

About NAF - naf.org

NAF is a national network of schools sharing industry specific curriculum and work-based learning. Blair Health Careers Academy has been designated a NAF Model Academy.

Vision Statement

Blair High School's Health Careers Academy provides a rigorous curriculum and culture of success and caring that uniquely prepares students to become well-rounded individuals ready for college and careers in the health care field.

IB Career-Related Programme

The International Baccalaureate Career-Related Programme (IBCP) helps students develop career related skills and fosters life-long learning. It allows students to take rigorous IB Diploma Programme courses while still engaging in career-related learning. In order to graduate from the IBCP, students are required to complete a minimum two IB Diploma Programme (IBDP) courses, a Personal and Professional Skills course, service learning, the reflective project, and language development.

About California Partnership Academies

Blair Health Careers Academy was established in 1996 as a California Partnership Academy. We receive grant funds from the California Department of Education to provide our students with enriching work based learning activities and allow our staff to receive additional training and support.
