Board of Directors  
Hillsboro School District 1J  
Washington County  
3083 NE 49<sup>th</sup> Place  
Hillsboro, OR 97124

In accordance with the provisions of Oregon Revised Statutes, Sections 297.405 to 297.555 and 297.990, known as the Municipal Audit Law, there is submitted herewith the Comprehensive Annual Financial Report of Hillsboro School District 1J, Washington County, Oregon, for the fiscal year ended June 30, 2017.

This report was prepared by the School District Business Office. The responsibility for the completeness and fairness of the data presented and all accompanying disclosures rests with the School District.

To provide a reasonable basis for making these representations, the District's management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with Generally Accepted Accounting Principles in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement.

As management, we assert that, to the best of our knowledge and belief, this financial report and its data is complete and reliable in all material respects, includes all funds, account groups, and financial transactions, and is presented fairly to disclose the financial position, results of operations, and cash flows of the District at June 30, 2017, and for the year then ended.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

## THE DISTRICT

Hillsboro School District 1J was formed in July 1996 through the unification of a union high school district and its six feeder elementary school districts. This unification was accomplished under a plan developed and approved by each of the seven prior district governing bodies in response to a unification deadline mandated by Oregon State Statutes. The seven previously independent districts were Hillsboro Union High School District and the Farmington View, Groner, Hillsboro, North Plains, Reedville, and West Union Elementary School Districts.

The District, a fiscally independent entity, is organized with a seven-member elected Board of Directors and a Board-appointed budget committee. In 2016-17, management staff consisted of 1 superintendent, 2 assistant superintendents, 5 executive directors, 10 directors, 1 chief financial officer, 1 chief information officer, 1 chief human resources officer, principals, and assistant-principals. The Board of Directors approves the hires of all management staff members.

The District also employs 1,106 teachers and 859 support staff, including instructional assistants, secretaries, clerks, bus drivers, cooks, custodians, maintenance workers, and various other professional and technical staff. The District operates 25 elementary schools, 4 middle schools, 4 high schools, 2 alternative schools, and 1 online school.

The District is located approximately 18 miles west of Portland, Oregon. It includes most of the City of Hillsboro, all of the City of North Plains, a portion of the City of Cornelius, and surrounding unincorporated areas. The current estimated population is 144,785. The District encompasses more than 200 square miles, most of which are located in Washington County. Small portions of the District are located in Multnomah and Yamhill Counties.

The District has experienced steady enrollment growth over the past ten years. The table below shows that the number of students in the District has grown by 1,278, or an average of approximately 0.67 percent per year during the last decade.

| School Year | Average Daily Membership |
|-------------|--------------------------|
| 16-17       | 20,400                   |
| 15-16       | 20,566                   |
| 14-15       | 19,917                   |
| 13-14       | 19,911                   |
| 12-13       | 19,809                   |
| 11-12       | 19,850                   |
| 10-11       | 19,765                   |
| 09-10       | 19,767                   |
| 08-09       | 19,530                   |
| 07-08       | 19,122                   |

During this time, the District has had two major additions to its facilities. Series 2001 general obligation bonds financed the construction of two elementary schools and one high school; the purchase of additional land for future school facilities; and safety, security, and seismic upgrades to existing District facilities. The 2006 general obligation bonds financed the construction of four elementary schools and one middle school, as well as expanding and remodeling existing District facilities.

## **ECONOMIC STATUS AND OUTLOOK**

The Portland-Vancouver Primary Metropolitan Statistical Area (PMSA) comprises six counties: Multnomah, Washington, Clackamas, Yamhill, and Columbia in Oregon and Clark County in Washington. According to the Oregon State Employment Department, Multnomah and Washington counties together have nearly one-third of the State of Oregon's population. Washington County's three largest cities are Beaverton, Hillsboro, and Tigard.

The area's current economic base includes electronics, manufacturing, construction, food processing, agriculture, and timber. Washington County accounts for approximately 75 percent of the high-tech industry jobs in Oregon. These employers include Intel, Tektronix, and Genentech. Intel is currently the largest employer in the Portland-Vancouver PMSA with 17,500 employees.

The Oregon Employment Department report for June 2017 shows the PMSA unemployment rate at 4.1 percent. The May 2017 Oregon Economic and Revenue forecast, published by the Oregon Office of Economic Analysis, projects total state general fund net revenues increasing by 4.9 percent in the 2017-2019 biennium, 11.6 percent in the 2019-2021 biennium, and 10.3 percent in the 2021-2023 biennium.

## **LONG-TERM FINANCIAL PLANNING**

The Hillsboro School District has emphasized a conservative long-term financial plan that stresses stability of the programs we provide to students and patrons. Stability is achieved through the following actions:

- Maintain adequate financial reserves to absorb economic downturns, state revenue-sharing cuts, and other revenue shortfalls.
- React swiftly and appropriately to economic downturns, state revenue-sharing cuts, and revenue shortfalls.
- Prudently use accumulated reserves when needed to provide stability of core programs and legally required activities.

The Board of Directors and the appointed budget committee have developed this long-term financial plan. The financial plan is also supported by the District’s administrative team, which develops the proposed budget.

The District anticipates a significant increase in student enrollment over the next several years with the expansion of the Urban Growth Boundary (UGB) in South Hillsboro, Cornelius, and the South Cooper Mountain area. The District has purchased 90 acres in the South Hillsboro UGB expansion area for future school sites to accommodate this growth. The District also owns 40 acres in the Cornelius UGB expansion area on which to build if enrollment growth requires additional facilities. The District’s Long-Range Planning Committee has been meeting for several years to plan for this growth. The committee presented a Long-Range Facility plan for addressing growth and improvements to existing facilities to the Board of Directors in June 2016. The Board authorized the forming of a Bond Advisory Committee in September 2016. This Committee recommended placing a \$408 million bond package on the November 2017 ballot. The Board accepted this recommendation and the decision to place the issue on the November 2017 ballot was made by the board at their July 31, 2017 meeting. The bond package will provide funds to build, replace, expand, upgrade and remodel schools in order to continue meeting and exceeding the needs of students throughout the District.

## **MISSION STATEMENT AND PRIORITIES**

In the spring of 2016, Hillsboro community schools, District staff, and the Board of Directors revised their five-year Strategic Plan, which is the District’s blueprint for educational excellence. The Strategic Plan focuses on students’ equitable experiences and outcomes, and includes five strategy areas:

- Instruction
  - High-quality curricular, co-curricular and extracurricular offerings
  - Highly qualified staff
- Learning Environments
  - Equitable, safe, and inclusive
  - Engaging and relevant
  - Clear pathways and multiple opportunities
- Leadership for Learning
  - Continuous improvement
  - Data-driven decision-making
- Organization
  - Fiscal responsibility, long-range planning
  - Effective communication and community involvement
  - Human resources management
- Governance
  - Commitment to quality and progress
  - Setting the conditions and providing resources for success

During the 2016-17 year, Hillsboro School District focused on maintaining financial stability within the District, while focusing staffing and resources to promote increased student achievement. This objective includes protecting the integrity of the District's programs against financial uncertainties, while adequately addressing student population growth within the District.

Oregon's school finance system involves a formula that pays for the average daily enrollment of students in various categories. The formula includes local property taxes and state payments as the principal sources of revenue. The State of Oregon depends on personal income tax to provide its share of this revenue. The Oregon legislature has appropriated \$8.15 billion for K-12 allocations for the 2017-2019 biennium.

## FINANCIAL INFORMATION

### **Accounting Policies:**

Governmental funds are used to account for the District's general government activities. Governmental fund types use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., when they are "measurable" and "available." "Measurable" means the amount of the transaction can be determined; "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period.

Expenditures are recorded when the liability is incurred, except for unmatured interest on general long-term debt, which is recognized when due. Interfund transactions and certain compensated absences, claims, and judgments, are recognized as expenditures because they will be liquidated with expendable financial resources.

