ADDENDUM 1

Project: E-Rate Category 2 Low Voltage Cabling

Date: February 9, 2024

Invitation for Bid No.: 2024-MEDFORD-030524

Owner: Medford School District 549c

Issued By: Jonathan Brabham

Instructions to Prospective Bidders:

This Addendum forms a part of the Contract Documents and modifies the original Bidding Documents and/or prior Addenda as noted below. All conditions, requirements, materials and workmanship are to be as described in the Contract Documents unless specifically stated otherwise. This Addendum consists of two pages plus the pre-bid meeting sign-in sheet.

Question: When certifying all the fiber runs, are all fibers to be certified with a Fluke DSX-5000 Cable Analyzer with OLST certification?

Answer: Any testing means as long as it meets fiber testing standards.

Question: What format would you like test results - printed or e-mailed?

Answer: E-mail is preferred.

Question: Do you want the test results separate for each building?

Answer: Separate for each home run; MDF to IDF-1, MDF to IDF-2 and so forth. For each building if needed.

Question: Who will be providing the material (cables, etc.) for this project execution?

Answer: All materials needed to complete the job are to be included in the bid and purchased by the contractor; save for the LIUs, which will be provided by the district.

Question: Regarding the site walk, is there any information available on the critical sites? Are we able to schedule another site visit?

Answer: There is no priority of one site over another. We do not have availability in our schedule to schedule additional site visits.

- Question: What is the timeline (winter/summer breaks or during after school hours) for this project?
- Answer: Work will begin sometime after July 1, 2024 with work times during the day (7am – 4pm M – F). If works goes into the school year, work will be done during school hours (7am – 4pm M-F) with after-hours available if deemed necessary by all parties.
- Question: Do you have the floor plan/maps of each site?
- Answer: Yes, those are available and can be emailed. E-mail pam.thoren@medford.k12.or.us to have them sent.
- Question: Can you please provide some more clarity on this point mentioned in the RFP *“All installation materials furnished and installed by the Contractor. The District will provide the Leviton LIUs, but the Contractor will install them.”*
- Answer: Any and all materials needed to complete the job, including the fiber and connectors, will need to be included in the bid and purchased by the contractor. The only equipment that does not need to be purchased by the contractor are the Leviton LIUs. The district has already purchased them so they will be provided by the district and the contractor will install them.
- Question: After looking at the marked-up drawings, I have several that show what appears to be an image connected to each IDF, but the image isn't populating on the sheets and instead shows a file path. Is this how it is intended or is there possibly information in those images that would be beneficial?
- Answer: The images are not beneficial.

End of Addendum
