease in instruction expenditures.

There were no significant variations between the final budget and actual results at year end.

Capital Assets and Long-term Liabilities

Capital Assets. The District's investment in capital assets for its governmental-type activities as of August 31, 2022, amounts to \$519,211,088 (net of accumulated depreciation/amortization). This investment in capital assets includes land and improvements, buildings and improvements, furniture and equipment, furniture and equipment – right-to-use, and construction in progress. The August 31, 2021 right of use assets have been adjusted for the implementation of GASB 87, Leases.

New Caney Independent School District's Capital Assets (net of depreciation/amortization)

Totals	\$ 519,211,088	100	\$ 472,784,771	100	\$ 46,426,317	

Major capital asset purchases during the current fiscal year included the following:

- \$64,415,316 construction and renovations for various campuses and facilities
- \$585,234 buses

Additional information on the District's capital assets can be found in Note 3.D. in the notes to the financial statements as noted in the table of contents of this report.

Construction Commitments. At the end of the current fiscal year, the Districts commitments with construction contractors totaled \$1,156,093.

Long-term Liabilities. At year-end, the District had the following long-term liabilities:

New Caney Independent School District's Outstanding Long-term Liabilities

	Governmental Activities					
	2022		2021		Increase (Decrease)

Totals	\$ 682,280,206	100	\$ 695,272,717	100	\$ (12,992,511)	

*The balance as of August 31, 2021 has been adjusted to reflect the adaption of GASB 87, Leases

The District's bonded debt increased by \$16,982,310 (3 percent) during the current fiscal year. The key factor in this increase was the issuance of capital bonds.

The District's general obligation debt is backed by the full faith and credit of the District and is further guaranteed by the Texas Permanent School Fund Guarantee Program.

State statutes do not limit the tax rate or amount for the support of school districts' bonded indebtedness. However, approval by the Attorney General of the State of Texas is required prior to the sale of bonds.

Additional information on the District's long-term debt can be found in Note 3.E. in the notes to the financial statements as indicated in the table of contents of this report.

Additional information on the District's net pension liability can be found in Note 4.C. in the notes to the financial statements as indicated in the table of contents of this report.

Additional information on the District's OPEB liability can be found in Note 4.D. to the financial statements as indicated in the table of contents of this report.

Economic Factors and Next Year's Budgets and Rates

- Current enrollment totals 18,337 students, which is an increase from the prior year.
- District staff totals 2,835 employees, which includes of 1,214 teachers and 334 teachers' aides and secretaries.
- The District maintains 19 campuses for instruction and The Learning Center.
- The unemployment rate for the County is currently 4.1 percent, which is a decrease from a rate of 5.1 percent a year ago. This compares to the state's average unemployment rate of 4.1 percent, which is a decrease from a rate of 5.6 percent a year ago.
- Property values of the District are projected to increase for the 2022-2023 fiscal year.

A maintenance and operations tax rate of \$0.943 and a debt service tax rate of \$0.50, a total rate of \$1.443, were adopted for 2022-2023. Preceding year rates were \$0.9603, \$0.50 and \$1.4603, respectively.

All of these factors were considered in preparing the District's budget for the 2022-2023 fiscal year.

During the current fiscal year, fund balance in the general fund increased to \$60,528,390, which exceeded three months of annual operating expenditures.

Requests for Information

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director of Finance, New Caney Independent School District, 21580 Loop 494, New Caney, Texas, 77357.

New Caney Independent School District
 Reconciliation of the Governmental Funds Balance Sheet
 to the Statement of Net Position
 August 31, 2022

Exhibit C-1R

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS (EXHIBIT C-1) \$ 124,028,368

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. The governmental capital assets at year-end consist of:

Governmental capital assets costs	\$ 688,759,114	
Accumulated depreciation/amortization of governmental capital assets	<u>(169,548,026)</u>	519,211,088

Property taxes receivable, which will be collected subsequent to year-end, but are not available soon enough to pay expenditures and, therefore, are deferred in the funds. 3,616,917

Long-term liabilities, including bonds payable and net pension and OPEB liability, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Liabilities at year end related to such items, consist of:

Bonds payable, at original par	\$ (561,995,000)	
Premium on bonds payable	(37,489,945)	
Accreted interest	(4,404,958)	
Accrued interest on the bonds	(895,249)	
Financed purchases	(516,080)	
Lease liability	(4,802,983)	
Net pension liability	(24,990,021)	
Net OPEB liability	<u>(48,081,219)</u>	(683,175,455)

Deferred charge on refunding is reported as deferred outflow in the statement of net position and is not reported in the funds due to it is not a current financial resource available to pay for current expenditures. 8,013,907

Deferred gain on refunding is reported as deferred inflow in the statement of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. (1,249,258)

Deferred outflows of resources for pension represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/expenditures) until then. 16,182,982

Deferred inflows of resources for pension represents an acquisition of net position that future period(s) and will not be recognized as an inflow of resources (revenue) until that time. (28,415,188)

Deferred outflows of resources for OPEB represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expenses/expenditures) until then. 13,482,751

Deferred inflows of resources for OPEB represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. (35,256,765)

TOTAL NET POSITION (DEFICIT) - GOVERNMENTAL ACTIVITIES (EXHIBIT A-1) \$ (63,560,653)

New Caney Independent School District
 Reconciliation of the Statement of Revenues,
 Expenditures and Changes in Fund Balances of
 Governmental Funds to the Statement of Activities
 For the Fiscal Year Ended August 31, 2022

Exhibit C-3

TOTAL NET CHANGES IN FUND BALANCES - GOVERNMENTAL (EXHIBIT C-2) \$ (9,802,459)

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital assets increased	\$ 66,384,336	
Depreciation/amortization expense	<u>(18,489,861)</u>	47,894,475

The net effect of miscellaneous transactions involving capital assets (transfers, adjustments and dispositions) is an increase (decrease) to net position. (1,468,158)

Because some property taxes will not be collected for several months after the District's fiscal year end, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues increased (decreased) by this amount this year. 174,230

Issuance of bonds provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position.