The assets and liabilities of the agency funds are recorded on the modified accrual basis of accounting. The agency funds consist of the student body accounts controlled by each school, and the Deferred Compensation Plan controlled by the District.

The financial transactions for the proprietary fund type are recorded on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded at the time they are earned, and expenses are recorded at the time liabilities are incurred.

The accrual and modified accrual basis of accounting, as utilized by Hillsboro School District 1J, are in accordance with Generally Accepted Accounting Principles.

### **Internal Accounting Controls:**

The accounting system incorporates reasonable safeguards for the assets of the District and the reliability of the financial records. Internal controls are designed to provide an adequate safeguard of District assets, recognizing that the cost of controls should not exceed the benefits derived.

The management system recognizes the significance of internal controls that are incorporated in the accounting system. We believe that the internal accounting controls adequately safeguard the assets, and provide reasonable assurance of proper recording of all financial transactions.

**Budgetary Control:**

The District annually prepares a budget to control the fiscal operations for one year. Oregon Local Budget Law (ORS 294.305 to 294.565) requires the appointment of a budget committee to review and approve the budget. The budget committee consists of the seven members of the Board of Directors, and seven electors of the District who are appointed by the Board of Directors. The administration proposes a budget to the budget committee, and the budget committee may modify or approve the proposed budget.

Local Budget Law in Oregon requires the District to complete a formal process each fiscal year to set spending limit and levy taxes for District residents. This process begins with a proposed budget prepared by the Budget Officer. Notice of a Budget Committee Meeting is published and the budget document is made available at or before this meeting. The budget committee then conducts at least one public meeting for questions or comments and will continue to meet as needed until the budget and all revisions are approved. Notice of the Public Hearing, along with a summary of the approved budget is published and the governing body conducts a public hearing. Upon completion of public comment and deliberations, the District adopts the budget, enacts resolutions by June 30, and certifies the district's tax to the county assessor by July 15. Budget changes in expenditures of less than 10% of appropriation categories (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, contingency, and transfers) are implemented by a Resolution passed by the School Board. Budget changes in expenditures of more than 10% of appropriation categories require a supplemental budget adoption. Exceptions to this would be transfers between appropriation categories and up to 15% of funds budgeted as contingency. The School Board receives reports on cash flow and budget monitoring monthly, as prepared by the CFO.

**Risk Management:**

The District's Workers' Compensation insurance is procured through a self-insured group program on a guaranteed cost basis. The premium is based on payroll and the District's Experience Modification Rate. It includes a built-in contribution discount. Property and Casualty insurance is currently in force at replacement value with a \$10,000 per loss deductible. Comprehensive, general, and automotive liability insurance provides a \$10,000,000 limit. Errors and Omissions coverage – sometimes called Professional Liability, is included. The District currently has primary earthquake coverage in the amount of \$10,000,000. Additionally, it has procured excess earthquake coverage of \$10,000,000 for a total amount of \$20,000,000 per earthquake occurrence.

**Independent Audit:**

The provisions of Oregon Revised Statutes, Section 297.405 to 297.555 and 297.990 (known as the "Municipal Audit Law"), require that an independent audit be made of all District funds and account groups within six months following the close of a fiscal year. The firm of Grove, Mueller & Swank, P.C.,

which was selected by the Board of Directors, completed its examination of the District's financial statements, and its opinion is included in the financial section of this report.

**Awards:**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Hillsboro School District 1J for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2016. This was the twenty-second consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a school district must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both Generally Accepted Accounting Principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our 2017 CAFR continues to meet award requirements for the Certificate of Achievement for Excellence in Financial Reporting. We are submitting the report to the GFOA award program for review and determination of the report's eligibility for another certificate.

**ACKNOWLEDGMENTS**

We wish to express our appreciation to the entire Business Office staff for their efforts and contributions to this Comprehensive Annual Financial Report. We would also like to thank the members of the Board of Directors for their continued support and dedication to the financial operations of the District.

Respectfully submitted,

Michael Scott

### ***INDEPENDENT AUDITOR'S REPORT***

School Board  
Hillsboro School District 1J  
Hillsboro, Oregon

#### ***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities and each major fund of Hillsboro School District 1J, Washington County, Oregon (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Hillsboro School District 1J, Washington County, Oregon as of June 30, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (MD&A), the budgetary comparison information, the schedules of funding progress for other postemployment benefits, the schedule of the proportionate share of the net pension liability for PERS, and the schedule of contributions for PERS be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required MD&A, the schedules of funding progress for other postemployment benefits, the schedule of the proportionate share of the net pension liability for PERS, and the schedule of contributions for PERS in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

### ***Other Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, other financial schedules, and statistical section, are presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules, other financial schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### ***Reports on Other Legal and Regulatory Requirements***

#### ***Other Reporting Required by Government Auditing Standards***

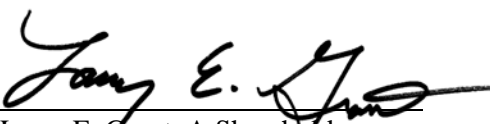

In accordance with *Government Auditing Standards*, we have also issued our report dated November 29, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that

report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

*Other Reporting Required by Oregon Minimum Standards*

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated November 29, 2017, on our consideration of the District's compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

**HILLSBORO SCHOOL DISTRICT 1J  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2017**

As management of Hillsboro School District 1J (the District), we offer District readers this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our Transmittal Letter, which can be found on page i of this report.

**1. FINANCIAL HIGHLIGHTS REVIEW**

- In the government-wide statements, the liabilities and deferred inflows exceeded the assets and deferred outflows of the District by \$48.6 million (net position). Of this amount, \$114.6 million represents the District's net investment in capital assets, \$7.6 million is restricted for special programs, \$3.1 million for debt service, and a (\$173.9) million balance. The District's overall net position has decreased from the 2016 value by \$7.9 million. The decrease in net position is due to an increase in current and other liabilities of \$105.7 million, primarily due to the increase in the Public Employee Retirement System net pension liability.
- For the fiscal year ended June 30, 2017, the District's total current and other assets decreased by \$4.1 million. This was due to a planned reduction of the ending fund balance for the second year of the State of Oregon's fiscal biennium and a reduction in cash as lease proceeds expended to complete energy savings projects.
- An actuarial study conducted by Independent Actuaries, Inc. projected the Actuarial Accrued Liability for Other Postemployment Benefits (OPEB) to be \$8.0 million, and the Net Pension Obligation to be \$0.01 million, as of June 30, 2017.
- The District's governmental funds show a combined ending fund balance of \$25.8 million, a decrease of \$3.3 million in comparison with the prior year. The decrease is primarily attributable to the planned exhaustion of lease proceeds for completion of energy conservation projects and a reduction in the General Fund balance. At the end of the fiscal year, the fund balance for the General Fund was \$14.7 million, or about 7.3 percent of total General Fund expenditures.
- The District's total long-term debt decreased by \$30.4 million during the 2016-17 fiscal year, due to the net effect of debt service payments.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2017**

**2. OVERVIEW OF THE FINANCIAL STATEMENTS**

This Management's Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains supplementary information, in addition to the basic financial statements themselves.

**Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements include:

- **Statement of Net Position.** The Statement of Net Position focuses on resources available for future operations. In simple terms, this statement presents an overview of what the District owns (assets and deferred outflows), what it owes (liabilities and deferred inflows), and the net difference (net position). Net position may be further separated into amounts restricted for specific purposes and unrestricted amounts. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.
- **Statement of Activities.** The Statement of Activities presents information showing how the net position of the District changed over the year by tracking revenues, expenses, and other transactions that increase or reduce net position. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

In the government-wide financial statements, the District's activities are shown in one category as governmental activities. All of the District's basic functions are shown here, such as regular and special education, child nutrition services, transportation, administration, and facilities acquisition and construction. These activities are primarily financed through property taxes, Oregon's State School Fund, and other intergovernmental revenues.

