#### **Northshore School District**

Grade 8

#### **Introduction and Overview**

This report presents results from the fall 2018 Healthy Youth Survey in Washington State. This survey was sponsored by the Department of Health, the Office of Superintendent of Public Instruction, the Department of Social and Health Services and the Liquor and Cannabis Board in cooperation with schools throughout the state of Washington.

Survey questions covering the same topics are grouped together when possible but be sure to consult the index for related questions when you are searching for information on a specific topic. The numbering in this report is not the same as the question order on the survey itself.

The bulleted points and graphs included at the beginning of this report highlight selected findings. Additional information may be found in the *Interpretive Guide* posted to the Healthy Youth Survey web site: http://www.askhys.net/Reports/Additional.

## **Survey Participation in this Report**

Number of students surveyed: 1,436
Number of valid responses: 1,406
Number of enrolled students\*: 1,694
Your survey participation rate\*\*: 83%

## **Caution about Participation Rates and Bias**

Please use the following guidance when reviewing your results:

- 70% or greater participation-Results are probably representative of students in this grade.
- 40-69% participation-Results may be representative of students in this grade.
- Less than 40% participation—Results are likely not representative of students in this grade but do reflect students who completed the survey.

There may be limitations to your results even if you have a high participation rate. For instance, a particular group of students (say, the school orchestra) may have been away from school the day of the survey, and that could bias the results. It is important to acknowledge the potential limitations when using the results in this report. For reports summarizing results at the county or School District level, you should also consider whether the schools that participated represent all students in that area.

## Small Numbers: Caution about Number of Students Participating

Results based on small numbers of students answering a question are unstable---that is, they could easily change with the absence from school of only a couple of students. This is especially the case when only a few students choose a particular answer option. Also, in this situation, the reported 95% confidence interval might be too narrow. Thus, use caution if fewer than 30 students answered a question and fewer than 5 students selected a given response option.

For example, if 20 students answered a question and of those 20 only 3 students answered "Yes", the estimate is unreliable.

See the Understanding Your Report section later in this report for a discussion of "confidence intervals" to help guide your interpretation of the results.

#### **Key to the Notes**

Three versions of the survey were used in the administration of the 2018 HYS. Forms A and B were given to secondary students (grades 8, 9, 10, 11 and 12 in some small school districts). Eight questions on sexual orientation, behavior and abuse were optional at the discretion of the school; schools that did not administer the optional items tore off the last page of the survey booklet. Form C was given to elementary students (grade 6 and 7 in some small school districts).

A list of the topics asked and their location in the report are provided in the Questions by Topic section at the end of this report. "Core" questions are asked on both Forms A and B. A list of Core Questions is also found at the end of this report.

The following notes are used throughout this report to document the differences between the questions on different versions and indicate the optional questions:

A = wording on Form A; B = wording on Form B; C = wording on Form C

† = optional questions

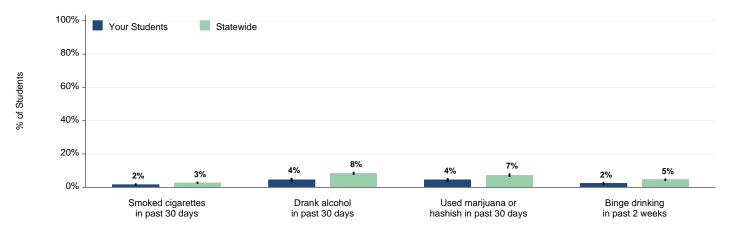

<sup>\*</sup> The estimate of enrolled students is based on figures from the 2018-2019 school year, provided by OSPI.

<sup>\*\*</sup> The survey participation rate is the number of valid responses divided by the number of enrolled students.

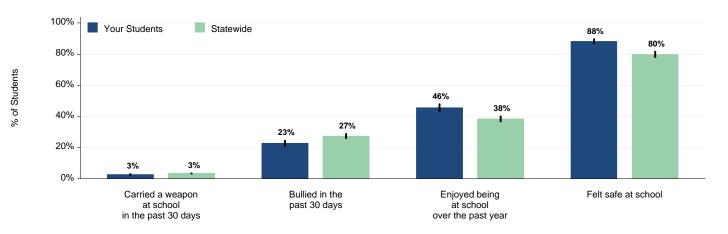

# **Highlights of the Local Results**

Your students and students statewide reported the following behaviors and attitudes:

	Your Students	Statewide
Substance Use	% (±CI)	
Smoked cigarettes in past 30 days	1.6% (±0.7)	2.7% (±0.5)
Drank alcohol in past 30 days	4.5% (±1.1)	8.4% (±0.9)
Used marijuana or hashish in past 30 days	4.4% (±1.1)	7.2% (±1.0)
Binge drinking in past 2 weeks	2.3% (±0.8)	4.6% (±0.6)

	Your Students	Statewide
Bullying and School Climate	% (±CI)	% (±CI)
Carried a weapon at school in the past 30 days	2.6% (±0.9)	3.4% (±0.5)
Bullied in the past 30 days	22.8% (±2.2)	27.4% (±1.8)
Enjoyed being at school over the past year	45.6% (±2.7)	38.4% (±2.0)
Felt safe at school	88.2% (±1.7)	79.8% (±2.1)

For more information on specific HYS topics, see the Fact Sheets at www.AskHYS.net, under HYS Results – Fact Sheets

#### Selected Results by Gender

Selected survey questions are presented by gender to highlight any differences between females and males.