Par value	\$ (29,845,000)	
(Premium) discount	<u>(513,277)</u>	(30,358,277)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 11,005,000

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due, and includes amortization of related long-term debt accounts. The increase (decrease) in interest expense reported in the statement of activities consist of the following:

Accrued interest on current interest bonds payable (increased) decreased	\$ (22,707)	
Interest accreted on the capital appreciation bonds (increased) decreased	(60,101)	
Amortization of bond premium and discount	2,431,068	
Amortization of deferred charge and deferred gain on refunding	<u>(555,200)</u>	1,793,060

Issuance of leases and financed purchases provide current financial resources to governmental funds, but increases long-term liabilities in the statement of net position.

Leases issued		(305,400)
---------------	--	-----------

Repayment of lease and financed purchases principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 2,353,800

The net change in net pension liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

Deferred outflows increased (decreased)	\$ (6,158,560)	
Deferred inflows (increased) decreased	(19,669,181)	
Net pension liability (increased) decreased	<u>27,811,365</u>	1,983,624

The net change in net OPEB liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

Deferred outflows increased (decreased)	\$ 1,067,774	
Deferred inflows (increased) decreased	767,331	
Net OPEB liability (increased) decreased	<u>115,056</u>	1,950,161

CHANGE IN NET POSITION - GOVERNMENTAL ACTIVITIES (EXHIBIT B-1) \$ 25,220,056

Notes to the Financial Statements

Note 1. Summary of Significant Accounting Policies

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the District. All fiduciary activities are reported only in the fund financial statements. *Governmental activities* normally are supported by taxes, intergovernmental revenues and other nonexchange transactions.

B. Reporting Entity

The District is governed by a seven-member board of trustees (the Board), which has governance responsibilities over all activities related to public elementary and secondary education within the District. Members of the Board are elected by the public; have authority to make decisions; appoint management and significantly influence operations; and have primary accountability for fiscal matters; the District is not included in any other governmental reporting entity.

C. Basis of Presentation – Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District reports the following major governmental funds:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those accounted for in another fund.

The *debt service fund* is used to account for the accumulation of resources that are restricted, committed, or assigned for the payment of principal and interest on long-term obligations of governmental funds.

The *capital projects fund* accounts for the acquisition and construction of the District's major capital facilities.

Additionally, the District reports the following fiduciary fund types:

The *custodial fund* accounts for assets held by the District for student organizations. Custodial funds report fiduciary activities that are not held in a trust.

New Caney Independent School District

Notes to the Financial Statements

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds are eliminated in governmental activities.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as required under accrual accounting. However, debt service expenditures and claims and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Interest associated with the current fiscal period is considered to be susceptible to accrual and has been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items, including property taxes, are considered to be measurable and available only when cash is received by the District.

Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand and cash on deposit with bank depository.

New Caney Independent School District

Notes to the Financial Statements

2. Investments

Investments for the District, except for certain investment pools, are reported at fair value. The investment pools operate in accordance with appropriate state laws and regulations and are reported at amortized cost or fair value.

3. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Property tax receivables include unpaid property taxes at year-end and are shown net of an allowance for uncollectibles. Net property tax receivables are stated at the amount estimated to be collectible based on the District's collection experience. Revenues from property taxes are recognized when levied to the extent they are available (collected within 60 days after the close of the fiscal year). However, not all outstanding property taxes are expected to be collected within one year of the date of the financial statements.

4. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

5. Capital Assets

Capital assets, which include land and improvements, construction in progress, buildings and improvements, furniture and equipment, and right-to-use are reported in the applicable governmental activities column in the government-wide financial statements. The District's infrastructure includes parking lots and sidewalks associated with various buildings. The cost of the infrastructure was initially capitalized with the building cost and is being depreciated over the same useful life as the building. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the District chose to include all such items regardless of their acquisition date or amount. The District was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the District constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

New Caney Independent School District

Notes to the Financial Statements

Land and improvements and construction in progress are not depreciated/amortized. The buildings and improvements and furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

Capital Asset Classes	Lives
Buildings and improvements	5-47
Furniture and equipment	5-30
Furniture and equipment, right-to-use	4-6

6. Leases

The District is a lessee for noncancellable leases of equipment. The District recognizes a lease liability, reported with long-term debt, and a right-to-use lease asset (lease asset), reported with other capital assets, in the government-wide and proprietary fund financial statements. The District recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, purchase option price that the District is reasonably certain to exercise, lease incentives receivable from the lessor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

7. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditures) until then. Deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

New Caney Independent School District

Notes to the Financial Statements

Deferred outflows/inflows of resources are amortized as follows:

- * Deferred outflows/inflows from pension and OPEB activities are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and OPEB plan, except for projected and actual earnings differences on investments which are amortized on a closed basis over a 5-year period.
- * District contributions to the pension and OPEB plans after the measurement date of each plan are recognized in the subsequent fiscal year.
- * Deferred charge/gain on refunding is amortized over the shorter of the life of the refunded or refunding debt.
- * Property taxes are recognized in the period the amount becomes available.

8. Compensated Absences

Vacation

The District does not have a liability for unpaid vacation at year end due to the District's policy does not allow a carryover of vacation not taken at August 31.

Sick Leave

Prior to September 1, 1992, the District's policy permitted employees to accumulate earned but unused sick leave benefits. Payment for unused sick leave days accumulated locally will be made upon retirement (in accordance with guidelines established by the Teacher Retirement System of Texas) for all employees hired prior to September 1, 1992. No liabilities were recorded due to the amounts were not significant. All sick pay is accrued when incurred in the government-wide financial statements. If significant, a liability for these amounts is reported in governmental funds only if they have met the District's retirement and State's retirement eligibility requirements.

9. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column of the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

10. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

New Caney Independent School District

Notes to the Financial Statements

11. Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last. The general fund is the only fund that reports a positive unassigned fund balance.

12. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The restricted classification accounts for amounts that have external constraints imposed upon the use of the resources by bondholders, grantors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The amounts reported in this category include funding from external sources such as state and federal grants, tax levies for the repayment of principal and interest on long-term debt, and unspent bond proceeds for the construction and equipment of school facilities.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by board action or adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by board action or the resolution remains in place until a similar action is taken (the board action or adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has, by policy, authorized the superintendent or his designee to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

13. Pension

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

New Caney Independent School District

Notes to the Financial Statements

14. Other Postemployment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the Net OPEB Liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

F. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

Property values are determined by the County Central Appraisal District as of January 1 of each year. Prior to September 1 of each year, District must adopt its annual budget and as soon thereafter as practicable, shall adopt a tax rate thus creating the tax levy. Property taxes for the current calendar year are levied on approximately October 1 of each year and are payable by January 31 of the following year. Property tax receivables are recorded as of the date levied. Unpaid taxes become delinquent on February 1 and a tax lien on real property is created as of July 1 of each year.

G. Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

H. Data Control Codes

The Data Control Codes refer to the account code structure prescribed by Texas Education Agency (TEA) in the *Financial Accountability System Resource Guide*. TEA requires school districts to display these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

I. Implementation of New Accounting Standards

GASB Statement No. 87, *Leases* (GASB 87), establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this statement were originally effective for reporting periods beginning after December 15, 2019; however, issuance of GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance* (GASB 95), extended the effective date of GASB 87 to reporting periods beginning after June 15, 2021, with earlier application encouraged. GASB 87 was implemented in the District's 2021-22 financial statements, resulting recognition of \$6,582,905 of lease assets and lease payables, and financed purchases of \$784,558 as of September 1, 2021 within governmental activities in the government-wide financial statements.

New Caney Independent School District

Notes to the Financial Statements

Note 2. Stewardship, Compliance and Accountability

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, *National School Breakfast and Lunch Program* special revenue fund and debt service fund. All annual appropriations lapse at fiscal year-end. The following procedures are followed in establishing the budgetary data reflected in the financial statements.

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board.

The appropriated budget is prepared by fund, function and campus/department. The District's campus/department heads may make transfers of appropriations within a department. Transfers of appropriations between campus/departments require the approval of the District's management. Transfers of appropriations between functions require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. The District amended general fund budget throughout the year between functions and total appropriations.

B. Encumbrances

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as restricted, committed, or assigned fund balances as appropriate. The encumbrances do not constitute expenditures or liabilities because the commitments will be appropriated and honored during the subsequent year. Significant encumbrances included in governmental fund balances are as follows:

	<u>Restricted Fund Balance</u>
Capital projects Fund	\$ 1,156,093
Total encumbrances	<u>\$ 1,156,093</u>

Note 3. Detailed Notes on All Funds

A. Deposits and Investments

Cash Deposits

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the Texas School Depository Act. The depository bank pledges securities which comply with state law and these securities are held for safekeeping and trust with the District's and the depository banks' agent bank. The pledged securities shall be in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

New Caney Independent School District

Notes to the Financial Statements

Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

The District is authorized to invest in the following instruments provided that they meet the guidelines of the investment policy:

- 1) Obligations of, or guaranteed by governmental entities as permitted by Government Code 2256.009
- 2) Certificates of deposit and share certificates as permitted by Government Code 2256.010
- 3) Fully collateralized repurchase agreements permitted by Government Code 2256.011
- 4) A securities lending program as permitted by Government Code 2256.0115
- 5) Banker's acceptances as permitted by Government Code 2256.012
- 6) Commercial paper as permitted by Government Code 2256.013
- 7) No-load money market mutual funds and no-load mutual funds as permitted by Government Code 2256.014
- 8) A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meet the criteria and eligibility requirements established by Government Code 2256.015
- 9) Public funds investment pools as permitted by Government Code 2256.016.

The District's measurements of investments are presented in the table below. The District's investment balances and weighted average maturity and credit risk of such investments are as follows:

	Fair Value Measurement Using		Weighted Average Maturity (Days)	Moody's / S&P Rating
	August 31, 2022	Percent of Total Investments		
Investments measured at amortized cost:				
Investment pools				
Texpool - LGIP	\$ 66,336,955	95%	23	AAAm
Lone Star Government Overnight	3,245,098	5%	6	AAAm
Total investments	\$ 69,582,053	100%		
Portfolio weighted average maturity			22	

Local Government Investment Pools

Certain investment types are not required to be measured at fair value; these include certain investment pools in which the underlying portfolio is measured at amortized cost. Other investment pools, in which underlying portfolio investments are measured at fair value, are reported by the District at the net asset value (NAV) determined by the pool, which approximates fair value.

TexPool

TexPool is duly chartered and overseen by the State Comptroller's Office, administered and managed by Federated Investors, Inc. State Street Bank serves as the custodial bank. The portfolio consists of U.S. Government securities; collateralized repurchase and reverse repurchase agreements; and AAA rated money market mutual funds.

New Caney Independent School District

Notes to the Financial Statements

TexPool transacts at a net asset value of \$1.00 per share, has a weighted average maturity of 60 days or less and weighted average life of 120 days or less, investments held are highly rated by a nationally recognized statistical rating organization, have no more than 5% of portfolio with one issuer (excluding US government securities), and can meet reasonably foreseeable redemptions. The investment pool has a redemption notice period of one day and no maximum transaction amounts. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pools' liquidity.

LoneStar Government Overnight Fund

The objective of the Lone Star Government Overnight Fund is to provide safety of principal, daily liquidity, and the highest possible rate of return. The fund seeks to maintain a net asset value of one dollar, and its dollar-weighted average maturity is 60 days or fewer. The fund may invest in obligations of the U.S. or its agencies and instrumentalities; other obligations guaranteed or insured by the U.S. or its agencies and instrumentalities; fully collateralized repurchase agreements having a defined termination date and secured by obligations of the U.S. or its agencies and instrumentalities; reverse repurchase agreements authorized under the Public Funds Investment Act; and SEC-regulated no-load money market mutual funds that investment exclusively in authorized Government Overnight Fund Investments.

