Equity and Excellence - 2022

Community High School 94 (144350)

Data Updated: July 7, 2022

Report Run: July 12, 2022

This report provides you with a means to assess both the equity and excellence of your school's AP program. Specifically, it shows the proportion of your school's entire senior class who scored a 3 or higher on an AP Exam at any point during high school. Additionally, you can see what percentage of your school's entire tenth, eleventh, and twelfth grade classes took and scored a 3 or higher on at least one AP Exam in May 2022.

In this calculation, students who score a 3 or higher on an AP Exam are counted only once, regardless of how many AP Exams they took and were successful in. There is no way to inflate this percentage by restricting access to AP; students who earn 1s or 2s on AP Exams neither increase nor reduce the percentage. In addition, by showing the proportion of the overall population — not just the AP classroom — educators are better able to determine the extent to which their overall population is receiving access to advanced academics in high school.

Note: Your school's enrollment counts were submitted by your AP Coordinator when placing your school's order for AP Exams.

Group	Percentage	How is this calculated?
Graduating Class Summary	24.8%	Number of your school's seniors who scored 3 or higher on at least one AP Exam at any point during high school divided by the total number of your school's seniors.
12th Grade	13.2%	
11th Grade	13.5%	Number of AP students per grade level who scored 3 or higher on at least one AP Exam this year divided by the total number of students in each grade.
10th Grade	9.3%	

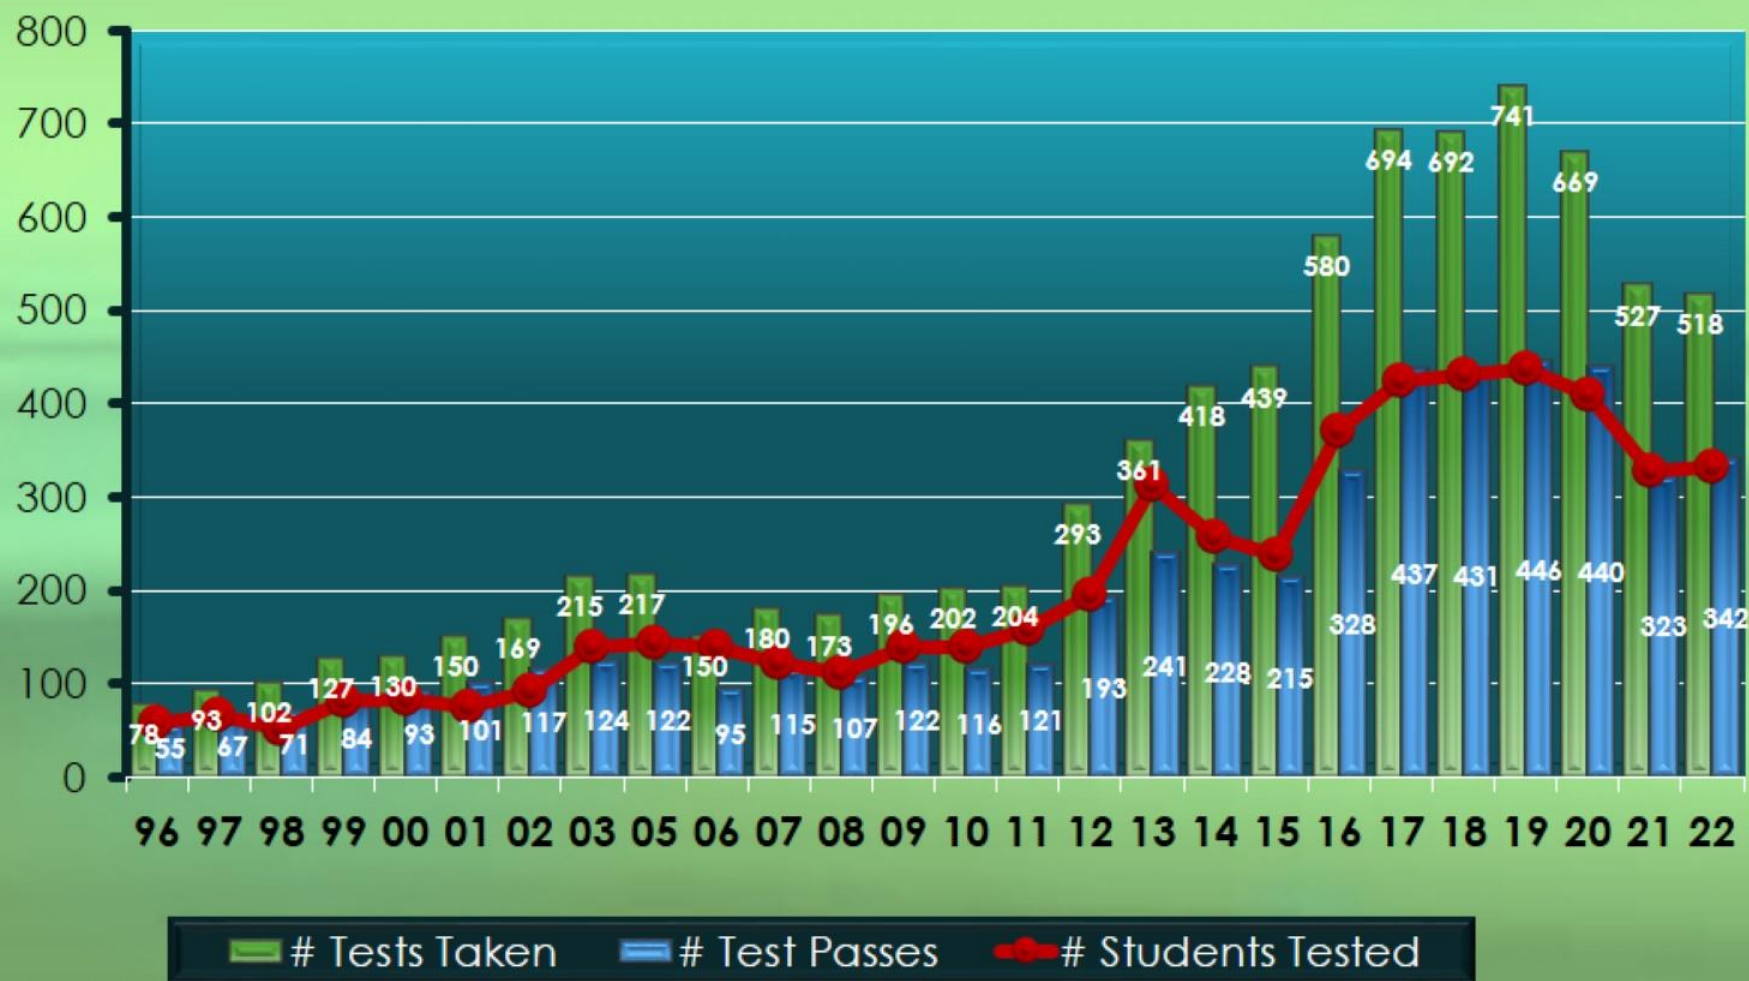

If 'n/a' appears in the table above, the percentage is not available because the enrollment count was not submitted for this grade level.
