VIII. Q & A

Redistricting 101

- Every 10 years, **PUSD Board of Education Member boundaries** are redrawn to account for population changes
- Board areas must be made as **equal in population** as possible so that communities have equal access to political representation
- The process for adjusting district lines must follow legal requirements set by federal and state law (*education code section 5019.5*)
- Redistricting applies to voting areas only and **does not impact school attendance boundaries**

Education code section 5019.5

After every Census school districts are required to:

1. Review the population data to determine if their voting areas are still within the allowable population variance
2. Make any necessary adjustments to the areas to ensure population balance

NOTE: This process is not governed by the CA Fair Maps Act.

PUSD's goals are to educate community members about the redistricting and gather YOUR input on proposed mapping scenarios.

Redistricting Commission: Task Force

Per the Pasadena City Charter, the Task Force consists of **nine volunteer members**