Credit Risk

For fiscal year 2022, the District invested in TexPool and Lone Star Investment Pool. TexPool is duly chartered and administered by the State Comptroller's Office. Lone Star Investment Pool is duly chartered by the State of Texas Interlocal Cooperation Act and is administered by First Public, LLC, formerly, the Texas Association of School Boards Financial Services. The credit rating for investments are noted in the table on the previous page.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The District monitors interest rate risk utilizing weighted average maturity analysis. In accordance with its investment policy, the District reduces its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio as a whole to no more than 180 days, diversification and by holding securities to maturity not to exceed one year unless specifically authorized by the Board of Trustees.

Concentration of Credit Risk

The District's investment policy does not limit an investment in any one issuer.

Custodial Credit Risk – Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of August 31, 2022, the District's deposits at the local bank was not exposed to custodial credit risk because it was insured and collateralized with securities held by the District's agent and in the District's name.

Custodial Credit Risk – Investments

For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District is not exposed to custodial credit risk due to the investments are insured or registered in the District's name, or the investments are held by the District or its agent.

New Caney Independent School District

Notes to the Financial Statements

B. Receivables

Tax revenues of the general and debt service fund are reported net of uncollectible amounts. Total change in uncollectible amounts related to revenues of the current period increased (decreased) revenues as follows:

Change in uncollectibles related to General Fund property taxes	\$	(2,000)
Change in uncollectibles related to Debt Service property taxes		<u>(1,000)</u>
Total change in uncollectibles of the current fiscal year	\$	<u>(3,000)</u>

Approximately 65% of the outstanding balance of property taxes is not anticipated to be collected within the next year.

C. Interfund Receivables and Payables

1. Receivables/Payables

The composition of interfund balances as of August 31, 2022, was as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General fund	\$ 2,610,523	\$ 222,839
Debt service fund	133,549	-
Capital projects fund	-	1,428
Other governmental funds - nonmajor	<u>89,290</u>	<u>2,609,095</u>
Totals	<u>\$ 2,833,362</u>	<u>\$ 2,833,362</u>

Interfund balances consist of short-term lending/borrowing arrangements that generally result from payroll and other regularly occurring charges that are primarily paid by the one fund and then charged back to the appropriate other fund. Additionally, some lending/borrowing may occur between two or more non-major governmental funds.

2. Transfers

The Interfund transfers are defined as "flows of assets from one fund to another fund without equivalent flow of assets in return and without a requirement for repayment." Transfers are the use of funds collected in one fund to finance various programs accounted for in other funds. There were no interfund transfers between the various funds at August 31, 2022.

New Caney Independent School District

Notes to the Financial Statements

Construction Commitments

The District had active construction projects as of August 31, 2022. The projects include the construction and equipment of school facilities. At year end, the District's commitments with contractors are as follows:

Project	Remaining Commitment
New Caney High School #3	\$ 1,156,093
Totals	\$ 1,156,093

The commitment for construction and equipment of school facilities is being financed by general obligation bonds secured by tax revenues and local funds.

E. Long-term Liabilities

The District's long-term liabilities consist of bond indebtedness, leases payable, financed purchases, and net pension and OPEB liability. The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund. Other long-term liabilities are generally liquidated with resources of the general fund.

Changes in Long-term Liabilities

Long-term liability activity for the fiscal year ended August 31, 2022, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Bonds payable:					
General obligation bonds	\$ 543,155,000	\$ 29,845,000	\$ (11,005,000)	\$ 561,995,000	\$ 8,815,000
Issuance premiums	39,407,736	513,277	(2,431,068)	37,489,945	-
Accreted interest (CAB's)	4,344,857	60,101	-	4,404,958	-
Total bonds payable, net	586,907,593	30,418,378	(13,436,068)	603,889,903	8,815,000
Leases payable*	6,582,905	305,400	(2,085,322)	4,802,983	2,016,695
Financed purchases*	784,558	-	(268,478)	516,080	254,622
Net pension liability	52,801,386	-	(27,811,365)	24,990,021	-

Governmental activities long-term liabilities	\$ 695,272,717	\$ 36,726,799	\$ (49,719,310)	\$ 682,280,206	\$ 11,086,317

* The balance as of September 1, 2021 has been adjusted to reflect the adaption of GASB 87. Leases

New Caney Independent School District

Notes to the Financial Statements

General Obligation Bonds

The District issues general obligation bonds to provide funds for the construction and equipment of school facilities buildings (BLDG) and to refund general obligation bonds (REF). General obligation bonds are direct obligations and pledge the full faith and credit of the District. These bonds are issued as 7-32 year current interest and capital appreciation bonds (CAB) with various amounts of principal maturing each year. The following is a summary of changes in the general obligation bonds for the fiscal year:

Series	Interest Rate	Original Issue	Maturity Date	Beginning Balance	Additions	Reductions	Ending Balance
2010A REF	2.0-4.0%	\$ 4,080,000	2/15/2030	\$ 2,220,000	\$ -	\$ (2,220,000)	\$ -

2052	5,580,000	83,700	5,663,700
Totals	<u>\$ 561,995,000</u>	<u>\$ 352,470,318</u>	<u>\$ 914,465,318</u>

In March 2022, the District issued \$29,845,000 of unlimited tax school building bonds with an interest rate of 3.0% – 5.0%. The bond proceeds will be used for designing, constructing, renovating, and equipping school facilities. The debt service on the bonds is due semi-annually on February and August 15th and will mature February 15th 2052.

As of August 31, 2022, the District did not have authorized but unissued bonds.

