# Summer School 2017

The Baldy View ROP summer session continues to grow as this year's attendance exceeded 600 students! We are so excited to see students from our four partnering school districts and beyond prepare for career and college by equipping themselves with the 21<sup>st</sup> century skills that Career Technical Education provides. This year's summer session features morning and afternoon class times at the Career Training Center as well as courses taught at Chaffey, Montclair, Upland, and Valley View High Schools. Courses include popular summer session subjects such as Crime Scene Investigation and 3D Media Design as well as new subjects like Crime Scene Photography, Dental Careers, and Working with Children. Due to our continued partnership with Campfire, free lunches are provided to students. Have a great summer everyone!

Students learn the basics of paramedic work by taking pulses in Community Emergency Response Team

Students in Instructor Gerald Jo's 3D Media Design search online for examples of animated media

Crime Scene Investigation students jump immediately into evidence gathering their first week

# Law Enforcement Occupations Class of 2017

**The Law Enforcement Occupations (LEO) Graduation Ceremony was held on Saturday, May 20<sup>th</sup> at the Career Training Center. Thank you to Fontana Unified School District Police Chief Martin Sissac for providing the keynote address and congratulations to all of this year's LEO graduates!**

## SPOTLIGHT ON THE STUDENTS

### *Architectural Drafting*

Kevin Reed, Franco Chaij, Michael Clementi, Instructor Doug Brooks, Dean Rogan, Nathan Bennett, Miguel Nunez, Jorge Padilla

Students from the Architectural Drafting course at Upland High School continue to gain recognition for their work. Last year, UHS senior John Acayan placed 1<sup>st</sup> in the nation for his design of a Dollar Tree store. This year, Jorge Padilla and Kevin Reed placed 2<sup>nd</sup> and 3<sup>rd</sup> respectively at the 2017 National Association of Women in Construction (NAWIC) Awards Banquet held at the Hilton Garden Inn in Fontana. The annual architectural design competition sponsored by NAWIC attracted 19 entrants from 3 different high schools. In this year's design challenge, the students were instructed to transform a proposed piece of

property into a developed dental center. The students not only designed the building itself, but also the entire property which included parking and landscaping.

Special thanks to Instructor Doug Brooks for providing this story!

## Class Collaboration

### *Retail Floral Design & Event Planning*

Chino Hills High School Event Planning students Balmet Gosal, Melissa Gonzales, Ashburn Hue, and Madelyn Huy assisting with guest check-ins

Two of Instructor Lorraine Avalos' courses had a hand in the California Teachers Association We Honor Ours (WHO) Awards held at the El Serrano Country Club in Chino Hills. The Awards honor teachers who "go the extra mile" and are involved with their local communities.

Students from the Chino Hills High School Event Planning course assisted in liaison duties such as checking in guests and helping them to their tables. Students from the Chaffey High School Retail Floral Design course designed and created the floral

centerpieces for each of the tables during the awards.

"The students enjoyed participating and meeting the educators, and the educators were honored by the students taking the time to help them," Instructor Avalos shared. Thank you Lorraine, for this great story!

A centerpiece from the Retail Floral Marketing course

## SPOTLIGHT ON THE STUDENTS

# Virtual Enterprise

Claremont High School's Virtual Enterprise students and their parents participated in the inaugural *End Game* event on Saturday, April 29th. The workshop had three sessions with 150 students and parents in attendance exploring the different aspects of virtual enterprise. Students and parents broke into teams together and worked to identify and research three different types of careers that they found interesting. Next, they determined the education and training requirements necessary to be successful in those careers. The event was also attended by Claremont High School principal Dr. Brett O'Connor, Head Counselor Jeremy Troesh, and Virtual Enterprise Instructor James Londagin.

Due to the success and positive feedback from those that attended, plans are in the works to increase accessibility to include all Claremont High School sophomores starting in January 2018. An expanded future version of this event would again include parents and could help raise career training awareness for many more CHS families. A special thank you to Instructor James Londagin for sharing this story!

The "End Game" event gave parents and students an opportunity to map out their careers and determine steps for achievement

Career cubes were on display that showcased a variety of careers for students and their parents to research

## ALUMNI CONTINUING THEIR EDUCATION

Mariah is proud to be a Rancho Cucamonga High School class of 2017 graduate and BVRFP alum

**Mariah Johnson has always had a fascination with criminology. She gravitated towards TV shows that depicted the criminal justice field and watched some of her favorite characters solve crimes week-after-week. Now, Mariah is a 2017 Rancho Cucamonga High School graduate with aspirations to solve real life crimes. She has already taken the first steps towards pursuing a career in criminology when she enrolled in the Baldy View ROP Forensic Science course at Upland High School during her senior year.**

**Mariah credits the course with helping her understand the critical impact of details in the profession. She said, "Accuracy is a demonstration of liability, time, and importance to a crime scene. It can tell a lot about a crime and the victims. Plus, I got to learn just how important accuracy is through hands-on training from a retired FBI agent, Instructor Terry Henson!"**

