

# Manufacturing

## CAREER CLUSTER

Focuses on planning, managing, and performing the processing of materials into intermediate or final products and related professional and technical support activities such as production planning and control, maintenance, and manufacturing/process engineering.

Teaches CTE learners how to set up and operate a variety of machine tools to produce precision parts and instruments. Students will also learn how to modify parts to make or repair machine tools or maintain individual machines, and how to use hand-welding or flame-cutting equipment.

## CAREERS IN THE INDUSTRY

- CNC Machine Operators
- Aerospace Engineering & Operations Technicians
- Industrial Engineering Technicians
- Mechanical Engineering Technicians
- Welding Technicians
