February 9, 2024 | President Update

I hope this message finds you well. As we continue our partnership in forming the young women entrusted to our care, I am providing a brief update on the latest developments and upcoming events.

Buildings and Grounds: There are three updates to provide on our Fire Alarm, Campus External Lighting, and Fitness Center Renovation.

Fire Alarm System

Our vendor informed us on February 7, 2024, that they are awaiting the arrival of the necessary parts and will perform the installation upon receiving those parts. Projected installation time is two to three weeks. We will continue to follow the protocols in place since January 11, 2024.

External Campus Lighting: We are moving ahead with the first phase of the campus lighting project which will include the repair/replacement of the existing campus parking lot lights. As this gets underway, we are working with a new light provider to install an additional 4-6 lights on campus. We expect to have the repairs completed (phase I) by March 22, 2024. As of this week, the installation of the additional lighting (phase II) is projected to be completed within 12 weeks. We are exploring a route to provide temporary lighting to bridge us between the coming week and the completion of the phases.

Fitness Center Renovation

Due to the generosity of our benefactors at our Gala held in April of 2023 and through continued fundraising efforts in the Fall of 2023, we were able to meet our goal of \$55,000. In February, we are meeting with school-based fitness center design consultants for initial plans for the space. From there, we will meet with interested student groups for more feedback. We hope to unveil final plans in Mid-Spring with construction slated for the summer.

Next week, we will have more updates on the ongoing projects (fire system and parking lights) and information on our teaching and learning plans! Until then, feel free to contact me with any questions or concerns.

We thank you for your ongoing support and remain in yours.

De La Salle,

Dr. Rick Piwowarski
President