The government-wide financial statements can be found on pages 21 and 22 of this report.

**HILLSBORO SCHOOL DISTRICT 1J  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2017**

**2. OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)**

**Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Hillsboro School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be placed in one category: governmental funds.

**Governmental Funds**

The governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances are reconciled to the government-wide Statements of Net Position and Activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General, Special Revenue, Debt Service, and Capital Projects Funds, all of which are considered to be major funds.

The basic governmental fund financial statements can be found on pages 25-28 of this report.

**2. OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)**

**Notes to Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 29-66 of this report.

**Supplementary Information**

Schedules presenting detailed budgetary information for individual funds and other supplementary information can be found on pages 69-90 of this report.

**3. GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted previously, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows exceeded assets and deferred outflows by \$48.6 million at June 30, 2017.

Capital assets, which consist of the District's land, buildings, building improvements, construction in progress, vehicles, and equipment, represent about 84.0 percent of total assets. The remaining assets consist mainly of investments, cash, grants, and property taxes receivable.

The District's largest liability (58.2 percent) is for the repayment of long-term debt. Other liabilities, representing about 41.8 percent of the District's total liabilities, consist of payables on accounts, salaries and benefits, and other accrued liabilities.

Most of the District's net position reflects its investment in capital assets (e.g., land, buildings, vehicles, and equipment) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students and other District residents. Consequently, capital assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources (property taxes or general support funds), since the capital assets themselves cannot be used to liquidate these liabilities.

**3. GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)**

**REVENUE BY SOURCE – GOVERNMENTAL ACTIVITIES**

- State School Fund revenue increased \$5.4 million or 4.5 percent from 2015-16. This increase was due primarily to an overall increase in the State School Fund Funding Ratio from 1.560 to 1.588, resulting in fewer dollars per student. The ratio increase was due to reconciliation of the state school fund and actual student enrollment.
- Property Taxes increased by \$3.44 million, reflecting an increase in Assessed Value within the District. A general increase in property values resulted in an overall increase to the District on a statewide basis.
- Grants and Contributions increased by \$2.7 million from 2015-16. This increase was primarily due to stabilization after the recession, use of ESD “pass-through” dollars, and other local support.

**4. FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS**

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**

The focus of the District's governmental funds is to provide information on relatively short-term cash flow and funding for future basic services. Such information is useful in assessing the District's financing requirements. In particular, an unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of a fiscal year.

At June 30, 2017, the District's governmental funds reported combined ending fund balances of \$25.8 million, a decrease of \$3.3 million in comparison with the prior year. About \$11.0 million (42.6 percent) of the ending fund balance constitutes an unassigned ending fund balance, which is available for spending at the government's discretion.

**4. FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (Continued)**

**Governmental Funds (Continued)**

About \$10.8 million (42.1 percent) is restricted for special programs, debt service obligations, and capital projects.

**General Fund**

The General Fund is the chief operating fund of the District. As of June 30, 2017, the total fund balance was \$14.7 million. As a measure of the fund's liquidity, it may be useful to compare the total fund balance to total fund expenditures. The fund balance represents 7.3 percent of total General Fund expenditures.

The fund balance decreased by \$1.8 million during the current fiscal year. This decrease was due primarily to an expected expenditure increase as identified during the budget development period.

**Special Revenue Fund**

At June 30, 2017, the fund balance was \$7.6 million, which is a decrease of \$1.1 million from the prior year. This increase was caused by the use of lease proceeds on an energy conservation project.

**Debt Service Fund**

The Debt Service Fund has a total fund balance of \$2.1 million, all of which is restricted for the payment of debt service. This represents a net increase in the fund balance from the prior year of \$0.5 million. The \$2.1 million level of carryover is adequate to address debt service requirements until property taxes are received in November.

**Capital Projects Fund**

The Capital Projects Fund has a total fund balance of \$1.3 million, all of which is restricted for ongoing District capital projects and maintenance. This represents a net decrease in the fund balance during the year of \$0.9 million. The decrease is reflective of planned expenditures spent on construction projects that occurred during the year.

The General Fund adopted budget for the fiscal year ended June 30, 2017, was increased by \$2.7 million during the fiscal year by appropriation changes that reduced the budgeted ending fund balance. During the year, expenditures were \$3.8 million less than budgeted.

**6. CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

The District's investment in capital assets includes land, buildings and improvements, vehicles and equipment, and construction in progress. As of June 30, 2017, the District had invested over \$234 million in capital assets, net of depreciation, as shown in the following table:

During the year, the District's investment in capital assets decreased by \$6.1 million. This reduction is due to the retirement of assets and depreciation in the current year.

Additional information regarding the District's capital assets can be found on pages 41-42 of this report.

**Long-Term Debt**

At the end of the current fiscal year, the District had total long-term debt outstanding of \$253.9 million, consisting of general obligation bonds, certificate of participation notes, capital leases, post retirement obligations, qualified energy conservation bonds and PERS pension bonds, net of unamortized premium/discount.

The District maintains an "Aa3" rating from Moody's for general obligation debt.

State statutes limit the amount of general obligation debt a school district may issue to 7.95 percent of its total assessed valuation. The current debt limit for the District is \$2.716 billion, which is significantly in excess of the District's outstanding general obligation debt of \$114.4 million.

Additional information on the District's long-term debt can be found in Note 7 on page 44-48 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2017**

**7. ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The most significant economic factor for the District is the stability of the funding level from the State of Oregon's State School Fund. For the year ended June 30, 2017, the State School Fund – General Support provided 48.0 percent of the District's program resources. The state is funded almost entirely by income tax revenue, and therefore the volatility of the economy directly impacts funding for K-12 education.

Reforms to the Public Employees Retirement System (PERS) resulted in a large unfunded liability, which was transferred to districts in the form of higher employer rates. In an effort to curtail the escalating cost, the District participated in the purchase of pension bonds that spread the liability through 2028, and increased the long-term debt of the District in 2005 and again in 2015. The District has established a PERS Reserve Fund, which currently has a balance of \$2.0 million which is targeted for depletion by the end of the 2017-19 bienium. The PERS Reserve Fund was rolled into the General Fund for GAAP reporting purposes.

The District was able to reach three-year agreements with both the licensed and classified bargaining units in 2015. The agreement with the Hillsboro Education Association (HEA) and Hillsboro Classified United (HCU) provide an average annual increase in compensation of 3%. Both HEA and HCU have been willing to partner with the District throughout the Great Recession, and made significant concessions to help mitigate the impact of the decrease in state funding. These multi-year contracts were the first the District had been able to reach since 2008, and help to bring the District back to competitive balance with other districts in our area.

**8. REQUESTS FOR INFORMATION**

This financial report is designed to present the user (citizens, taxpayers, investors, and creditors) with a general overview of the District's finances, and to demonstrate the District's accountability. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the District's Chief Financial Officer at 3083 NE 49<sup>th</sup> Place #104, Hillsboro, OR 97124.

|   |    |           | 234,430,098         |
| A portion of the District's revenues are collected after year-end, but are not available soon enough to pay for the current year's operations, and therefore are not reported as revenue in the governmental funds.   |    |           |                     |
|   |    |           | 4,073,089           |
| In bond refunding, a larger amount paid to the escrow agent than the premiums of the bonds being refunded was recorded as interest expense. This deferred outflow of resources is recognized, based on the schedule of maturities of the refunded bonds.    |    |           |                     |
|   |    |           | 1,736,563           |
| Compensated absences are reported when earned as both a current and long-term liability in the Statement of Net Position, while in the governmental funds only the portion that requires the use of current financial resources is reported as a liability. |    |           |                     |

**HILLSBORO SCHOOL DISTRICT 1J**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Hillsboro School District 1J (the District) was formed on July 1, 1996, with the merger of seven school districts. The District is a municipal corporation, organized under ORS 337, and governed by an elected seven-member Board of Directors (Board) which approves the hiring of the administrative officials. The daily functioning of the District is under the supervision of the Superintendent-Clerk. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

The District qualifies as a primary government, since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts that provide service within the District's boundaries. However, the District is not financially accountable for any of these entities and, therefore, none of them are considered component units or included in these basic financial statements.