The p-values reported after each question, calculated from a chi-square test, can be used to examine whether differences between females and males are statistically significant.

A p-value of less than 0.05 means there is a significant difference between females and males (that is, if there really is no difference between females and males, the probability of observing a difference at least this large is less than 5%).

To ensure student anonymity, we do not report results by gender for any question unless a minimum of students answer each response option. These results are "suppressed".

For your student results by gender, a minimum of 10 students need to answer each response option:

For example, to report smoking cigarettes in the past 30 days for your students by gender – surveys are needed for at least 10 females who smoke, 10 females who don't smoke, 10 males who smoke, and 10 males who don't smoke.

For state results by gender, a minimum of 5 students need to answer each response option.

Results that are suppressed are marked with asterisks "\*". Many small counties, districts and schools may not have enough students to report results by gender for all or some questions.

	Yo	ur Studen	its	] ;	Statewide	
	Female %	Male %	p-value	Female %	Male %	p-value
Smoked cigarettes in past 30 days	(n=1,	365)		(n=8,	515)

#### **Understanding Your Report**

#### N's

In this report "n" is shorthand for "number"---the number of students who took this survey or who answered a survey question. N's are important! We also report the point estimates (%), and the 95% confidence intervals (CI).

Here is an example of how results are displayed in the report tables and charts.

#### How many students took this survey?

Look on page 2, under Survey Participation. The "number of students surveyed" is the number of surveys that we received. We have careful procedures for "cleaning" to remove surveys with many inconsistent or false answers – the "clean" surveys are the "number of valid surveys". Only valid surveys are presented in this report.

#### How many students answered each survey question?

The n's for each question vary. Why? There are several reasons:

- There are two versions of the grades 8, 10, and 12 survey Form A and B. Core questions are on all
  versions, so the n's for those questions are about the same as the number of valid surveys. For non-Core
  questions the n's will be about half, or less.
- Some schools chose to take the questions about sexual orientation, behavior and abuse. Schools that chose
  to not ask those additional questions will have no responses for those questions. [District and county reports
  may include some schools that DID ask those questions and some that DID NOT.]
- Not all students finish the survey, so questions near the end have smaller n's. [NOTE: the order of the
  questions in the report is not the same as on the survey itself.] Also, some students may decide to skip certain
  questions.

Here are examples from a district with 400 valid surveys --- notice how the n's change with each question type.

19. Have you ever, even once in your life: Used marijuana?	(n=398)	(n=4,000)	N for a core question
a. Yes	49.0% (±3.0)	46.0% (±1.0)	(almost all students)
b. No	51.0% (±3.0)	54.0% (±1.0)	
0. Have you ever, even once in your life:	(n=200)		N for a question on only one
Used inhalants (things you sniff to get high)?	(n=200)	(n=2,000)	version (about half the
a. Yes	11.0% (±4.0)	12.0% (±2.0)	students)
b. No	89.0% (±4.0)	88.0% (±2.0)	students)
104. How old were you when you had sexual intercourse for the first time? <sup>†</sup>	(n=100)	(n=1,500)	N for an optional sexual
I have never had sexual intercourse.	70.0% (±8.0)	75.0% (±4.0)	behavior question (about
b. 11 years old or younger	2.0% (±2.0)	2.0% (±1.0)	half, or less if some school
c. 12 years old	2.0% (±2.0)	1.0% (±1.0)	chose not to ask those
d. 13 years old	5.0% (±2.0)	4.0% (±1.0)	questions)
e. 14 years old	8.0% (±6.0)	7.0% (±2.0)	
f. 15 years old	9.0% (±5.0)	8.0% (±2.0)	
g. 16 years old	3.0% (±3.0)	2.0% (±1.0)	
h. 17 years old or older	1.0% (±1.0)	1.0% (±1.0)	
55. Does your school have a counselor	(n=375)	(n=3,750)	N for a core question near
a. Yes	90.0% (±3.0)	95.0% (±1.0)	the end of the survey
b. No	5.0% (±2.0)	2.0% (±1.0)	(almost all, except students
c. Not sure	5.0% (±2.0)	3.0% (±1.0)	who don't finish the survey

#### How many students are we talking about?

N's are only provided for the total number of students who answered a question, not the individual answer options. Some people find it useful to translate their point estimates (%) into the number of students.

