Dear Administrator,

The Georgia General Assembly Unannotated Code requires that *“Within 30 days after the beginning of each school year, it shall be the duty of the administrator of each private school to provide to the school superintendent of each local public school district which has residents enrolled in the private school a list of the name, age, grade level, and residence of each resident so enrolled. At the end of each school month, it shall be the duty of the administrator of each private school to notify the school superintendent of each local public school district of the name, age, grade level, and residence of each student residing in the public school district who enrolls or terminates enrollment at the private school during the immediately preceding school month. Such records shall indicate when attendance has been suspended and the grounds for such suspension. Enrollment records and reports shall not be used for any purpose except providing necessary enrollment information, except with the permission of the parent or guardian of a child, pursuant to the subpoena of a court of competent jurisdiction, or for verification of attendance by the Department of Public Safety for the purposes set forth in subsection (a.1) of Code Section 40-5-22.”*