In prior years, the District defeased certain bonds through the issuance of new bonds and placed the proceeds in an irrevocable trust to provide for all future debt service payments of the old bonds. Accordingly, the trust account securities and the liability for the defeased bonds are not included in the Districts basic financial statements. As of August 31, 2022, the District had no outstanding defeased bonds.

New Caney Independent School District

Notes to the Financial Statements

Leases Payable

The District has entered into multiple lease agreements as lessee. The leases allow the right-to-use vehicles, copiers, and laptops over the term of the lease. The District is required to make monthly and annual payments at its incremental borrowing rate or the interest rate stated or implied within the leases. The lease rate, term and ending lease liability are as follows:

	Interest Rate(s)	Lease Term in Years	Ending Balance
Governmental activities:			
Vehicles	Various	1-5	\$ 904,401
Copiers	5.00%	5	1,270,382
Laptops	5.00%	3	<u>2,628,200</u>
Total governmental activities			<u><u>\$ 4,802,983</u></u>

The future principal and interest lease payments as of fiscal year end are as follows:

Year Ending August 1,	Principal	Interest	Total Requirements
2023	\$ 2,016,695	\$ 224,209	\$ 2,240,904
2024	1,946,036	134,239	2,080,275
2025	438,777	38,342	477,119
2026	<u>401,475</u>	<u>17,117</u>	<u>418,592</u>
Total governmental activities	<u><u>\$ 4,802,983</u></u>	<u><u>\$ 413,907</u></u>	<u><u>\$ 5,216,890</u></u>

Financed Purchases

The District is the lessee for a financed purchase agreement for laptops with a maturity of September 1, 2023 and an interest rate of 2.685%. The District recognized an initial asset in the amount of \$784,558, which is included with furniture and equipment. The schedule of payments are as follows:

Year Ending August 1,	Principal	Interest	Total Requirements
2023	\$ 254,622	\$ 13,886	\$ 268,508
2024	<u>261,458</u>	<u>7,020</u>	<u>268,478</u>
Total governmental activities	<u><u>\$ 516,080</u></u>	<u><u>\$ 20,906</u></u>	<u><u>\$ 536,986</u></u>

F. Fund Balance

Other committed fund balance includes the following commitments of funds:

Other governmental funds:	
Campus activity	\$ 650,341
Education foundation grant	8,668
Local funds	<u>9</u>
Total other committed fund balance	<u><u>\$ 659,018</u></u>

New Caney Independent School District

Notes to the Financial Statements

G. Revenues from Local and Intermediate Sources

During the current year, revenues from local and intermediate sources consisted of the following:

	General	Debt Service	Capital Projects	Other Governmental Funds	Totals
Property taxes	\$ 57,097,621	\$ 29,628,231	\$ -	\$ -	\$ 86,725,852
Investment income	272,441	74,000	256,231	12,779	615,451
Food sales	-	-	-	1,066,015	1,066,015
Other	1,211,782	-	-	1,595,261	2,807,043
Total	\$ 58,581,844	\$ 29,702,231	\$ 256,231	\$ 2,674,055	\$ 91,214,361

Note 4. Other Information

A. Risk Management

Property/Liability

The District is exposed to various risks of loss related to property/liability losses for which the District participates in the Texas Association of Public Schools Property and Liability Fund. The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund's membership, obtain competitive costs for coverages and develop a comprehensive loss control program. The District pays an annual premium to the Fund for its liability coverage and transfers the risk of loss to the Fund. The District's agreement with the Fund provides that the Fund will be self-sustaining through member premiums and may provide, through commercial companies, reinsurance contracts. In the event that the Fund was to discontinue operations, the member districts would be responsible for any eligible claims not funded by the Fund. In addition, there were no significant reductions in coverages in the past fiscal year and there were no settlements exceeding insurance coverages for each of the past three fiscal years.

Health Care Coverage

During the year ended August 31, 2022, employees of the District were covered by TRS-Active Care (the Plan) a statewide health coverage program for Texas public education employees, implemented by the Teacher Retirement System of Texas (TRS). The District paid premiums of \$250 per month, per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. All premiums were paid to the TRS. The legislature created the Plan for public school employee group health coverage in 2002-03, requiring all Districts with fewer than 500 employees to participate in the Plan.

Workers' Compensation

The District participates in the Texas Public Workers' Compensation Program ("Program"). The Program was created to formulate, develop and administer a program of modified self-funding for the Program's membership, obtain competitive costs for coverages and develop a comprehensive loss control program. The District pays an annual premium to the Program for its coverages and transfers the risk of loss to the Program. The District's agreement with the Program provides that the Program will be self-sustaining through member premiums and will provide, through commercial companies, reinsurance contracts. In regards to the workers' compensation program, the Program maintains stop loss coverage for any claim in excess of the Program's self-insured retention. In the event that the Program was to discontinue operations or leave the Program, the member districts would be responsible for any eligible claims not funded by the Program. There were no significant reductions in insurance coverage from the prior year or settlements exceeding insurance coverage for each of the past three fiscal years.

New Caney Independent School District

Notes to the Financial Statements

B. Litigation and Contingencies

The District is a defendant in various lawsuits arising principally in the normal course of operations. In the opinion of the District's management, the potential claims will not have a material effect on the District's financial position or results of operations.

The District participates in a number of federal and state financial assistance programs. Although the District's grant programs have been audited in accordance with the provisions of the Single Audit Act through August 31, 2022, these programs are subject to financial and compliance audits by the grantor agencies. The District is also subject to audit by the TEA of the attendance data upon which payments from the agency are based. These audits could result in questioned costs or refunds to be paid back to the granting agencies.

C. Defined Benefit Pension Plan

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS) and is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_archive_cafr.aspx ; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity, except for members who are grandfathered where the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes, including automatic cost of living adjustments (COLAs). Ad hoc postemployment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as previously noted in the Plan Description above.