Component units are legally separate organizations for which the School District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. The District has no component units.

**Basis of Presentation**

**Government-wide financial statements.** The Statement of Net Position and the Statement of Activities display information about the District. These statements include the governmental financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are financed through property taxes, intergovernmental revenues, and other non-exchange transactions.

**FOR THE YEAR ENDED JUNE 30, 2017**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Basis of Presentation (Continued)**

**Government-wide financial statements (continued).**

The Statement of Activities presents a comparison between direct expenses and program revenues for each function/program. Direct expenses are those that are specifically associated with a function/program and, therefore, are clearly identifiable to that function/program. The District does not allocate indirect expenses. Program revenues include: (1) charges to students or others for tuition, fees, rentals, materials, supplies, or services provided; (2) operating grants and contributions; and (3) capital grants and contributions. Revenues that are not classified as program revenues, including property taxes, are presented as general revenues.

Net position is reported as restricted when constraints placed on net position use are either externally restricted, imposed by creditors (such as through grantors, contributors or laws), or imposed through constitutional provisions or enabling resolutions.

**Fund financial statements.** The fund financial statements provide information about the District's funds. Separate statements for each governmental fund are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

The District reports the following major funds:

- General Fund. This fund is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.
- Special Revenue Fund. This fund accounts for revenues and expenditures of grants restricted for particular educational projects. Principal revenue sources are federal and state grants, charges for services, and construction excise taxes.
- Debt Service Fund. This fund provides for the payment of principal and interest on general obligation bonded debt. The principal revenue source is property taxes.
- Capital Projects Fund. This fund is presented as major due to the political importance of the fund. This fund accounts for activities related to the acquisition, construction, equipping, and furnishing of facilities. Principal revenue sources are proceeds from the sale of bonds and interest earnings.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Measurement Focus and Basis of Accounting**

Government-wide statements are reported using the economic resources measurement focus, and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District receives value without giving equal value in exchange, include property taxes, grants, entitlements, and donations. On the accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

Governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end.

Property taxes and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and accrued vacation, which are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in the governmental funds, and proceeds from general long-term debt and acquisitions under capital leases are reported as other financing sources.

**Use of Estimates**

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the basic financial statements, and reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

**FOR THE YEAR ENDED JUNE 30, 2017**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Cash, Cash Equivalents, and Investments**

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less. Short-term investments are stated at cost, which approximates fair value.

The District's investments consist of the State of Oregon Treasurer's Local Government Investment Pool (LGIP). The LGIP is stated at cost, which approximates fair value. Fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended no-load diversified portfolio offered to any agency, political subdivision, or public corporation of the state that by law is made the custodian of, or has control of, any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-term Fund Board. The purpose of the Fund Board is to advise the Oregon State Treasury in the management and investment options of the LGIP.

**Property Taxes**

Property taxes are levied and become a lien on all taxable property as of July 1. Taxes are payable on November 15, February 15, and May 15. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Management has determined that an allowance for uncollectible property taxes is not required, because taxes are a lien on the property assessed.

**Grants**

Unreimbursed expenditures due from grantor agencies are reflected in the basic financial statements as receivables and revenues. Grant revenues are recorded at the time eligible expenditures are incurred. Grant monies received prior to the occurrence of qualifying expenditures are recorded as unearned revenue.

**Supply Inventory**

Inventory is valued at cost, using the first-in, first-out (FIFO) method. Donated commodities are valued at their estimated fair market value when donated. Inventory is charged as an expense/expenditure when used under the consumption method in the government-wide statements, and expensed in the governmental statements.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepayments. Prepaid items are recorded using the consumption method, and recorded as an expense or an expenditure at the time of consumption.

**Capital Assets**

Capital assets are recorded at original or estimated original cost. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at their acquisition value on the date donated. The District defines capital assets as assets with an initial cost of more than \$5,000, and an estimated life in excess of one year. Interest incurred during construction is not capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following useful lives:

|                                  |                |
|----------------------------------|----------------|
| Buildings and improvements       | 40 to 50 years |
| Furniture and fixtures           | 15 to 30 years |
| Equipment                        | 5 to 20 years  |
| Motor vehicles                   | 10 years       |
| Information technology equipment | 5 years        |

**Compensated Absences**

It is the District's policy to permit employees to accumulate earned, but unused, vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay, including related payroll taxes, is accrued when earned in the government-wide financial statements. The total liability for compensated absences due is \$421,201. The District estimates that 75% of the total liability, \$315,901, will be due within one year. Compensated leave balances carry over beyond the current year if unused.

A liability and expenditure for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Payment of compensated absences is made by the governmental funds for which the eligible employee salary is recorded.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position/balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption that applies to a future period(s), and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position/balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition that applies to a future period(s), and so will not be recognized as an inflow of resources (revenue) until that time.

**Long-term Debt**

In the government-wide financial statements, long-term debt is reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, bond premiums and discounts are recognized when incurred, and not deferred. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures, and expensed in the year incurred.

**Fund Balance**

In the governmental financial statements, fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental Fund type fund balances are classified as follows:

- Non-spendable Fund Balance represents amounts that are not in a spendable form. The non-spendable fund balance represents inventories and prepaid items.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Fund Balance (Continued)**

- Restricted Fund Balance represents amounts that are legally restricted by outside parties for a specific purpose (such as debt covenants, grant requirements, donor requirements, or other governments), or are restricted by law (constitutionally or by enabling legislation).
- Committed Fund Balance represents funds formally set aside by the governing body for a particular purpose. The use of committed funds would be approved by resolution.
- Assigned Fund Balance represents amounts that are constrained by the expressed intent to use resources for specific purposes that do not meet the criteria to be classified as restricted or committed. Intent can be stipulated by the governing body, or by an official to whom that authority has been given by the governing body. The Superintendent and Chief Financial Officer have been granted the authority to assign fund balances, pursuant to School Board Resolution dated April 26, 2011.
- Unassigned Fund Balance is the residual classification of the General Fund. Only the General Fund may report a positive unassigned fund balance. Other governmental funds would report any negative residual fund balance as unassigned.

The governing body has approved the following order of spending regarding fund balance categories: Restricted resources are spent first when both restricted and unrestricted (committed, assigned, or unassigned) resources are available for expenditures. When unrestricted resources are spent, the order of spending is committed (if applicable), assigned (if applicable), and unassigned.

**Stewardship, Compliance, and Accountability**

- Budgetary Information. A budget is prepared and legally adopted for each fund in accordance with Oregon Local Budget Law. The budget is prepared using the modified accrual basis of accounting.

The budgeting process begins by appointing Budget Committee members in late fall. Budget recommendations are developed by management through spring, with the Budget Committee meeting and approving the budget document in late spring. Public notices of the budget hearing are generally published in May or June, and the hearing is held in June. The budget is adopted, appropriations are made and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major Board meeting held in June. The budget is adopted, appropriations are made, and the tax levy is declared no later than June 30. Expenditure budgets are appropriated at the major

function level (instruction, support services, enterprise and community services, facilities acquisition and construction, debt service, contingency, and transfers) for each fund. Expenditure appropriations may not legally be over-expended.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10 percent of the fund's original budget may be adopted by the Board of Directors at a regular meeting. A supplemental budget greater than 10 percent of the fund's original budget requires hearings before the public, publication in newspapers, and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control (major function levels). Such transfers require approval by the Board. Budget amounts shown in the basic financial statements include the original and final budget amounts. Appropriations lapse at the end of each fiscal year.

