Diagnostic Growth (District/School)

See how much progress different populations of students have made toward Typical Growth and Stretch Growth® after they complete two or three Diagnostics.
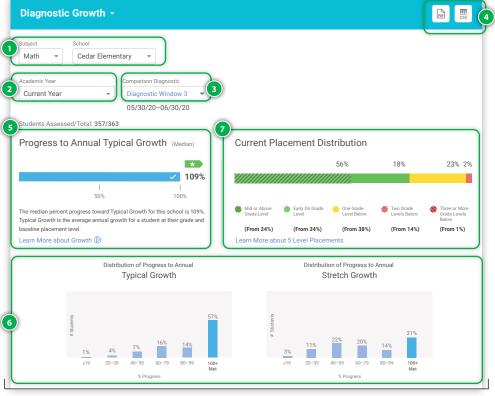

Use For:

- Evaluating growth

- Prioritizing which populations of students may need additional instructional support to accelerate growth

When:

After the midyear and end-of-year Diagnostic assessment administrations

Navigation:

1 Subject and School: Use these dropdown menus to navigate to a different subject or school. District administrators should choose All Schools in the School dropdown menu to view results for the district.

2 Academic Year: Use this dropdown to view data from the current academic year and two prior academic years.*

3 Comparison Diagnostic: Use this dropdown to select a Diagnostic to compare with the first Diagnostic of the year.

4 Download PDF or CSV: Click the 📄 to download or print a .pdf file of this report. Click the 📊 to download a .csv file of the data in this report.

5 Progress to Annual Typical Growth: The selected population's median percent progress toward Typical Growth

6 Progress Distribution: A detailed breakdown of the selected population's progress to annual Typical Growth and Stretch Growth

7 Current Placement Distribution: Shows a big-picture view of the population's overall performance and the percentage of students currently at Mid or Above Grade Level, Early On Grade Level, One Grade Level Below, Two Grade Levels Below, and Three or More Grade Levels Below and the percent change in placement compared to the baseline Diagnostic

Understanding Growth in *i-Ready*:

Typical Growth and Stretch Growth measures are provided for each student based on their placement on their baseline Diagnostic assessment of the year.

Typical Growth is the average annual growth for students at that grade and baseline placement level.

Stretch Growth is an ambitious, but attainable, level of annual growth that puts students who are below grade level on a path toward proficiency and students who are on grade level on a path toward advanced proficiency levels.
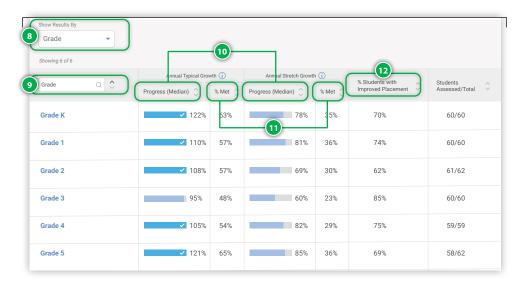

*Only available for those who used *i-Ready* in the previous school year

8 Show Results By:

For a School: Use this dropdown menu to show Diagnostic Growth by Grade, Class, Report Group, or Baseline Placement.

For All Schools: Use this dropdown menu to show Diagnostic Growth by School, Grade, Baseline Placement, or School & Grade, which displays data for each grade at each school.

When available, to filter by demographic group for a district or school, select a demographic category from the dropdown menu.** For districts or schools with the Diagnostic for Mathematics in Spanish enabled, you have the option to show results by Diagnostic Language for a district, school, grade, or demographic. The language categories are English, Spanish, and Both—Growth Based on English and Spanish, which includes students whose Dignostic Growth report incorporates tests taken in both English and Spanish.

9 To drill down to population data, select the name of the population in Column 1. When viewing data by Grade or Baseline Placement for a school, select "View All Students" to see individual students.

10 Progress (Median): Shows the progress each population has made toward Annual Typical Growth and Annual Stretch Growth

11 % Met: Shows the percentage of students in each population who have met their individual Typical Growth and Stretch Growth measures

12 % Students with Improved Placement: Shows the percentage of students who moved up at least one placement level on their most recent Diagnostic compared to the Baseline Diagnostic

Table from image (Show Results By: Grade, Showing 6 of 6):

Grade	Annual Typical Growth Progress (Median)	% Met	Annual Stretch Growth Progress (Median)	% Met	% Students with Improved Placement	Students Assessed/Total
Grade K	122%	63%	78%	35%	70%	60/60
Grade 1	110%	57%	81%	36%	74%	60/60
Grade 2	108%	57%	69%	30%	62%	61/62
Grade 3	95%	48%	60%	23%	85%	60/60
Grade 4	105%	54%	82%	29%	75%	59/59
Grade 5	121%	65%	85%	36%	69%	58/62

**Demographic filters are only available when a district has elected to provide demographic information and demographic filtering has been enabled by the account manager.
