

Talent wins games, but  
teamwork and intelligence  
wins championships.

Michael Jordan

Synergy is the creation of a whole that is greater than the sum of its parts. Synergy is achieved when two or more people work together to create a better solution than either could alone.

Has anyone seen geese fly in V shape?

1. When geese fly together, each goose provides additional lift and reduces air resistance for the goose behind it. Geese can fly 70% further working as a team than alone.

2. Geese take turns being a leader. Sometimes they get to be line leaders, sometimes it's their turn to be last.

3. Geese honk to cheer each other on: "KEEP FLYING! YOU GOT THIS!"

4. When one goose is hurt or sick and must land, 2 other geese stick with them in their hard time. No one gets left behind.

What lessons can we learn from this example?