Expenditures and other financing uses are appropriated at any or all of the following levels of control for each fund:

|  |                       |
|--|-----------------------|
| Instruction                              | Debt Service          |
| Support Services                         | Operating Contingency |
| Enterprise and Community Services        | Transfers Out         |
| Facilities Acquisitions and Construction |                       |

Expenditures of the various funds were within authorized appropriations, except as follows. In the General Fund, Instruction was over-expended by \$44,975; in the Special Revenue Fund, Support Services was over-expended by \$215,436; in the Capital Projects Fund, Support Services and Debt Service were over-expended by \$260,777 and \$410,463, respectively; and in the Debt Service Fund, Debt Service was over-expended by \$2,227.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Stewardship, Compliance, and Accountability (Continued)**

- Budgetary Basis of Accounting. While the District reports financial position, results of operations, and changes in fund balance/net position on the basis of accounting principles generally accepted in the United States of America (GAAP), the budgetary basis of accounting differs from generally accepted accounting principles. The budgetary statements provided as part of supplemental information elsewhere in this report are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The budgets for all budgeted funds are adopted on a basis consistent with generally accepted accounting principles, except that other post-employment benefits (OPEB), compensated absences, and accrued interest liabilities are recorded as an expense when paid; debt is recorded as a revenue when borrowed and an expense when paid; inventory and capital outlay expenditures are expensed when purchased; depreciation and amortization are not recorded; and property taxes are recorded as revenue when available.

**2. CASH AND INVESTMENTS**

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the balance sheet as "Cash and investments". In addition, cash and investments are separately held by the Debt Service and Capital Projects Funds.

Cash and investments are comprised of the following at June 30, 2017:

|                                       |    |            |

**2. CASH AND INVESTMENTS (Continued)**

**Deposits**

The District's deposits with various financial institutions at year end had a bank value of \$6,534,308, and a book value of \$5,009,750. Deposits not covered by Federal Depository Insurance Corporation (FDIC) insurance are covered by the Public Funds Collateralization Program (PFCP) of the State of Oregon. Credit union deposits in excess of the National Credit Union Administration (NCUA) coverage are insured through the Oregon Public Funds Collateralization Program for Credit Unions.

**Custodial Credit Risk - Deposits**

In the case of deposits, there is the risk that in the event of a bank failure, the District's deposits may not be returned. The FDIC provides insurance for the District's deposits with financial institutions for up to \$250,000 each for the aggregate of all demand deposits, and the aggregate of all time deposit and savings accounts at each financial institution. Deposits in excess of FDIC coverage are with institutions participating in the Oregon Public Funds Collateralization Program (PFCP). The PFCP is a shared liability structure for participating bank depositories, better protecting public funds though still not guaranteeing that all funds are 100 percent protected. Barring any exceptions, a bank depository is required to pledge collateral valued at least 10 percent of their quarter-end public fund deposits if they are well capitalized, 25 percent of their quarter-end public fund deposits if they are adequately capitalized, or 110 percent of their quarter-end public fund deposits if they are undercapitalized, or assigned to pledge 110 percent by the Office of the State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public funds bank depositories is available to repay deposits of public funds of government entities. Credit union deposits are insured up to \$250,000 under the NCUA. As of June 30, 2017, \$4,270,186 of the District's bank balances were covered by the PFCP, and \$1,431,535 of the credit union balances were covered by the PFCP for Credit Unions.

**Investments**

It is the policy of the District to follow state statutes governing cash management. Statutes authorize investing in bankers' acceptances, time certificates of deposit, repurchase agreements, obligations of the United States and its agencies and instrumentalities, and the Oregon State Treasurer's Local Government Investment Pool.

The State Treasurer's Local Government Investment Pool is not registered with the U.S. Securities and Exchange Commission as an investment company. The Oregon Revised Statutes and the Oregon Investment Council govern the State's investment policies. The State Treasurer is the investment officer for the Council, and is responsible for all funds in

the State Treasury. These funds must be invested, and the investments managed, as a prudent investor would, exercising reasonable care, skill, and caution.

Investments in the Fund are further governed by portfolio guidelines issued by the Oregon Short-Term Fund Board (OSTFB), which establishes diversification percentages and specifies the types and maturities of investments. The portfolio guidelines permit securities lending transactions, as well as investments, in repurchase agreements and reverse repurchase agreements. The fund was in compliance with all portfolio guidelines at June 30, 2017.

Amounts in the State Treasurer’s Local Government Investment Pool are not required to be collateralized. There is no material difference between the fair value of the District’s position in the State Treasurer’s Local Government Investment Pool and the value of the pool shares at June 30, 2017. There were no known violations of legal or contractual provisions for deposits and investments during the fiscal year.

Policies officially adopted by the District’s Board of Directors authorize investing in obligations of U.S. Government agencies, U.S. Government Sponsored Enterprises (USGSE), the U.S. Treasury, time certificates of deposit, repurchase agreements, money market investments, bankers’ acceptances, commercial paper, State of Oregon and local government securities, and the State Treasurer’s investment pool. The State Treasurer’s investment policies are governed by Oregon Revised Statutes and the Oregon Short-Term Fund Board (OSTFB).

As of June 30, 2017, the District had the following investments and maturities:

| Investment Type                   | Fair Value    | Investment Maturities (in months) |      |       |
|-----------------------------------|---------------|-----------------------------------|------|-------|
|                                   |               | Less than 3                       | 3-17 | 18-59 |
| State Treasurer's Investment Pool | \$ 29,501,388 | \$ 29,501,388                     | \$ - | \$ -  |

**Interest Rate Risk** As a means of limiting its exposure to fair value losses resulting from rising interest rates, the District’s investment policy allows only the purchase of investments that can be held to maturity.

**HILLSBORO SCHOOL DISTRICT 1J  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2017**

**2. CASH AND INVESTMENTS (Continued)**

**Investments (Continued)**

Oregon Revised Statutes require investments to not exceed a maturity of 18 months, except when the local government has adopted a written investment policy that was submitted to and reviewed by the OSTFB.

The District limits investment maturities as follows:

| <u>Maturity</u> | <u>Minimum to Mature</u> |
|-----------------|--------------------------|
| Under 3 months  | 25% minimum              |
| Under 18 months | 75% minimum              |
| Under 60 months | 100% minimum             |

Credit Risk – Neither the Oregon Revised Statutes nor the District’s investment policy limits investments as to credit rating for securities purchased from U.S. Government Agencies. The State Treasurer’s investment pool is unrated.

Oregon Revised Statutes require banker’s acceptances to be guaranteed by and carried on the books of a qualified financial institution, eligible for discount by the Federal Reserve System, and issued by a qualified financial institution whose short-term letter of credit rating is rated in the highest category by one or more nationally recognized statistical rating organizations.

Concentration of Credit Risk – To avoid incurring unreasonable risks inherent to over-investing in specific instruments or in individual financial institutions, the District’s investment policy sets maximum limits on the percentage of the portfolio that can be invested in any one type of security. At June 30, 2017, the District was in compliance with all percentage restrictions.

**3. RECEIVABLES**

Special revenue fund grants receivable are comprised of claims for reimbursement of costs under various federal and state grant programs. Other accounts receivable are mostly comprised of money due from Washington County. No allowance for uncollectible accounts has been recorded, because all receivables are considered by management to be collectible.