For example, in a district if 10% of students reported that "Yes" they used inhalants in their lifetime and 200 students answered the questions, then 20 students in the district used inhalants (20 X 0.10).

#### Confidence Intervals

It is unlikely that the point estimate (%) reported for each question is exactly the same as the "true" value for all your students. This report includes 95% confidence intervals (CI) to describe this uncertainty. If there is no bias in the data, then there is a 95% chance that the CI will include the true value. So for example, if the point estimate and CI are 51.5% (±1.5%), then there is a 95% chance that the true percentage is between 50.0% and 53.0%.

The size of your CIs depend in part on the n for each question – as more students answer a question, your point estimate is likely to be closer to the "true" value. If you are a small school, district or county your CIs will be large. The confidence interval does not take into account the participation rate – in other words, a low participation rate can create bias which will not be reflected in the CI.

#### How can you "use" confidence intervals?

Cls help you to decide if the differences between your students and the state are statistically significant.

For an example, let's say your students report 25%  $\pm$ 5%. That means that the CI is between 20% and 30% Here is the math: 25% -5% = 20%, and 25% +5% = 30%

Using Cls, you can decide if the difference between your students and the state results are statistically significant:

- A significant difference:
  - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
  - Students statewide report 36% ±3%, so the point estimate is 36% and the CI is 33% to 39%
  - The CIs don't overlap, so the difference is significant

- Not a significant difference:
  - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
  - Statewide students report 28% ±3%, so the point estimate is 28% and the CI is 25% to 31%
  - The CI for your students overlaps the point estimate for students statewide, so the difference is not significant

- 3. Not sure if there is a difference:
  - Your students report 25% ±5%, so the point estimate is 25% and the CI is 20% to 30%
  - Statewide students report 32% ±3%, so the point estimate is 32% and the CI is 29% to 35%
  - The CIs overlap, but don't include the other point estimates, so you don't know for sure if they are really different without using the significance testing tool described in the next paragraph.

More information about interpreting CIs is available on the HYS Training web page at www.AskHYS.net/Training. The Training web page includes past HYS training materials and a "Tool for Determining HYS Statistical Significance". Use the "tool" to find out if your results are significantly different.

#### More Information

Much of the information on the Healthy Youth Survey is available online at www.AskHYS.net.

- Under HYS Results, you can find these "Frequency Reports". Also included is an Interpretive Guide with a
  detailed overview of the reports, information on statistical issues and how to use your data. There are also topical
  fact sheets and a data query system where you can run your own simple analysis.
- Under Training, there are copies of past HYS training workshop materials and the tool for testing significant differences.

Technical information is also at www.doh.wa.gov/DataandStatisticalReports/HealthBehaviors/HealthyYouthSurvey.

[Question 2 appears only on the elementary version of the survey.]

3. What sex/gender were you at birth, even if you are not that gender today?	(n=1	(n=8	,845)	
a. Female	49.2%	(±2.6)	51.6%	(±1.1)
b. Male	50.8%	(±2.6)	48.4%	(±1.1)
4. How do you currently identify yourself? Select all that apply.	(n=1	,118)	(n=5	,469)
a. Male	48.0%	$(\pm 2.9)$	43.1%	(±1.4)
b. Female	47.9%	(±2.9)	49.6%	(±1.5)
c. Transgender	0.4%	(±0.4)	1.2%	(±0.3)
d. Questioning/not sure of my gender identity	1.4%	(±0.7)	1.3%	(±0.3)
e. Something else fits better	0.8%	(±0.5)	1.3%	(±0.3)
f. I do not know what this question is asking	0.5%	(±0.4)	1.2%	(±0.3)
More than one response selected	0.8%	(±0.5)	2.2%	(±0.7)

Some students may select multiple answers to this question so that their response is consistent with how they identify. For example, a student who identifies as a transgender woman may select both female and transgender. This type response is represented in the 'selected multiple responses' category.

5. Which of the following best describes you?	(n=1	,111)	(n=4,	,913)
a. Heterosexual (straight)	80.5%	$(\pm 2.3)$	75.2%	(±1.9)
b. Gay or lesbian	2.1%	(±0.8)	2.7%	$(\pm 0.6)$
c. Bisexual	4.9%	(±1.3)	7.6%	(±1.1)
d. Questioning/not sure	4.3%	(±1.2)	4.6%	(±0.8)
e. Something else fits better	1.8%	(±0.8)	2.8%	(±0.6)
f. I don't know what this question is asking	6.5%	(±1.4)	7.1%	(±1.4)

