Years in District: *4 Years Residency*

Education: *Bachelors in Organizational Communications. Assumption College. Worcester MA*

Current Profession: *Director of Operations*

Statement of Purpose:

Why have you chosen to seek election to the Swallow School Board of Education?

As a parent with four current Swallow students, I am seeking election to not only serve my children's educational future but to serve the school and community as a whole. Our educators and our children deserve to have a non-partisan voice advocating for them.

What personal philosophies and experiences do you have that will help you best represent the Swallow electorate?

As a guiding philosophy, I come from a place of service. I have been extremely involved in local charities with not only fundraising but with hands on dedication to the success and awareness of these organizations. I will parlay the same drive into the Swallow electorate, serving the needs of our community.

What do you perceive to be major strengths of the District at this time and what strengths, experiences, and qualities do you possess that will support continued District efforts in these areas of strength?

As a district, I believe we excel with our facilities, extra-curricular programs and dedicated educators and staff. I will use my passion for excellence to support the needs and the advancement of current and future programs to continue with the already high standards of enrichment at Swallow. The best can always get better, but the support of an engaged board and community is needed in order to do so.

What do you believe are the major issues facing the District at this time and what strengths, experiences, and qualities do you possess that will better position the District in navigating these issues?

As a district there is a lot of ambiguity surrounding issues such as open enrollment, class size and evolving COVID protocols. My professional career has afforded me the opportunity to become proficient in logistics. Figuring out a simple plan to solve complicated issues is a core strength of mine and will be my major contributing attribute to the Board when I am elected.