**6. CAPITAL LEASES**

The District entered into lease agreements as lessee for financing the acquisition of buses for student transportation. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the net present value of their future minimum lease payments as of the inception date. During the fiscal year, capital lease obligations increased from \$3.0 million to \$3.1 million due to the purchase of 10 new school buses. The leased buses have a cost of \$6.2 million, and a net book value of \$3.1 million, and accumulated depreciation of \$3.1 million at June 30, 2017. Amortization expense of the period is included in the depreciation expense. The capital lease obligations are paid by a Special Revenue Fund, which is funded by a transportation grant from the State School Fund.

In prior years, the District and certain of its predecessor districts defeased general obligation bonds by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's basic financial statements. As of June 30, 2017, all defeased bonds have been called and none remain outstanding.

**Other Long-Term Debt**

On April 9, 2014, the District signed promissory notes to purchase real property for the sum of \$1,500,000. The notes call for monthly principal and interest payments of \$34,205, beginning on May 11, 2014, and ending on April 11, 2018. The annual interest rate is 4.5 percent.

During the 2004-05 fiscal year, the District participated in pooled issuances of taxable pension obligation bonds to pay off a portion of the District's unfunded actuarial liability. The District issued \$102,850,000 in debt as part of a pooled issuance of \$458,620,000.

In May 2015, the District issued \$39.86 million in taxable pension obligation bonds to finance the District's estimated PERS unfunded actuarial liability. Bond proceeds were paid to the Public Employee Retirement System (PERS). An intercept agreement with the State of Oregon was required as a condition of issuance; therefore, a portion of State School Support is withheld on a monthly basis to repay debt. Annual principal and interest payments are made each June 30, beginning in June 2016 and ending June 2034.

**Other Long-Term Debt (Continued)**

The District recorded the amounts deposited with PERS as a deferred outflow of resources, as required by GASB 68 for contributions made after the measurement date. The reduction in pension expense resulting from the side account will be reflected as a reduction in the District's proportionate share of the PERS net pension liability or an increase in the District's proportionate share of the PERS net pension asset.

Except for the payment of its pension bond payments and additional charges when due, each participating school district has no obligation or liability to any other participating school district's pension bonds or liabilities to PERS.

**8. NET PENSION OBLIGATION (NPO)/OTHER POST-EMPLOYMENT BENEFITS (OPEB)/ TERMINATION BENEFITS**

The District maintains single employer post-employment benefit programs (commonly referred to as early retirement). These programs cover licensed and administrative personnel of the District, individual employees, and certain retired employees.

As established by employee contracts, retiree stipends are determined by employee group:

- Administrative personnel are not required to have retired prior to June 30, 2004, but must meet the same longevity and PERS criteria as licensed employees.
- The District will pay eligible administrative employees a monthly stipend of \$500 for four years or until the employee reaches age 65, whichever occurs first.
- For individual employees and retired employees of certain predecessor districts, the requirements of these benefits vary, but generally follow the benefits being paid under the current early retirement plans, plus group insurance.

**GASB Statement 27**

The District implemented GASB Statement 27, *Accounting and Financial Reporting by Employers for Pensions*, for the fiscal year ended June 30, 2008. This implementation allows the District to report its liability for other post-employment benefits consistent with established generally accepted accounting principles, and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements.

The total amounts paid to teachers and administrators retired under these programs was \$24,000 for the 2016-17 school year. The District covers these obligations through annual appropriations to an Early Retirement Trust Fund.

Program membership at year-end was no licensed, no classified, and six administrators.

Annual Pension Cost and Net Pension Obligation – The annual pension cost and net pension obligation is calculated based on the Annual Required Contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 27. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year, and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years.

The following table shows the excess over a period not to exceed 30 years, the components of the annual pension cost for the year ending June 30, 2017, amount actually contributed to the plan, and changes in the net pension obligation:

**Actuarial Methods and Assumptions - GASB Statement 27**

The annual required contribution (ARC) for the current year was determined as part of the July 1, 2015, actuarial valuation using the projected unit credit cost method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about mortality, claim cost, and the healthcare cost trend. The actuarial assumptions included: (a) a rate of return on investment of 4 percent; (b) overall payroll growth of 3.75 percent per year; (c) retirement rate assumptions; and (d) insurance premium trend rate of 7 percent, graded down by .5 percent the first year then .1 percent annually to 5 percent. Amounts determined regarding the funded plan status and annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations, and new estimates are made about the future. A separately issued NPO plan report is not available. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll, on a closed basis, over a period of two years.

Under this method, the expected accrued benefit of each participant at benefit commencement (reflecting future expected increases in salaries and medical premiums) is allocated in equal proportion over the participant's years of service from hire to retirement eligibility. The normal cost is the present value of benefits expected to accrue in the current year.

**Funding Status and Funding Progress - GASB Statement 27**

As of June 30, 2015, the actuarial accrued liability for benefits was \$60,834, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$60,834. The Annual Required Contribution (ARC) for June 30, 2017, was actuarially determined to be \$32,820.

The required schedule of funding process presented as required supplementary information provides multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time, relative to the actuarial accrued liability for benefits.

**GASB Statement 45**

The District implemented GASB Statement 45, *Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions*, for the fiscal year ended June 30, 2008. This implementation allows the District to report its liability for other post-employment benefits consistent with established generally accepted accounting principles and to reflect an actuarially determined liability for the present value of projected future benefits for retired and active employees on the financial statements.

Continued medical coverage of the eligible early retirees and their dependents is a benefit that is expected to continue indefinitely, in part because it is required by Oregon Statute.

**Annual OPEB Cost and Net OPEB Obligation (Insurance) - GASB Statement 45**

The annual OPEB cost and net OPEB obligation is calculated based on the Annual Required Contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45 using the projected unit credit actuarial method. The ARC represents a level of funding that is, if paid on an ongoing basis, projected to cover normal cost each year, and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. **Actuarial Methods and Assumptions - GASB Statement 45**

Projections of benefits for financial reporting purposes are based on the substantive plan in effect at the time of each valuation, and on the pattern of sharing of costs between the employer and plan members to that point. The annual required contribution (ARC) for the current year was determined as part of the July 1, 2015, actuarial valuation using the unit credit cost method. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. The actuarial methods and assumptions used are consistent with the long-term perspective of the calculations. Examples include assumptions about mortality, claim cost, and the healthcare cost trend. The actuarial assumptions included: (a) a rate of return on investment of 4 percent, (b) overall payroll growth of 3.75 percent per year, (c) retirement rate assumptions, and (d) insurance premium trend rate of 7 percent, graded down by .5 percent the first year and then .1 percent annually to 5 percent. Amounts determined regarding the funded status of the plan and annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. A separately issued OPEB plan report is not available. The unfunded actuarial accrued liability is being amortized as a level percentage of payrolls, on a closed basis, over a period of thirty years.

**Funding Status and Funding Progress - GASB Statement 45**

As of June 30, 2015, the actuarial accrued liability for benefits was \$16,808,855, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$16,808,855. The annual payroll for active employees covered by the plan in the actuarial valuation was \$112,829,351 for a ratio of UAAL to covered payroll of 14.9 percent. The Annual Required Contribution (ARC) for June 30, 2017, was actuarially determined to be \$1,799,784.

The required schedule of funding process presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time, relative to the actuarial accrued liability over benefits.

**8. NET PENSION OBLIGATION (NPO)/OTHER POST-EMPLOYMENT BENEFITS (OPEB)/ TERMINATION BENEFITS (Continued)**

**Termination Benefits**

A termination benefits program was established during 2010-11. The plan is, in substance, a single-employer defined benefit plan established under collective bargaining agreements.