	Your S	tudents	Statewide	
6. How do you describe yourself? (Select one or more responses.)	•	<b>±CI)</b> ,372)	<b>% (</b> = (n=8,	•
a. American Indian or Alaskan Native	3.1%	$(\pm 0.9)$	3.4%	$(\pm 0.8)$
b. Asian or Asian American	19.1%	(±2.1)	9.1%	(±2.9)
c. Black or African-American	2.4%	(±0.8)	4.4%	(±1.5)
d. Hispanic or Latino/Latina	8.8%	(±1.5)	14.5%	$(\pm 4.7)$
e. Native Hawaiian or other Pacific Islander	1.1%	(±0.6)	2.0%	$(\pm 0.5)$
f. White or Caucasian	50.6%	(±2.6)	47.4%	(±5.5)
g. Other	6.7%	(±1.3)	9.3%	(±1.1)
More than one race/ethnicity marked	8.2%	(±1.5)	9.9%	(±1.2)

Another way to report race and ethnicity, is to categorize all Hispanic students as Hispanic regardless of race. If a student is Not Hispanic and is in more than one race roll-up category they will be reported as 'Multiracial non-Hispanic'.

7. How do you describe yourself? (Select one or more responses.)	(n=1	,372)	(n=8	(n=8,698)	
White non-Hispanic	50.6%	(±2.6)	47.4%	$(\pm 5.5)$	
Hispanic	10.6%	(±1.6)	17.6%	(±5.1)	
American Indian or Alaskan Native non-Hispanic	3.1%	(±0.9)	3.4%	(±0.8)	
Asian or Asian American non-Hispanic	19.1%	(±2.1)	9.1%	(±2.9)	
Black or African-American non-Hispanic	2.4%	(±0.8)	4.4%	(±1.5)	
Native Hawaiian or other Pacific Islander non-Hispanic	1.1%	(±0.6)	2.0%	$(\pm 0.5)$	
Other non-Hispanic	6.7%	(±1.3)	9.3%	(±1.1)	
Multiracial non-Hispanic	6.4%	(±1.3)	6.8%	(±1.0)	
8. If you are of Asian or Pacific Islander background, which groups best describe you? Mark all that apply.	(n=	573)	(n=3	.568)	
a. Not Asian or Pacific Islander	63.9%	$(\pm 3.9)$	75.7%	$(\pm 4.0)$	
b. Asian Indian	10.3%	(±2.5)	1.9%	$(\pm 0.9)$	
c. Cambodian/Khmer	0.7%	(±0.7)	0.5%	(±0.4)	
d. Chinese	4.9%	(±1.8)	2.9%	$(\pm 2.0)$	
e. Filipino	2.8%	(±1.4)	4.0%	(±0.8)	
f. Japanese	2.8%	(±1.4)	1.7%	(±0.4)	
g. Korean	2.6%	(±1.3)	1.9%	$(\pm 0.6)$	
h. Vietnamese	3.0%	(±1.4)	2.4%	(±1.1)	
i. Other Asian	2.8%	(±1.4)	2.0%	$(\pm 0.5)$	
j. Native Hawaiian or other Pacific Islander	2.3%	(±1.2)	3.8%	(±1.0)	
Mutliracial Asian, more than one response indicated	2.8%	(±1.4)	2.1%	(±0.8)	
Mutliracial Asian and Pacific Islander, more than one response indicated	1.2%	(±0.9)	1.1%	(±0.4)

d. I was honest once in a while.		survey	s pulled	
e. I was not honest at all.		survey	s pulled	

# Alcohol, Tobacco and Other Drug Use

Alcohol, tobacco, and other drug (ATOD) use has been a major concern in this country for many years. The consequences of ATOD use are well known. In the short term, ATOD use interferes with positive physical, emotional, and social development. In the long term, ATOD use is associated with delinquency and criminal activity, unintended injuries, and a variety of health complications including shorter life expectancy. Tobacco use is the world's leading cause of preventable death, disease, and disability. This section provides information about lifetime ATOD use (which in part reflects experimental use), use in the past 30 days (i.e., current use), and other tobacco-, alcohol-, and drug-related issues.

#### Lifetime Use

Have you ever, even once in your life:

21. Smoked a cigarette, even just a puff? (Computed from question 231)	(n=667)		ust a puff? (Computed from question 231) (n=4,028		,028)

# **Other Health Concerns**

#### **Nutrition and Fitness**

This section provides results regarding other health concerns including nutrition and fitness, health conditions and health care, safety, behaviors related to intentional injury, and depression. Proper nutrition and exercise are critical components of a healthy life, as is access to preventive health care. Safety-related behaviors can profoundly influence the outcome of an accident. Injury is the leading cause of death for adolescents aged 10 to 19, and violence contributes to injury-related deaths. People who are depressed experience a range of symptoms, and depression is associated with suicidal behavior.

