

My Mission Statement

My goal, my mission as a teacher, is to convey the message to my students that they are wonderful individuals who possess unique talents of their very own. It is my mission to help each student develop a positive self-image and a sense of self-worth enabling each student to reach his or her highest potential intellectually, socially, emotionally, and physically.

My mission is to give the children in my class a "Yes, I Can" attitude. Each day, in interactions with my students, I will treat them with respect, compassion, and understanding. I will establish high expectations for them in the areas of academics, behavior, and peer interactions. I will hold the children responsible for meeting these expectations.

My mission as a teacher is to instill in my students a lifelong love of learning and communicate to them that learning is the vehicle through which a person sees possibilities and realizes dreams.