New Caney Independent School District

Notes to the Financial Statements

Contributions

Contribution requirements are established or amended pursuant to Article XVI, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

Rates for such plan fiscal years are as follows:

	Contribution Rates	
	2022	2021
Member	8.00%	7.70%
Non-employer contributing entity (State)	7.75%	7.50%
Employers (District)	7.75%	7.50%

The contribution amounts for the District's fiscal year 2022 are as follows:

District contributions	\$ 4,755,052
Member contributions	10,166,307
NECE On-behalf contributions (State)	6,745,543

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act.

As the non-employer contributing entity, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during the fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, local or non-educational and general funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

New Caney Independent School District

Notes to the Financial Statements

In addition to the employer contributions listed above, there are two surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment-after-retirement surcharge. Public education employer contribution - all public schools, charter schools and regional education service centers must contribute 1.6% of the member's salary beginning in September 1, 2020, gradually increasing to 2.0% on September 1, 2024.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At August 31, 2022, the District reported a liability of \$24,990,021 for its proportionate share of the TRS's net pension liability. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District are as follows:

District's proportionate share of the net pension liability	\$ 24,990,021
State's proportionate share of the net pension liability associated with the District	<u>38,140,413</u>
Total	<u>\$ 63,130,434</u>

The net pension liability was measured as of August 31, 2021 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as August 31, 2020 rolled forward to August 31, 2021. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2020 through August 31, 2021.

At the measurement date of August 31, 2021, the District's proportion of the collective net pension liability was 0.09813% which was a decrease 0.00046% from its proportion measured as of August 31, 2020.

For the fiscal year ended August 31, 2022, the District recognized pension expense of \$2,771,428 and revenue of \$152,481 for support provided by the State.

At August 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u> </u>	<u> </u>
Differences between expected and actual experience	\$ 41,820	\$ 1,759,317
Changes of assumptions	8,833,484	3,850,642
Difference between projected and actual earnings on pension plan investments	-	20,953,808
Changes in proportion and difference between District's contributions and the proportionate share of contributions	2,552,626	1,851,421
District contributions paid subsequent to the measurement date	<u>4,755,052</u>	<u>-</u>
Totals	<u>\$ 16,182,982</u>	<u>\$ 28,415,188</u>

New Caney Independent School District

Notes to the Financial Statements

\$4,755,052 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending August 31,	
2023	\$ (2,396,628)
2024	(2,735,179)
2025	(4,856,256)
2026	(6,623,081)
2027	(317,628)
Thereafter	<u>(58,486)</u>
Total	<u>\$ (16,987,258)</u>

Actuarial Methods and Assumptions

The actuarial valuation of the total pension liability was performed as of August 31, 2020. Update procedures were used to roll forward the total pension liability to August 31, 2021 and was determined using the following actuarial methods and assumptions:

Actuarial cost method	Individual entry age normal
Asset valuation method	Fair value
Single discount rate	7.25%
Long-term expected rate of return	7.25%
Municipal bond rate as of August 2020	1.95%. Source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."
Last year ending August 31 in projection period (100 years)	2120
Inflation	2.30%
Salary increases	3.05% to 9.05% including inflation
Ad hoc postemployment benefit changes	None
Active mortality rates	Based on 90% of the RP 2014 Employee Mortality Tables for males and females with full generational mortality. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projection scale U-MP.

New Caney Independent School District

Notes to the Financial Statements

The actuarial methods and assumptions are primarily based on a study of actual experience for the three year period ending August 31, 2017 and adopted in July 2018.

Discount Rate and Long-Term Expected Rate of Return

A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity will be made at the statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2021 are summarized below:

Asset Class	Target Allocation*	Long-term Expected Geometric Real Rate of Return**	Expected Contribution to Long-Term Portfolio Returns
Global equity:			
U.S.	18.00%	3.60%	0.94%
Non-U.S. developed	13.00%	4.40%	0.83%
Emerging markets	9.00%	4.60%	0.74%
Private equity	14.00%	6.30%	1.36%
Stable value:			
Government bonds	16.00%	-0.20%	0.01%
Absolute return	-	1.10%	-
Stable value hedge funds	5.00%	2.20%	0.12%
Real return:			
Real estate	15.00%	4.50%	1.00%
Energy, natural resources and infrastructure	6.00%	4.70%	0.35%
Commodities	-	1.70%	-
Risk parity:			
Risk parity	8.00%	2.80%	0.28%
Asset allocation leverage:			
Cash	2.00%	-0.70%	-0.01%
Asset allocation leverage cash	-6.00%	-0.50%	0.03%
Inflation expectation			2.20%
Volatility drag***			-0.95%
Total	100.00%		6.90%

* Target allocations are based on the FY 2020 policy model.

** Capital market assumptions come from Aon Hewitt (as of 8/31/2020).

*** The volatility drag results from the conversion between arithmetic and geometric mean returns.

New Caney Independent School District

Notes to the Financial Statements

Discount Rate Sensitivity Analysis

The following table presents the District's proportionate share of the TRS net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
District's proportionate share of the net pension liability	\$ 54,607,162	\$ 24,990,021	\$ 961,530

Change of Assumptions Since the Prior Measurement Date

There were no changes of assumptions since the prior measurement date that affected measurement of the total pension liability during the measurement period.

Change of Benefit Terms Since the Prior Measurement Date

There were no changes of benefit terms since the prior measurement date that affected measurement of the total pension liability during the measurement period.

D. Defined Other Postemployment Benefit Plan

Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

OPEB Plan Fiduciary Net Position

Detailed information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_archive_cafr.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). The Board of Trustees of TRS is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052.

New Caney Independent School District

Notes to the Financial Statements

The premium rates for retirees are reflected in the following table:

TRS-Care Monthly Plan Premium Rates

	Medicare	Non-medicare
Retiree or surviving spouse	\$ 135	\$ 200
Retiree and spouse	529	689
Retiree or surviving spouse and children	468	408
Retiree and family	1,020	999

Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the State's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the employer. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act.