Obese: "Obese" includes students who are in the top 5% for body mass index by age and gender based on growth charts developed by the Centers for Disease Control and Prevention (2000). "Overweight" includes students who are in the top 15% but not the top 5%.

83. Obese or overweight? (Computed from numeric responses to "How tall	
are you without your shoes on?" and "How much do you weigh without	

your shoes on?")	(n=591)	(n=3,682)
Obese	6.4% (±2.0)	11.9% (±1.9)
Overweight	11.3% (±2.6)	14.4% (±1.4)
Normal weight	75.8% (±3.5)	70.7% (±2.8)
Underweight	6.4% (±2.0)	3.0% (±0.6)
84. How often do you eat dinner with your family?	(n=687)	(n=4,274)
a. Never	2.9% (±1.3)	4.7% (±0.7)
b. Rarely	10.6% (±2.3)	11.1% (±1.4)
c. Sometimes	17.9% (±2.9)	17.6% (±1.2)
d. Most of the time	34.4% (±3.6)	34.4% (±1.7)
e. Always	34.2% (±3.6)	32.2% (±1.7)

#### **School Climate**

In the past few years Washington State has given increased attention to supportive learning environments. Students need a safe, nurturing, healthy, and civil learning environment if they are to be successful in school. This section provides information about student perceptions of school climate.

152. In the last 30 days, how often have you been bullied? Bullying is when one or more students threaten, spread rumors about, hit, shove, or otherwise hurt another student over and over again. It is not bullying when two students of about the same strength or power argue or fight or

tease each other in a friendly way.	(n=1,388)	(n=8,710)
a. I have not been bullied.	77.2% (±2.2)	72.6% (±1.8)

c. Not sure	12.5%	(±2.7)	11.6%	(±1.5)		
64. Last year in school, were you taught about ways other than abstinence to prevent sexually transmitted diseases (STDs) and pregnancy?	/	:586)	(n. 6	, FOZ)		
a. Yes	(n= 54.9%	(±4.0)	63.5%	3,597) (±6.7)		
b. No	30.9%	(±3.8)	22.1%	(±5.5)		
		,		` '		
c. Not sure	14.2%	$(\pm 2.8)$	14.4%	(±1.9)		

# **Quality of Life**

Health-related quality of life is an individual's or group's perceived physical and mental health over time. At the individual level it involves a person's health and health-related conditions; at the community level it involves conditions that influence people's health. This section contains the results of the survey questions related to individual quality of life.

165. I look forward to the future.	(n=656)		(n=3,	985)
a. 0 not at all true	2.7%	(±1.3)	4.3%	$(\pm 0.8)$
b. 1	1.4%	(±0.9)	1.5%	(±0.4)
c. 2	0.9%	(±0.7)	2.1%	(±0.4)
d. 3	2.0%	(±1.1)	2.5%	$(\pm 0.5)$
e. 4	4.0%	(±1.5)	3.3%	$(\pm 0.7)$
f. 5	9.6%	(±2.3)	8.8%	(±1.1)
g. 6	7.9%	(±2.1)	7.1%	(±0.8)
h. 7	13.7%	(±2.6)	14.4%	(±1.4)
i. 8	19.2%	(±3.0)	16.0%	(±1.1)
j. 9	13.6%	(±2.6)	10.9%	(±1.2)
k. 10 completely true	25.0%	(±3.3)	29.3%	(±1.7)

[Question 166 appears only on the elementary version of the survey.]

## **Children's Hope Scale**

Hope reflects a future orientated mindset and motivational process by which an individual has an expectation toward attaining a desirable goal. Research has linked hope with overall physical, psychological, and social well-being. This section introduces the Children's Hope Scale, an assessment of agency (ability to initiate and sustain action towards goals) and pathways (capacity to find a means to carry out goals).

	Your Students		State	Statewide		
167. Children's Hope Scale (Computed from questions 168 to 171)		± <b>CI)</b> 623)	•	± <b>CI)</b> (,797)		
no or very low hope	2.9%	(±1.3)	5.9%	(±0.9)		
slightly hopeful	11.4%	(±2.5)	14.7%	(±1.5)		
moderately hopeful	23.3%	(±3.3)	27.6%	(±1.7)		
highly hopeful	62.4%	(±3.8)	51.8%	(±3.0)		
168. I can think of many ways to get the things in life that are most important to me.	(n=			,915)		
a. None of the time	2.8%	(±1.3)	3.9%	(±0.8)		
b. A little of the time	7.9%	(±2.1)	8.6%	(±1.0)		
c. Some of the time	19.4%	(±3.1)	25.3%	(±1.5)		
d. A lot of the time	21.1%	(±3.2)	19.6%	(±1.5)		
e. Most of the time	30.9%	(±3.6)	26.5%	(±2.1)		
f. All of the time	17.9%	(±3.0)	16.0%	(±1.4)		
169. I am doing just as well as other kids my age.	(n=	650)	(n=3,922)			
a. None of the time	2.9%	(±1.3)	3.8%	(±0.7)		
b. A little of the time	4.9%	(±1.7)	7.9%	(±1.2)		
c. Some of the time	12.5%	$(\pm 2.5)$	15.4%	(±1.4)		
d. A lot of the time	10.9%	(±2.4)	14.2%	(±1.2)		
e. Most of the time	33.7%	(±3.6)	32.0%	(±1.7)		
f. All of the time	35.1%	(±3.7)	26.7%	(±2.1)		
170. When I have a problem, I can come up with lots of ways to solve it.	(n=	:647)	(n=3	,910)		
a. None of the time	2.2%	(±1.1)	4.3%	(±0.7)		
b. A little of the time	4.3%	(±1.6)	9.4%	(±1.5)

