In Partnership with Sylvan Learning

2022-2023 Academic School Year Summary

Students Receiving English Language Arts Remedial Instruction

100+

Students in
Grades K - 8

ENGLISH LANGUAGE ARTS

On site at 9 Campuses

CHANGING THE WORLD.
One Student At a Time.

Progress Report Executive Summary

HOW IT WORKS

Group placement

Placement based
on pre-assessment

Students are
placed in groups
of \approx 6 students

(Min. of 4 - Max. of 8)

Program timeframes are efficient and maximize learning

- Ace it! programs are taught in small groups with a maximum student-to-teacher ratio of 8:1. This ensures students receive personal attention and have the opportunity for teamwork.
- Summative assessments are used to determine student placement and measure academic growth.
- Formative assessments are used throughout the program to drive instructional decisions.
- Teachers provide direct and explicit instruction with immediate feedback and strategic questioning.
- All lessons use scaffolded instruction and systematic sequencing to optimize learning, and differentiation activities are included within the curriculum.
- Teachers provide a comprehensive motivation program to ensure students stay positive and engaged.

Progress Report Executive Summary

The adaptive learning plans are based upon our proprietary learning progression which uses research-based content that is presented to each student during each lesson along with the conditions for mastering each skill.

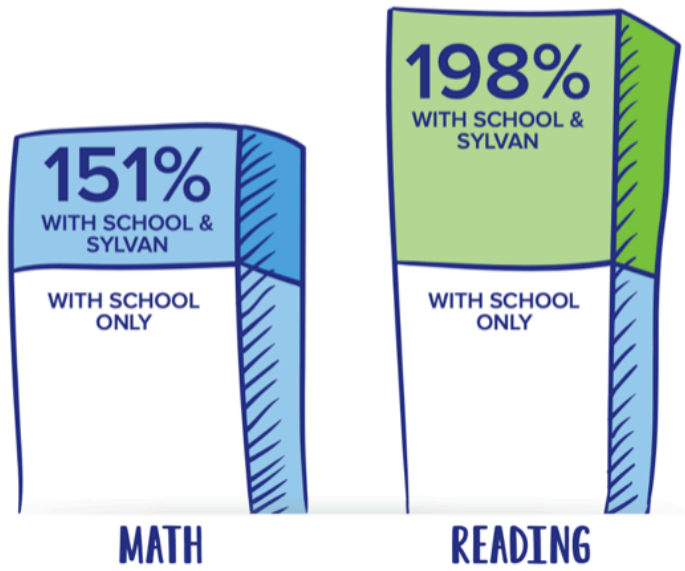

SylvanSync harnesses technology’s ability to making learning hands on with lessons that adapt to each student’s skill level and individual pace. SylvanSync supports our teachers to truly address the unique needs of each child.

By addressing students’ unique needs, we can deliver the most rigorous outcomes to ensure their long-term success.

More On Our Assessments

STAR assessments are the most widely used assessments in K through 12 schools. These tests provide the most valid, reliable actionable data in the least amount of testing time—usually 20 minutes or less. The use of the STAR assessments enables Sylvan to quickly focus on individualizing instruction designed to accelerate learning for each student.

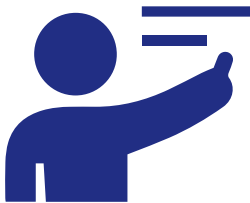

The average SylvanSync™ student shows significantly greater academic growth.
Academic Growth of Average Sylvan Student
(Versus Expected Student Growth in School Only)

Here is how Sylvan has you covered with your intervention and support needs:

Curriculum: We offer diverse curriculum for all grade levels and abilities, which is high dosage, aligned to state and district standards, and is personal!

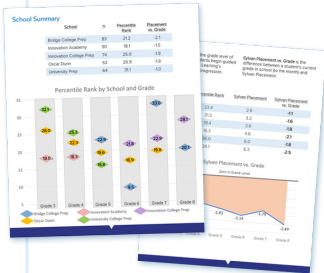

Teachers: We are the largest private employer of teachers in North America and have a best-in-class training program. Local Sylvan Learning teachers, throughout hundreds of North America locations know local curriculum and are part of the community. We can deliver a teaching team or train District staff to carry out instruction.

Results: We ensure every student has a high quality personal learning plan. If students were ahead before the pandemic, they will be ahead again. If they fell behind, we'll get them caught up. We know how to produce results, especially for the most disadvantaged students.

Customized Solutions: Not only does our curriculum and approach serve each child's unique learning needs, but we will work with you to customize the intervention solutions that are best for your students and fit your budget.

Tracking & Reporting: We are the only tutoring and enrichment company that measures our academic achievement in a systematic manner across all our locations and touch points. Our state-of-the-art assessments of cognitive and non-cognitive factors drive initial placement and measure growth. You'll have data to help track results at the student, school and district level.

Free Parent Resources: We also have free offerings intended to help families navigate these atypical school years. A sample of the free assistance available is described below.

- **Educational tips, articles and guidance** on how to navigate school and helpful strategies for how to raise happy, successful students
- **Grade-level worksheets and enrichment activities** to keep the learning going at home
- **Free SAT/ACT diagnostic tests and 30 days of free online preparation tools**
- **Recorded mini-camps for enrichment and fun learning activities** at home as well as College Admissions webinars for students going into Middle or High School
