Azusa USD & Citrus College Partnership

Assembly Bill 288 - College & Career Access Pathways

Partnership Agreement (CCAP): offering or expanding dual enrollment opportunities for high school students who may not already be college bound or who are underrepresented in higher education, with the goal of developing seamless pathways from high school to community college for career technical education or preparation for transfer, improving high school graduation rates, or helping high school pupils achieve college and career readiness.

- **Dual Enrollment and Concurrent Enrollment**
- **Articulated Career Technical Education (CTE) courses (students take AUSD high school courses and can receive college credit if they pass the end of course exam)**
- **Offer non-college credit courses for high school credit recovery**
- **Enrollment/Registrations Sessions**
- **Campus Visits**

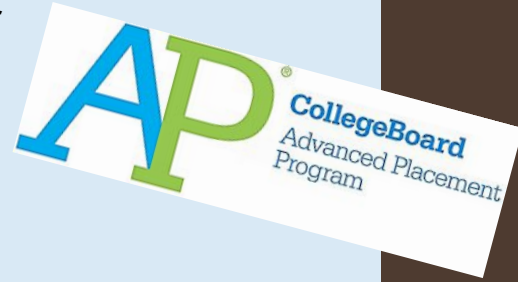

What is Dual Enrollment & Early College?

- Dual Enrollment (DE): student is enrolled as both a high school and college student. This allows high school students to take college classes while they are still enrolled in high school.
- Early College Program (ECP): designed to allow students to complete college General Education requirements before leaving high school.
- Dual Credit: students earn credits for both high school and college graduation.

Additional Benefits

- **College Credits Earned:** transferable and accepted by all California State (CSU) and University of CA (UC) schools (note: may not be accepted by private and/or out of state colleges/universities)
- **Different from AP/IB courses:** There is no single test to determine if the class counts for college
- **Students can take AP/IB courses along with the ECP and graduate with more than two years of college credits**

Additional Benefits

- High School Grade Point Average (GPA): all college courses are weighted. For example, an “A” grade will factor as a 5.0 for the GPA.
- College admission officers know ECP students are college ready since they have already passed multiple college courses with a “C” or higher
- **No Cost - FREE! Students do not pay for tuition, fees, or books.**

Cost of College/University

(Nationwide statistics/data)

- The average cost of college has more than doubled in the 21st century, with an annual growth rate of 2%.
- The average in-state student attending a public 4-year institution spends \$26,027 for one academic year.
- The average cost of in-state tuition alone is \$9,678; out-of-state tuition averages \$27,091.
- The average private, nonprofit university student spends a total of \$55,840 per academic year, \$38,768 of it on tuition and fees.
- Note: UC tuition approx. \$14,436 per year; CSU tuition approx. \$6,084 per year

Associate Degree for Transfer for Freshmen

ADT- Associate Degree for Transfer: designed to provide a clear pathway for California community college students to California State University (CSU) degrees. California community college students who earn an associate degree for transfer are **guaranteed admission with junior standing to select CSU campuses and are given priority admission consideration over other transfer students.**

AUSD and Citrus College has determined to build a program focused on an ADT in Sociology (SOC), **the systematic study of social behavior and human groups.**

- Popular major and serves as a good foundation for studies in social sciences
- Courses are designed to help students understand the structure, processes, and functions of society, the key theoretical approaches and insights that inform sociology, and the role of social theory and research methods in understanding society
- Students majoring in this field can continue studying SOC once they transfer. If students want to change their major, the general education courses they take for their ADT in SOC will likely apply to the new majors.

IGETC subject and unit requirement

Subject area	Required courses	Units required
1. English Communication	2 courses	6 semester units or 8-10 quarter units
One course in English composition and one course in critical thinking/English composition.		
2. Mathematical Concepts and Quantitative Reasoning	1 course	3 semester units or 4-5 quarter units
3. Arts and Humanities	3 courses	9 semester units or 12-15 quarter units
Three courses with at least one from the arts and one from the humanities		
4. Social and Behavioral Sciences	3 courses	9 semester units or 12-15 quarter units
Three courses from at least two disciplines, or an interdisciplinary sequence		
5. Physical and Biological Sciences	2 courses	7-9 semester units or 9-12 quarter units
One physical science course and one biological science or course, at least one of which includes a laboratory		
6. Language Other than English *	Proficiency	Proficiency
Proficiency equivalent to two years of high school courses in the same language.		
Total:	11 courses*	34 semester units

What is IGETC? (pertains to both Freshmen and Juniors)

IGETC - Intersegmental General Education Transfer Curriculum is a series of courses that California community college students can complete to satisfy most freshman/sophomore-level general education requirements before transferring to a CSU or UC.