e. Most of the time	28.2%	(±3.5)	24.1%	(±2.0)	
f. All of the time	17.6%	(±3.0)	15.6%	(±1.3)	

#### **Risk and Protective Factors**

Decades of research have shown that certain risk factors are associated with increased likelihood of health risk behaviors including ATOD use, violence, and delinquent behaviors. Similarly, research from Drs. Hawkins and Catalano and associates at the University of Washington, has shown that protective factors exert a positive influence against the negative influence of risk factors. The premise of the risk reduction and protective factor enhancement approach to prevention is that preventing a problem before it occurs requires addressing the factors that predict the problem. Ideally, this strategy entails discovering the causes of the problem behavior and influencing those causes. Many of the survey questions were used to assess students' status on risk and protective factors in the community, school, and peer-individual domains. Composite scales were computed for use in local program planning.

### Risk and Protective Factor Framework and Reporting Schedule

This table provides a list of risk and protective factors included in the Healthy Youth Survey by year.

	2006	2008	2010	2012	2014	2016	2018
Community Protective Factors							
Opportunities for Prosocial Involvement	Χs	χs	χs	χs	χs	χs	χs
Rewards for Prosocial Involvement	X	Χ	XE	XE	XE	XE	XE
Community Risk Factors							
Perceived Availability of Handguns	XS	ΧS	ΧS	χS			XS
Laws And Norms Favorable to Drug Use	X	X	X	Χ	Х	Χ	Х
Low Neighborhood Attachment	Xs	ΧS	ΧS				
Perceived Availability of Drugs	X	Χ	Χ	Х	Χ	Х	Χ
Family Protective Factors							
Opportunities for Prosocial Involvement	Xţ	Χţ	Χţ	Χţ	Х	Х	Χ

Interaction With Antisocial Peers	χs	XS	XS	χs			
Intentions to Use	Xs	Xs	Xs	Xs			
School Protective Factors							
Opportunities for Prosocial Involvement	Χs	χs	χs	χs	χs	χs	Χs
Rewards for Prosocial Involvement	X	Χ	Χ	Х	Χ	Х	X
School Risk Factors							
Low Commitment to School	X	Х	Х	X	Х	Х	X
Academic Failure	X	Χ	Χ	X	Χ	Χ	Χ

Note:  $X^S$  = Included only on the secondary version;  $X^E$  = Included only on the elementary version.

## Risk and Protective Factor Scale Results and Graphs

For each risk factor scale, the percentage of students who are at risk (i.e., who agreed with statements that predict ATOD use or other problem behaviors) is reported; higher percentages indicate that more students are likely to engage in problem behaviors. For each protective factor scale, the percentage of students who are resilient (i.e., who agreed with statements that predict the ability to resist ATOD use or other problem behaviors) is reported; higher percentages indicate that fewer students are likely to engage in problem behaviors. These percentages are based on computational methods provided by the University of Washington's Social Development Research Group.

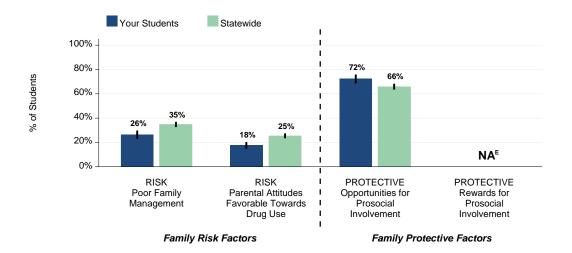

Community Domain	Your Students	Statewide
Risk Factors	% (±CI)	% (±CI)
Developed Availability of Drugs (Overtions 470 472)	(n=689)	(n=4,332)
Perceived Availability of Drugs (Questions 170-173)	11.9% (±2.4)	17.9% (±1.6)
Perceived Availability of Handguns (Question 174)	NA <sup>X</sup>	NA <sup>X</sup>
Laws And Norms Favorable to Drug Use (Questions 175-180)	(n=696)	(n=4,418)
Laws And Norms Pavorable to Drug Ose (Questions 175-160)	15.7% (±2.7)	24.3% (±2.3)
Protective Factors		
Opportunities for Prosocial Involvement (Questions 181-184)	(n=655)	(n=4,150)
Opportunities for Prosocial Involvement (Questions 161-164)	79.7% (±3.1)	72.4% (±3.5)
Rewards for Prosocial Involvement (Questions 185-187)	NA <sup>E</sup>	NA <sup>E</sup>