Rates for such plan fiscal years are as follows:

	Contribution Rates	
	2022	2021
Active employee	0.65%	0.65%
Non-employer contribution entity (State)	1.25%	1.25%
Employers (District)	0.75%	0.75%
Federal/private funding*	1.25%	1.25%

*Contributions paid from federal funds and private grants are remitted by the employer (District) and paid at the State rate.

The contribution amounts for the District's fiscal year 2022 are as follows:

District contributions	\$ 1,041,548
Member contributions	826,023
NECE on-behalf contributions (State)	1,521,468

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

The State of Texas also contributed \$525,988, 549,462 and \$548,937 in 2022, 2021, and 2020, respectively, for on-behalf payments for Medicare Part D.

New Caney Independent School District

Notes to the Financial Statements

TRS-Care received a supplemental appropriation from the State of Texas as the Non-Employer Contributing Entity in the amount of \$5.5 million in fiscal year 2021 for consumer protections against medical health care billing by certain out-of-network providers.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At August 31, 2022, the District reported a liability of \$48,081,219 for its proportionate share of the TRS's net OPEB liability. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District are as follows:

District's proportionate share of the net OPEB liability	\$ 48,081,219
State's proportionate share of the net OPEB liability associated with the District	<u>64,418,118</u>
Total	<u><u>\$ 112,499,337</u></u>

The net OPEB liability was measured as of August 31, 2021 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as August 31, 2020 rolled forward to August 31, 2021. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2020 through August 31, 2021.

At the measurement date of August 31, 2021, the employer's proportion of the collective net OPEB liability was 0.12465% which was a decrease of 0.00214% from its proportion measured as of August 31, 2020.

For the year ended August 31, 2022, the District recognized net OPEB expense of (\$908,613), and revenue of (\$2,377,521) for support provided by the State.

At August 31, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u> </u>	<u> </u>
Differences between expected and actual experience	\$ 2,070,124	\$ 23,274,674
Changes of assumptions	5,325,560	10,168,288
Difference between projected and actual earnings on OPEB plan investments	52,200	-
Changes in proportion and difference between District's contributions and the proportionate share of contributions	4,993,319	1,813,803
District contributions paid subsequent to the measurement date	<u>1,041,548</u>	<u>-</u>
Totals	<u><u>\$ 13,482,751</u></u>	<u><u>\$ 35,256,765</u></u>

New Caney Independent School District

Notes to the Financial Statements

\$1,041,548 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended August 31, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending August 30,	
2023	\$ (4,369,661)
2024	(4,370,838)
2025	(4,370,516)
2026	(3,104,893)
2027	(1,391,453)
Thereafter	<u>(5,208,201)</u>
Total	<u>\$ (22,815,562)</u>

Actuarial Methods and Assumptions

The actuarial valuation of the total OPEB liability was performed as of August 31, 2020. Update procedures were used to roll forward the total OPEB liability to August 31, 2021.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The following assumptions used for the valuation of the TRS-Care OPEB liability are identical to the assumptions employed in the August 31, 2021 TRS annual pension actuarial valuation:

<u>Demographic Assumptions</u>	<u>Economic Assumptions</u>
Rates of mortality	General inflation
Rates of retirement	Wage inflation
Rates of termination	Salary increases
Rates of disability	

See Note 4.C for detail on these assumptions. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The initial medical trend rates were 8.50% for Medicare retirees and 7.10% for non-Medicare retirees. There was an initial prescription drug trend rate of 8.50% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.

New Caney Independent School District

Notes to the Financial Statements

The following methods and additional assumptions were used in the TRS-Care OPEB valuation:

Actuarial cost method	Individual entry age normal
Single discount rate	1.95%
Aging factors	Based on plan specific experience
Election rates	Normal retirement: 65% participation prior to age 65 and 40% after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Ad hoc postemployment benefit changes	None

Discount Rate

A single discount rate of 1.95% was used to measure the total OPEB liability at August 31, 2021. This was a decrease of 0.38% in the discount rate since the August 31, 2020 measurement date. The plan is essentially a "pay-as-you-go" plan, and based on the assumption that contributions are made at the statutorily required rates, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments to current members and therefore, the single discount rate is equal to the prevailing municipal bond rate. The source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2021.

Sensitivity Analysis of Rates

Discount Rate

The following table presents the District's proportionate share of the TRS-Care net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that was 1% less than and 1% greater than the discount rate that was used (1.95%) in measuring the net OPEB liability.

	1% Decrease (0.95%)	Current Discount Rate 1.95%	1% Increase 2.95%
District's proportionate share of the net OPEB liability	\$ 57,997,029	\$ 48,081,219	\$ 40,277,153

New Caney Independent School District

Notes to the Financial Statements

Healthcare Cost Trend Rates

The following table presents the District's proportionate share of net OPEB liability using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

	<u>1% Decrease</u>	<u>Current Healthcare Cost Trend Rate</u>	<u>1% Increase</u>
District's proportionate share of the net OPEB liability	\$ 38,944,194	\$ 48,081,219	\$ 60,340,836

Change of Assumptions Since the Prior Measurement Date

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- The discount rate changed from 2.33% as of August 31, 2020 to 1.95% as of August 31, 2021. This change increased the total OPEB liability.

Change of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

E. Joint Venture-Shared Service Arrangement

The District participates in the following shared service arrangements:

Purchasing Alliance Cooperative

The District is the fiscal agent for a Shared Services Arrangement ("SSA") which provides food purchasing services for various member districts. All services are provided by the fiscal agent. According to guidance provided in TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in the appropriate Special Revenue Fund and has accounted for these funds using Model 1 in the SSA section of the Resource Guide. Expenditures spent by the District were \$281,839 for the year ended August 31, 2022.

Humble Regional Day School Program for the Deaf

The District participates in a shared service arrangement, Humble Regional Day School Program for the Deaf, with numerous districts for the education of students with a hearing impairment. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agent, Humble Independent School District, nor does the District have a net equity interest in the fiscal agent. The fiscal agent is neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent is responsible for the financial activities of the shared service arrangement.