**Mariah is currently researching colleges to attend this fall that support her overall career goals in studying Criminal Investigation with a concentration in behavioral aspects of crime. She's looking forward to taking courses in Sociology and Psychology as they will help educate her about human behavior, relationships, and motives. Mariah has already mapped out a few experiences she hopes to have in college including working as an intern in a role relating to criminal investigation. Like a true investigator, Mariah has already done research on internships that will offer her the experience she's looking for and found an organization that will provide opportunities to 18 year-old students.**

**Mariah says that her experience with ROP gave her a chance to get a feel for something she was passionate about. "ROP is important for students because it tests your ambitions and interest to see if you are really set out to pursue various types of careers. Forensic Science helped me to realize in a very hands-on way that I could actually handle crime scene investigations."**

**Best of luck to Mariah and special thanks to her mother, Maranda Johnson (who currently assists our Educational Services Department), for helping to provide this story!**

# BVROP to be featured in "Made in Ontario!"

This spring, Baldy View ROP and the City of Ontario connected at the BVROP Career Training Center to film a video for the "Made in Ontario" video series.

Students and Superintendent, Shelley Adams Ed.D., will be featured in the video! The new city series provides the community with testimonials on why

Ontario is a business-friendly city in Southern California and is strategically located for success. We are looking forward to seeing the final cut in the near future!

Windsong Productions filmed the video and visited several classes, including A+ Computer Repair

RDA Assistant Instructor Erica Madrigal, works with a student for the camera in the new RDA lab

Healthcare Occupations students are recorded filling and testing syringes for another demonstration of hands-on CTE coursework

# Spring PD

We held our Spring Professional Development on Saturday, April 29<sup>th</sup>. Instructors examined their previously identified sequenced standards and performance indicators for their courses. Additional topics included the importance of universal CTE anchor standards, rigorous and relevant key assignments, and Common Core State Standards. The PD was another successful event that featured engaging small group work as instructors examined their courses while they approached the end of the current school year and prepared for the following year.

Left and right: Instructors meet in small groups during the Spring Professional Development

## Institutional Advisory

We held our Institutional Advisory Meeting on Wednesday, May 31<sup>st</sup> at the Baldy View ROP Administration Office. The Institutional Advisory provides us with the opportunity to engage with local businesses to obtain feedback regarding institutional action plans and goals as well as to keep current with employment data, demands, and trends for the local workforce. These meetings allow us to continue to provide rigorous and relevant Career Technical Education for our students so they will be prepared for career and college. Thank you to all members of the Advisory and a special welcome to new members David Ayala, Facilities Engineer for UPS and Xavier Solis, Recruitment Specialist for Cambrian Homecare.

## BVROP Fall Flyers

Look for new flyers for 2017 Baldy View ROP courses this fall at your school! You can also find them online at [www.baldyviewrop.com/fallflyers](http://www.baldyviewrop.com/fallflyers)

## Staff News and Notes

### BVRDP Staff Tour Eagle Marine Services

We toured the Eagle Marine Services, South Port of Los Angeles distribution center on May 17<sup>th</sup>. We continue to collaborate with employers to support research and design for our logistics courses coming to Claremont High School next school year and the CTC the following school year. The tour also provided insight into local employability in the logistics market. The tour was led by EMS Head of Operations, Rickey Childs and attended by BVRDP Director of Development/Public Relations Dora Edney, Superintendent Shelley Adams, Ed.D., Assistant Superintendent of Educational Services Forest DeRenzo, Ed.D., and Special Projects and Grants Liaison and Program Specialist - Curriculum Development, Shawnee Coyle.

### Dr. Sally Mahmoud

#### Vocational Nursing Director

Dr. Mahmoud joins the BVRDP team as the Director of Vocational Nursing. She has a diverse background in the healthcare field. She has worked in various settings including hospitals, clinics, social services, and correctional facilities among other locations. Sally has also been a registered nurse for over 20 years and has worked as an Associate Dean of Academic Nursing at a university. Sally holds several degrees in health including a Doctorate in Nursing Practice, and a dual Masters in Nursing (MSN) and Public Health (MPH) from Cal State University Long Beach. As the Director of Vocational Nursing, Sally will provide insight into the day-to-day operations of the program; ensure compliance with accredited entities, and monitor students' progress. She is excited to grow the program and prepare strong nursing students to fill in-demand jobs. Sally and her husband have been married for 23 years and have three children. In her spare time, Sally likes to read about trends and practices within nursing and medical research. She also offers free nursing care to uninsured individuals and enjoys traveling, art, and music.

## Staff Graduations

BVRDP cabinet members attend the hooding ceremony at USC for Shelley Adams, Ed.D.

Baldy View ROP staff reached major milestones this spring. Superintendent Shelley Adams, Ed.D. received her Doctor of Education degree from the University of Southern California in May. Dr. Adams was also one of 16 members of the first Executive Leadership Cohort for the USC Rossier School of Education.

Fiscal Analyst Joshua Behnke earned his Masters of Business Administration (MBA) with a concentration in Finance and International Business from the University of La Verne this March.

Josh with his brothers after receiving his MBA

**Congratulations on your remarkable educational accomplishments, Shelley and Josh!**

## Staff News and Notes

Marketing & Public Relations Specialist Sean Pravica addresses students during Los Osos High School career event

Thank you to all Career Technicians and high school staff that invited us to your campuses this year to talk to students about Baldy View ROP courses! We appreciate your support and look forward to connecting with your students again next school year!