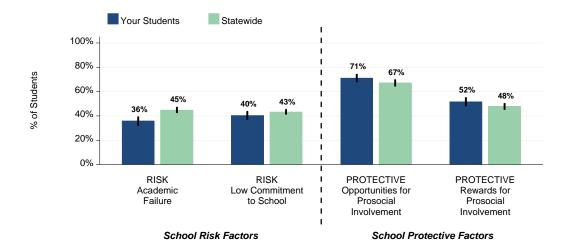

Note: NAS = Included only on the secondary version; NAE = Included only on the elementary version.

# **Favorable Attitudes Toward Drug Use (Questions 234-237)**

How wrong do YOU think it is for someone your age to:

234. Drink beer	. wine.	or hard ligu	ıor (for e	example v	odka.	whiskey.	or ain)

regularly?	(n=640)	(n=3,864)	
a. Very wrong	70.2% (±3.6)	63.2% (±2.4)	
b. Wrong	19.8% (±3.1)	22.9% (±1.5)	
c. A little bit wrong	8.0% (±2.1)	10.0% (±1.1)	
d. Not wrong at all	2.0% (±1.1)	3.9% (±0.7)	
235. Smoke cigarettes?	(n=647)	(n=3,906)	
a. Very wrong	(n=647) 77.6% (±3.2)	(n=3,906) 72.8% (±2.2)	
a. Very wrong	77.6% (±3.2)	72.8% (±2.2)	
a. Very wrong b. Wrong	77.6% (±3.2) 16.1% (±2.8)	72.8% (±2.2) 19.0% (±1.6)	

236. Use marijuana?	(n=	•	% (:	±CI)
- Van		<b>% (生CI)</b> (n=645)		5,898)
a. Very wrong	74.3%	(±3.4)	67.2%	(±2.5)
b. Wrong	14.9%	(±2.8)	16.6%	(±1.5)
c. A little bit wrong	8.5%	(±2.2)	10.3%	(±1.2)
d. Not wrong at all	2.3%	(±1.2)	6.0%	(±1.0)
37. Use LSD, cocaine, amphetamines, or another illegal drug?	(n=	643)	(n=3	,890)
a. Very wrong	86.9%	(±2.6)	84.1%	(±1.5)
b. Wrong	9.0%	(±2.2)	10.6%	(±1.0)
c. A little bit wrong	3.6%	(±1.4)	3.8%	(±0.6)
d. Not wrong at all	0.5%	(±0.5)	1.6%	(±0.4)

# Friends Use Drugs (Questions 238-241)

Think of your four best friends (the friends you feel closest to). In the past year (12 months), how many of your best friends have...

238. Smoked cigarettes?	(n=	:580)	(n=3	,518)
a. None of my friends	88.6%	(±2.6)	84.1%	(±1.8)
b. 1 of my friends	7.2%	(±2.1)	9.2%	(±1.2)
c. 2 of my friends	1.7%	(±1.1)	3.3%	(±0.7)
d. 3 of my friends	0.5%	(±0.6)	1.4%	(±0.4)
e. 4 of my friends	1.9%	(±1.1)	2.0%	(±0.6)
239. Tried beer, wine, or hard liquor (for example vodka, whiskey, or gin) when their parents didn't know about it?	(n=	:573)	(n=3	3,537)
a. None of my friends	80.6%	(±3.2)	74.1%	(±2.0)
b. 1 of my friends	9.9%	(±2.5)	12.4%	(±1.2)
c. 2 of my friends	4.2%	(±1.6)	6.1%	(±0.8)
d. 3 of my friends	1.7%	(±1.1)	2.6%	(±0.7)
e. 4 of my friends	3.5%	(±1.5)	4.9%	(±1.0)
240. Used marijuana?	(n=	570)	(n=3	5,526)
a. None of my friends	83.9%	(±3.0)	77.1%	(±2.1)
b. 1 of my friends	7.9%	(±2.2)	10.4%	(±1.2)
c. 2 of my friends	3.3%	(±1.5)	4.7%	(±0.7)
d. 3 of my friends	1.9%	(±1.1)	2.7%	(±0.6)
e. 4 of my friends	3.0%	(±1.4)	5.0%	(±1.0)

	Your S	tudents	State	ewide	
	•	±CI)	% (±CI)		
241. Used LSD, cocaine, amphetamines, or other illegal drugs?		572)	,	3,526)

### Questions by Topics

Questions about a single topic are not always grouped together in this report. For example, some questions about alcohol are presented in the Alcohol, Tobacco, and Other Drug (ATOD) Use section and others are presented in the Risk and Protective Factor section. The following list, groups the questions by topic so you can easily locate them in this report.