F. Net Position Deficit

The statement of net position reported a deficit balance of \$63,551,410 at August 31, 2022 due to the implementation of Governmental Accounting Standards Board Statement No. 75 in fiscal year 2018 and the implementation of Governmental Accounting Standards Board Statement No. 68 in fiscal year 2015 significantly reducing the unrestricted net position which resulted in an overall deficit.

 Ten years of data is not available.

New Caney Independent School District
Notes to the Required Supplementary Information

Note 1. Budget

A. Budgetary Information

Each school district in Texas is required by law to prepare annually a budget of anticipated revenues and expenditures for the general fund, debt service fund and the National School Breakfast and Lunch Program special revenue fund. The Texas Education Code requires the budget to be prepared not later than August 20 and adopted by August 31 of each year. The budgets are prepared on a basis of accounting that is used for reporting in accordance with generally accepted accounting principles.

The following procedures are followed in establishing the budgetary data reflected in the fund financial schedules:

1. Prior to August 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget after ten days' public notice of the meeting has been given.
3. Prior to September 1, the budget is formally approved and adopted by the Board.

The appropriated budget is prepared by fund and function. The District's campus/department heads may make transfers of appropriations within a campus or department. Transfers of appropriations between campuses or departments require the approval of the District's management. Increasing any one of the functional spending categories, or revenues object accounts and other resources require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the function level within a fund. All annual appropriations lapse at fiscal year-end.

Note 2. Net Pension Liability and Net OPEB Liability

The following factors significantly affect trends in the amounts reported for the District's proportionate share of the net pension liability and net OPEB liability:

Changes in actuarial assumptions and inputs

Measurement Date August 31,	Net Pension Liability		Net OPEB Liability
	Discount Rate	Long-term Expected Rate of Return	Discount Rate
2021	7.250%	7.250%	1.950%
2020	7.250%	7.250%	2.330%
2019	7.250%	7.250%	2.630%
2018	6.907%	7.250%	3.690%
2017	8.000%	8.000%	3.420%
2016	8.000%	8.000%	
2015	8.000%	8.000%	
2014	8.000%	8.000%	

New Caney Independent School District

Notes to the Required Supplementary Information

Changes in demographic and economic assumptions

For Measurement Date August 31, 2018 – Net Pension Liability and Net OPEB Liability:

- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement and economic assumptions, including rates of salary increase for individual participants were updated based on the experience study performed for TRS for the period ending August 31, 2017.

Changes in benefit terms

For Measurement Date August 31, 2018 – Net OPEB Liability:

- Changes of benefit terms were made effective September 1, 2017 by the 85th Texas Legislature.

Other changes

For Measurement Date August 31, 2020 – Net OPEB Liability:

- The participation rate for post-65 retirees was lowered from 50% to 40%.
- The ultimate health care trend rate assumption decreased to reflect the repeal of the excise (Cadillac) tax on high-cost employer health plans.

For Measurement Date August 31, 2019 – Net Pension Liability:

- With the enactment of SB3 by the 2019 Texas Legislature, an assumption was made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected based on the actuarial assumptions.

For Measurement Date August 31, 2019 – Net OPEB Liability:

- The participation rate for pre-65 retirees was lowered from 70% to 65%. The participation rate for post-65 retirees was lowered from 75% to 50%. 25% of pre-65 retirees are assumed to discontinue their coverage at age 65.
- The trend rates were reset to better reflect the plan's anticipated experience.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20% to 15%. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20% to 10%.

For Measurement Date August 31, 2018 – Net OPEB Liability:

- Adjustments were made for retirees that were known to have discontinued their health care coverage in fiscal year 2018.
- The health care trend rate assumption was updated to reflect the anticipated return of the Health Insurer Fee (HIF) in 2020.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees of
New Caney Independent School District
New Caney, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of New Caney Independent School District (the District) as of and for the year ended August 31, 2022 and the related notes to the financial statements, which collectively comprise District's basic financial statements, and have issued our report thereon dated January 20, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Board of Trustees of
New Caney Independent School District

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance in Accordance with the Uniform Guidance

To the Board of Trustees of
New Caney Independent School District
New Caney, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited New Caney Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

The Board of Trustees of
New Caney Independent School District

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

New Caney Independent School District

Notes to the Schedule of Expenditures of Federal Awards

Note 1. Summary of Significant Accounting Policies

The District accounts for all awards under federal programs in the General Fund and certain Special Revenue Funds in accordance with the Texas Education Agency's Financial Accountability System Resource Guide. These programs are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in fund balance.

The modified accrual basis of accounting is used for these funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the liability is incurred, if measurable, except for certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned. Generally, unused balances are returned to the grantor at the close of specified project periods.

National School Lunch Program non-cash commodities are recorded at their estimated market value at the time of donation.

Note 2. De Minimis Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate as allowed under Uniform Guidance.

Note 3. Reconciliation to Basic Financial Statements

The following is a reconciliation of expenditures of federal awards per Exhibit K-1 and federal revenues reported on Exhibit C-2:

Total expenditures of federal awards per Exhibit K-1	\$ 36,665,313
General Fund - federal revenue	
SHARS	2,930,863
ROTC	127,911
E-rate	1,787,737
	<hr/>
Total federal revenues per exhibit C-2	\$ 41,511,824

New Caney Independent School District
 Schedule of Required Responses to Selected
 School FIRST Indicators (Unaudited)
 For the Fiscal Year Ended August 31, 2022

Exhibit L-1

<u>Data Codes</u>		<u>Responses</u>
SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year-end?	No
SF3	Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies? (If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issued, the school district is considered to not have made timely payments.)	Yes
	Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 days from the date the warrant hold was issued.	
	Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.	
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district's fiscal year end?	Yes
SF8	Did the school board members discuss the school district's property values at a board meeting within 120 days before the school district adopted its budget?	Yes
SF9	Total accumulated accretion on CABs included in government-wide financial statements at fiscal year-end	\$ 4,404,958