As established by employee contracts, retiree stipends are determined by employee group:

- Full-time licensed employees who retired during the 2010-11 school year, and were at the top of Columns C, D, E, or F on the Licensed Salary Schedule were eligible for a \$750 per month stipend for a total of 24 months, or until the employee and spouse become eligible for Medicare coverage. This benefit was prorated based on FTE.
- Full-time classified and supervisory/technical employees who retired during the 2010-11 school year with 15 years of service in the Hillsboro School District, or were at the top of the Classified Salary Schedule were eligible for a \$450 per month stipend for a total of 24 months or until the employee and spouse become eligible for Medicare coverage. This benefit was prorated based on FTE.
- Full-time administrative employees who retired during the 2010-11 school year with 15 years of service in the Hillsboro School District, or at the top of the Administrative Salary Schedule, were eligible for a \$700 per month stipend for a total of 24 months or until the employee and spouse become eligible for Medicare coverage. This benefit was prorated based on FTE.

A new termination benefits program was established during 2012-13. The plan is, in substance, a single employer defined benefit plan established under collective bargaining agreements.

As established by employee contracts, retiree stipends are determined by employee group:

- Full-time licensed employees who retired during the 2012-13 school year, and were at the top of Columns C, D, E, or F on the Licensed Salary Schedule were eligible for a \$600 per month stipend for a total of 24 months or until the employee and spouse become eligible for Medicare coverage. This benefit was prorated based on FTE.

Program membership at year end was 16 licensed.

In accordance with GASB Statement 47, *Termination Benefits*, a liability has been determined for the plan. As of June 30, 2017, the District's potential liability for its termination benefits plan is \$0. No separate trust was established.

**9. PENSION PLAN**

**Plan Description**

The Oregon Public Employees Retirement System (PERS) consists of a single cost-sharing multiple-employer defined benefit plan. All benefits of the system are established by the legislature, pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Oregon PERS produces an independently audited Comprehensive Annual Financial Report which can be found at:

<http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>

**PERS Pension (Chapter 238)**

The ORS Chapter 238 Defined Benefit Plan is closed to new members hired on or after August 29, 2003.

- **Pension Benefits.** The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, and 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation, if it results in greater benefit results.
- **Death Benefits.** Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:
  - Member was employed by PERS employer at the time of death;
  - Member died within 120 days after termination of PERS-covered employment;
  - Member died as a result of injury sustained while employed in a PERS-covered job; or
  - Member was on an official leave of absence from a PERS-covered job at the time of death.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**9. PENSION PLAN (Continued)**

**PERS Pension (Chapter 238) (Continued)**

- **Disability Benefits.** A member with ten or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including PERS judge members) for disability benefits, regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.
  
- **Benefit Changes After Retirement.** Members may choose to continue participation in a variable equities investment account after retiring, and may experience annual benefit fluctuations due to changes in the market value equity investments. Under ORS 238.360, monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.0 percent.

**Oregon Public Service Retirement Plan Pension Program (OPSRP DB)**

The ORS Chapter 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

- **Pension Benefits.** This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:
  - Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.
  - General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years; the date the member reaches normal retirement age; and, if the pension program is terminated, the date on which termination becomes effective.

**FOR THE YEAR ENDED JUNE 30, 2017**

**9. PENSION PLAN (Continued)**

**Oregon Public Service Retirement Plan Pension Program (OPSRP DB) (Continued)**

- **Death Benefits.** Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.
- **Disability Benefits.** A member who has accrued ten or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary, determined as of the last full month of employment before the disability occurred.
- **Benefit Changes After Retirement.** Under ORS 238A.210, monthly benefits are adjusted annually through cost-of-living changes. The cap on the (COLA) will vary based on the amount of the annual benefit.

**Contributions**

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. The funding policy applies to the PERS Defined Benefit Plan and the Other Post-Employment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2013 actuarial valuation, which became effective July 1, 2015. The State of Oregon and certain schools, community colleges, and political subdivisions have made unfunded actuarial liability payments, and their rates have been reduced. Employer contributions for the year ended June 30, 2017, were \$9,360,920, excluding amounts to fund employer specific liabilities. Approximately \$10,361,459 was charged for the year ended June 30, 2017, as PERS benefits expenditures to be used for bond payments as they become due. Approximately \$27,502,543 was recognized as employer pension expense during the reporting period.

At June 30, 2017, the District reported a net pension liability of \$167,229,488 for its proportionate share of the net pension liability. The pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan, relative to the projected contributions of all participating

**Actuarial Valuations**

The employer contribution rates effective July 1, 2015, through June 30, 2017, were set using the entry age normal actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (estimated amount necessary to finance benefits earned by employees during the current service year), and (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year); (b) an actuarially determined amount for funding a disability benefit component; and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

The actuarial valuation calculations are based on the benefits provided under the terms of the plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members. The December 31, 2014 Actuarial Valuation was used to develop the GASB 67 financial reporting results for the Defined Benefits programs as of June 30, 2016.

**9. PENSION PLAN (Continued)**

**Actuarial Methods and Assumptions (Continued)**

- **Discount Rate.** The discount rate used to measure the total pension liability was 7.50 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from the plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.
- **Long-Term Expected Rate of Return.** To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time, based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

**9. PENSION PLAN (Continued)**

- **Depletion Date Projection.** GASB 67 generally requires that a blended discount rate be used to measure the Total Pension Liability (the Actuarial Accrued Liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's Fiduciary Net Position (fair market value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the Fiduciary Net Position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 67 will often require that the actuary perform complex projections of future benefit payments and asset values. GASB 67 (paragraph 43) does allow for alternative evaluations of projected solvency, if such evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation of sufficiency for Oregon PERS:

- Oregon PERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.
- GASB 67 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate of return and there are no future changes in the plan provisions of actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience that might impact the plan's funded position.

Based on these circumstances, the detailed depletion date projections outlined in GASB 67 would clearly indicate that the Fiduciary Net Position is always projected to be sufficient to cover benefit payments and administrative expenses.

**10. RISK MANAGEMENT**

The District carries commercial insurance for the various risks it is exposed to: torts; theft or damage to, and destruction of, assets; errors and omissions; and natural disasters. The District does not engage in risk-financing activities where the risk is retained (self-insurance).

Settlements have not exceeded insurance coverage for the each of the three years ending June 30, 2017, 2016, and 2015.

**11. COMMITMENTS AND CONTINGENCIES**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by these agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the District. The amount of expenditures that may be disallowed by the grantor, if any, cannot be determined at this time, although District management expects such amounts, if any, to be immaterial.

The District, in the regular course of business, is a defendant in various lawsuits. The likely outcome of these lawsuits is not presently determinable. However, in the opinion of the District’s management, the resolution of these matters will not have a materially adverse effect on the financial condition of the District.

**HILLSBORO SCHOOL DISTRICT 1J  
 NOTES TO BASIC FINANCIAL STATEMENTS  
 FOR THE YEAR ENDED JUNE 30, 2017**

**11. COMMITMENTS AND CONTINGENCIES (Continued)**

The District receives a substantial portion of its operating funding from the State of Oregon. State funding is determined through statewide revenue projections, and is paid to individual school districts based on pupil counts and other factors in the State School Fund revenue formula. Since these projections and pupil counts fluctuate, they can cause the District to either have increases or decreases in revenue. Due to these future uncertainties at the state level, the future effect on the District’s operations cannot be determined.

