Expand your leadership capabilities to drive change in your school.

Earn an AAIE International Educational Leadership Certification and a Harvard Certificate in School Management and Leadership (CSML). AAIE is excited to offer a multi-course certificate program that bridges the fields of business and education.

This program will offer you the opportunity to reflect on and apply learnings to your unique context while interacting with and learning from a global network.

This dual certificate program comprises of a 5 course online asynchronous program in order to earn a comprehensive certificate from AAIE. You will also earn Harvard's CSML certificate as you fulfill the requirement of the AAIE comprehensive certificate.

For more information see the AAIE website, click on the Leadership Learning tab or contact Cameron Janzen, AAIE Project Lead, at cameron@aaie.org for more detailed information about the program, schedule and fees.

Drive improvement by conducting root cause analysis, fostering greater alignment among the school's strategy, organizational building blocks, and resources

Course I:

LEADING SCHOOL STRATEGY AND INNOVATION

Leading School Strategy and Innovation is designed to equip school leaders with the skills they need to identify existing challenges, incorporate and support innovation, and take a strategic problem-solving approach to planning and driving school improvement.

Course II:

LEADING PEOPLE

Leading People provides school leaders with the skills needed to manage and motivate staff, foster continuous improvement, and build leadership capabilities among individuals, groups, and teams throughout the school.

How can we motivate staff and build effective leadership across the entire school community?

How can school leaders effectively apply leadership frameworks to engage and cultivate a culture supporting the empowerment of their community?

Course III:

LEADING CHANGE

Leading Change is designed to equip school leaders with the skills they need to drive school change and help diverse stakeholders establish priorities and improve practice. Explore how to establish a sense of urgency and actively shape a school culture to support the most critical work.

Course IV:

LEADING FINANCE

Leading Finances is designed to equip school leaders with essential skills in financial leadership, focusing on budgeting, resource allocation, and strategic financial planning ensuring optimal resource utilization to support the academic mission and enhance overall organizational sustainability.

How can school leaders ensure financial sustainability, clarity and accountability while maintaining flexibility for unforeseen events and new strategic goals?

**How do we create
systems-wide
alignment for
excellent teaching
and learning?**

Course V:

LEADING LEARNING

Leading Learning focuses on developing the school structures, systems, supports, and culture that lead to excellent teaching and learning in every classroom, for every student. Discover strategies to craft opportunities for professional learning and leadership development, fostering the growth of educators and enhancing the quality of teaching and learning experiences.