Abuse 134-140

Activities and Clubs 103, 184-186

Alcohol

Access 63, 172
Age at first use 232-233
Current use 38, 60-61
Drinking and driving 123, 125
Family influence 64-65, 194-195, 205
Lifetime use 23
Perceived norms 66-67, 69, 178, 180, 234
Perceived risks 68, 229
Prevention/intervention 79, 160
Use at school 76, 77
Usual type 62

Asthma 105-106

Bullying/Harassment 152-159

Children's Hope Scale 167-171

Demographics 1, 3-9, 11-20

Disability 111-114

Family

Food insecurity 84-85 Living situations 12-14 Migrant or seasonal work 17 Military service 16 Mother's education 11

Fighting 131, 243

**Fitness** 

Physical activity 95-98, 101-103 Sedentary behavior 99-100

Gangs 132-133

HIV/STD/Pregnancy Prevention 119, 163-164

Health or Health Care Doctor visit 104 Oral Health 107-108 Sleep 110

Honesty 20

Marijuana

Access 73, 174
Age at first use 230
Current use 39
Family influence 70, 74, 207
Lifetime use 24
Perceived norms 75, 177, 182, 236, 240
Perceived risks 227-228
Simultaneous use with alcohol 78
Use at school 77
Using and driving 126-127

Mental Health

Usual type 71

Anxiety and worry 147-148 Depression 141 Help with mental health 149-151 Suicide 142-144 Nutrition

Breakfast 86 Food insecurity 84-85 Fruit/Vegetable servings 87 Junk food 93-94 Soda and Sugar Drinks 88-90

Other Drugs

Access 175
Current use 40-44
Family influence 80, 194
Lifetime use 24-30
Perceived norms 81, 237, 241
Perceived risks 82
Prevention/intervention 79, 160
Use at school 76-77

Quality of Life 165

Safety-related Behaviors Swimming 121-122 Wearing Safety Gear

School Climate

Absence 18, 197, 216
Achievement 208-209
After-school activities 103, 184-186
Bullying/harassment 152-159
Changed school in past year 19
Counseling and support 161-162
Engagement 210-215, 217-225
Nutrition 15, 89-90, 93-94
Physical activity 97-98, 101-102
Prevention/intervention 79, 119, 151, 160, 162-163
Safety at 155, 224
Substance use at 76-77
Weapons at 130

Sexual Behaviors 115-119

Sexual Identity 4

Sexual Orientation 5

Substance Use Prevention 79, 160

Texting and Driving 129

Tobacco and Electronic Cigarettes/Vaping Access 49, 58, 173 Age at first use 56, 231 Current use 32-37, 45

Age at first use 56, 231 Current use 32-37, 45 Family 46, 206 Lifetime use 21-22 Perceived norms 50, 179, 235, 238

Perceived risks 59, 226
Prevention/intervention 160
Secondhand smoke 47
Suscepibility to smoking 51-53

Use at school 77 Usual type 57

Weapons 130, 176, 181, 196

Weight and Weight Loss 83

#### **Core Questions**

"Core" questions that appeared on both Forms A and B (the secondary versions of the survey) are listed below. All other questions appeared on either Form A or Form B, but not both. Core questions may or may not have appeared on Form C (the elementary version).

#### Activities

Participation in after school activities 103

#### Alcohol

Age when first drank alcohol 232

Binge drinking 60

Current alcohol drinking (past 30 days) 38

Levels of alcohol use 61

Lifetime alcohol use 23

#### Bullying

Been bullied (past 30 days) 152

#### Demographics

Age 1

Education level of mother 11

Food insecurity 85

Gender 3

Gender identity 4

Language spoken in home 8

Loss of home due to family finances 14

Race/Ethnicity 6, 7

Sexual orientation 5

Where you live 13

Who you live with 12

#### Fighting

Physical fighting (past 12 months) 131

#### Gangs

Gang involvement 132

Gangs at school 133

#### Honesty

Honesty in completing survey 20

#### Marijuana

Age when first used marijuana 230

Current marijuana use (past 30 days) 39

Lifetime marijuana use 24

#### Mental Health

Bothered by anxiety 147

Bothered by worrying 148

Depression (past 12 months) 141

Person(s) turned to when depressed 150

Seriously considered attempting suicide 142

#### Other Drugs

Current painkiller use (past 30 days) 42

#### School Climate

Absent from school 18

Been bullied (past 30 days) 152