**12. PREPAID EXPENSES**

The District has various prepaid expenses throughout the year that consist of UPS and postage fees, health insurance premiums paid by former employees, and miscellaneous other charges due to timing differences. Total prepaid expenses as of June 30, 2017, were as follows:

|              |            |
|--------------|------------|
| General Fund | \$ 245,479 |
|--------------|------------|

**13. TAX ABATEMENTS**

Property tax abatements result from agreements between Washington County and others, which impact the Districts levied property taxes. As of June 30, 2017, the District was affected by tax abatement agreements made by Washington County through three programs.

| Exemption Type                              | Tax Abatement Amount |
|---|----------------------|
| Enterprise Zone (ORS 285C.175)              | \$3,349,000          |

**14. NEW ACCOUNTING STANDARDS IMPLEMENTED**

For the fiscal year ended June 30, 2017, the District implemented the following new accounting standards:

- **GASB Statement 73**, *Pension Transition for Contributions Made Subsequent to the Measurement Date Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. The statement establishes accounting and financial reporting requirements related to pensions provided by governments that are not within the scope of GASB Statement 68, extending that approach to all pensions. The statement is effective for fiscal years beginning after June 15, 2016.
- **GASB Statement 74**, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. The statement establishes accounting and financial reporting requirements related to other post-employment benefits plans, replacing GASB Statements 43 and 57. The statement is effective for fiscal years beginning after June 15, 2016.
- **GASB Statement 77**, *Tax Abatement Disclosures*. The statement establishes accounting and reporting guidance on tax abatement agreements for governments. The statement is effective for fiscal years beginning after December 15, 2015.
- **GASB Statement 78**, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that meets certain criteria. The statement is effective for fiscal years beginning after December 15, 2015.
- **GASB Statement 79**, *Certain External Investment Pools and Pool Participants*. This Statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. The statement is effective for fiscal years beginning after December 15, 2015.
- **GASB Statement 80**, *Blending Requirements for Certain Component Units – an amendment of GASB Statement 14*. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The statement is effective for fiscal years beginning after June 15, 2016.

**HILLSBORO SCHOOL DISTRICT 1J**  
**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**14. NEW ACCOUNTING STANDARDS IMPLEMENTED (Continued)**

- **GASB Statement 82**, *Pension Issues—an amendment of GASB Statements 67, 68, and 73*. This Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information; (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes; and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The statement is effective for fiscal years beginning after June 15, 2016.

**15. NEW PRONOUNCEMENTS**

The District will implement new GASB pronouncements no later than the required fiscal year. Management has not determined the effect on the financial statements from implementing any of the following pronouncements.

- **GASB Statement 75**, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The statement establishes accounting and financial reporting requirements related to other post-employment benefits (OPEB), replacing GASB Statements 45 and 57. The statement is effective for fiscal years beginning after June 15, 2017.
- **GASB Statement 81**, *Irrevocable Split-Interest Agreements*. This Statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this Statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. The statement is effective for fiscal years beginning after December 15, 2016.
- **GASB Statement 83**, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible assets should recognize a liability based on the guidance in the Statement. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018.

**NOTES TO BASIC FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2017**

**15. NEW PRONOUNCEMENTS (Continued)**

- **GASB Statement 84**, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018.
- **GASB Statement 85**, *Omnibus 2017*. The objective of the Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. The provisions of this Statement are effective for periods beginning after June 15, 2017.
- **GASB Statement 86**, *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources-resources other than the proceeds of refunding debt-are placed in an irrevocable trust for the sole purpose of extinguishing debt. The requirements of the statement are effective for reporting periods beginning after June 15, 2017.
- **GASB Statement 87**, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. For reporting periods beginning after December 15, 2019.

**16. SUBSEQUENT EVENTS**

On November 7, 2017, voters approved Measure 34-278 by 66.58% (unofficial results). The measure provides \$408 million in general obligation bond sales for Hillsboro Schools. The bond's passage means that work will begin immediately to prepare for the bond sale and for the detailed planning and implementation of projects, which will include safety and security enhancements, existing infrastructure updates, technology investments, and career-related program expansions, as well as new construction to accommodate future growth. All projects identified in the bond program will be completed within five years.

ORS 328.245 establishes a parameter of bonded indebtedness for school districts. Aggregates governed by real market values of all taxable properties within the District are based on the following:

For each grade from Kindergarten to Eighth for which the District operates schools, fifty-five one-hundredths of one percent (0.0055) of the real market value.

For each grade from Ninth to Twelfth for which the District operates schools, seventy-five one-hundredths of one percent (0.0075) of the real market value.

### ***INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS***

School Board  
Hillsboro School District 1J  
Hillsboro, Oregon

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Hillsboro School District 1J, Washington County, Oregon, (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 29, 2017.

#### ***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of

our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### ***INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE***

School Board  
Hillsboro School District 1J  
Hillsboro, Oregon

#### ***Report on Compliance for Each Major Federal Program***

We have audited Hillsboro School District 1J's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### ***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### ***Opinion on Each Major Federal Program***

In our opinion, Hillsboro School District 1J complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

#### ***Report on Internal Control over Compliance***

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal

program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Purpose of this Report***

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

*HILLSBORO SCHOOL DISTRICT 1J*  
*NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS*  
*YEAR ENDED JUNE 30, 2017*

---

*Purpose of the Schedule*

The accompanying Schedule of Expenditures of Federal Awards (“the Schedule”) is a supplementary schedule to the District’s financial statements and is presented for purposes of additional analysis. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (“Uniform Guidance”). Because the Schedule presents only a selected portion of the activities of the District, it is not intended to and does not present the financial position, changes in net position, or the operating funds’ revenues, expenditures and changes in fund balances of the District.

*SIGNIFICANT ACCOUNTING POLICIES*

*Basis of Presentation*

The information in the Schedule is presented in accordance with the cost principles contained in the Uniform Guidance and OMB Circular A-87 *Cost Principles for State, Local and Indian Tribal Governments*, where applicable, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

*Indirect Cost Rate*

The District has not elected to use the 10 percent de minimis indirect cost rate as allowed under Uniform Guidance.

*Federal Financial Assistance*

Pursuant to Uniform Guidance, federal financial assistance is defined as assistance provided by a federal agency, either directly or indirectly, in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance or direct appropriations. Accordingly, non-monetary federal assistance, including federal surplus property, is included in federal financial assistance and, therefore, is reported on the Schedule, if applicable. Federal financial assistance does not include direct federal cash assistance to individuals. Solicited contracts between the state and federal government for which the federal government procures tangible goods or services are not considered to be federal financial assistance.

*Major Programs*

Uniform Guidance establishes criteria to be used in defining major federal financial assistance programs. Major programs for the District are those programs selected for testing by the auditor using a risk-assessment model, as well as certain minimum expenditure requirements, as outlined in Uniform Guidance. Programs with similar requirements may be grouped into a cluster for testing purposes.

*Reporting Entity*

The reporting entity is fully described in notes to the financial statements. Additionally, the Schedule includes all federal programs administered by the District for the year ended June 30, 2017.

*Revenue and Expenditure Recognition*

The receipt and expenditure of federal awards are accounted for under the modified accrual basis of accounting. Revenues are recorded as received in cash or on the accrual basis where measurable and available. Expenditures are recorded when the liability is incurred. Donated commodities are valued at their estimated fair value.

### ***INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS***

School Board  
Hillsboro School District 1J  
Hillsboro, Oregon

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the basic financial statements of Hillsboro School District 1J, Washington County, Oregon (the District) as of and for the year ended June 30, 2017, and have issued our report thereon dated November 29, 2017.

#### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- **Deposit of public funds with financial institutions (ORS Chapter 295).**
- **Indebtedness limitations, restrictions and repayment.**
- **Budgets legally required (ORS Chapter 294).**
- **Insurance and fidelity bonds in force or required by law.**
- **Programs funded from outside sources.**
- **Authorized investment of surplus funds (ORS Chapter 294).**
- **Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).**
- **State school fund factors and calculation.**

In connection with our testing nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, except as follows:

- Expenditures exceeded appropriations as described in the notes to the financial statements.

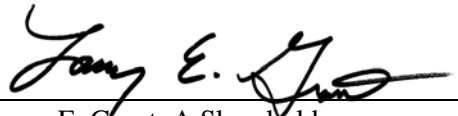

***Internal Control***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

***Restriction on Use***

This report is intended solely for the information and use of the school board and management of the Hillsboro School District 1J and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.
