 - May 10, 2016, Work Session

HILLSBORO SCHOOL DISTRICT 1J
April 5, 2016
LONG-RANGE FACILITY PLAN REPORT

SITUATION

Frank Angelo (Angelo Planning Group) and the District's Chief Financial Officer, Adam Stewart, will present a progress update on the District Long-Range Facility Plan. Per ORS 195.110, the completed Facility Plan will include the following components:

- Student population projections
- Objective criteria for assessing school capacity
- Characteristics of facility sites
- Physical improvements for existing facilities
- Alternatives to construction and renovation
- Estimation of land to meet 10-year need
- 10-year Capital Improvement Program (CIP)
- Site acquisition program
- Financial plans to meet facility needs

Tonight's report will include updates on several of these components, as well as the timeline for completion and presentation to the Board for final approval.

RECOMMENDATION

The Superintendent recommends the Board of Directors listen to this report and ask any questions they may have.

HILLSBORO SCHOOL DISTRICT 1J
April 5, 2016
WASHINGTON COUNTY EMERGENCY COMMUNICATIONS SYSTEM
BOND PRESENTATION

SITUATION

Representatives from Washington County's partner agencies will present information regarding Washington County's Emergency Communications System bond measure, which will be on the May 2016 ballot. This report is informational and does not require Board action.

Additional information about the measure is available at the following link:
<http://wcemergencycommunications.blogspot.com/>.

RECOMMENDATION

The Superintendent recommends the Board of Directors listen to this report and ask any questions they may have.

HILLSBORO SCHOOL DISTRICT 1J
April 5, 2016
ENGLISH LANGUAGE LEARNER PROFESSIONAL DEVELOPMENT /
DUAL LANGUAGE UPDATE

SITUATION

Hillsboro School District is a leader in systematically developing capacity to support English learners – accelerating the rate at which they acquire academic English language skills, and accessing rigorous academic content for them, from their first day of kindergarten – despite the challenges of learning a second language.

This report will provide an update on the District's current investments in professional learning, feedback from teachers, and data on student achievement, for the purpose of reflecting on the District's progress in meeting the needs of English learners.

RECOMMENDATION

The Superintendent recommends the Board of Directors listen to this report and ask any questions they may have.

HILLSBORO SCHOOL DISTRICT 1J
April 5, 2016
COURSE OFFERINGS AT GLENCOE AND CENTURY HIGH SCHOOLS

SITUATION

The implementation of Common Core State Standards (CCSS), and the publication of the District's first common course catalogue for District high schools, has resulted in some changes in course offerings at each high school, and raised questions and concerns within the high school communities.

Team members from the Office for School Performance and Glencoe High School hosted an information-sharing and listening session at Glencoe High School on March 29; and on April 6, another session will be held at Century High School. These events provide an opportunity for families to ask questions and express any concerns they may have regarding the changes in course offerings at their schools. Feedback from students' families will assist District leaders in refining professional development plans and communications with community members into the spring and summer.

The focus of questions and concerns expressed by Glencoe parents are specifically related to the elimination of the following courses: Advanced 9-12 grade English and Advanced Geometry and Advanced Algebra 2. Parents have also expressed concerns about meeting the needs of advanced learners within more heterogeneous learning environments, and asked questions about college admissions.

Alignment to CCSS requires the District to offer within its standard grade-level courses the same level of performance formerly associated with "advanced" offerings; and the District continues to focus on offering advanced placement and dual articulated courses, and supporting students who are enrolling in these courses. This report will include information regarding the course offering changes, and the District's plans for meeting the needs of students and their families.

RECOMMENDATION

The Superintendent recommends the Board of Directors listen to this report and ask any questions they may have.

2016-2021 STRATEGIC PLAN FEEDBACK

SITUATION

During the March 15 Board work session, staff presented a draft version of the 2016-17 Work Plan & SMART Goals for the District's Strategic Plan. This document is intended to provide a more detailed annual look at the work that has taken place within each focus area, as well as plans for the coming year. In addition, a set of top system goals has been identified.

During tonight's meeting, staff will discuss this document with the Board, and request feedback regarding whether it meets Board members' needs. Staff will also discuss the overall Strategic Plan, and receive feedback from Board members regarding any concerns or suggestions they may have. Feedback that has been received from patrons, and a draft Q&A document will be shared with the Board prior to the meeting.

Following this Board meeting, the next steps will be refining the plan, sharing the new draft documents with patrons, and receiving their feedback. To that end, another open house event will be held in April.

Final revisions to the plan will be completed by mid-May, and the plan will be presented to the Board for first reading on May 24. The plan will be presented to the Board for approval on June 14.

RECOMMENDATION

The Superintendent recommends the Board of Directors review the 2016-2021 Strategic Plan materials, specifically the 2016-17 Work Plan & SMART Goals document, provide feedback, and ask any questions they may have.

HILLSBORO SCHOOL DISTRICT 1J
April 5, 2016
DETERMINE LANGUAGE REGARDING FAMILY PLANNING SERVICES AT
THE SCHOOL-BASED HEALTH CENTER FOR BOARD POLICY
JHC: STUDENT HEALTH SERVICES AND REQUIREMENTS

SITUATION

During the March 15 School Board meeting, the Board heard public testimony regarding whether or not the School-Based Health Center (SBHC) at Century High School should prescribe and/or dispense contraceptives. Tonight, the Board will discuss this public input (as well as written testimony that has been received), along with additional information regarding this topic, with the goal of preparing draft language for Board policy JHC: Student Health Services and Requirements. Board members may select and / or modify the suggested language options that are included in the attached draft policy update.

Draft policy revisions are scheduled to be presented for first reading during the April 26 Board meeting, and final adoption of the revised policy is scheduled during the May 24 Board meeting.

RECOMMENDATION

The Superintendent recommends the Board of Directors discuss public testimony that has been submitted and any other relevant information, prepare draft policy language, specifying whether or not contraceptives will be prescribed and/or dispensed at the Century High School SBHC, and approve the draft policy language, scheduled to be presented for first reading on April 26.

Student Health Services and Requirements

Although the District's primary responsibility is to educate students, the student's health and general welfare are also a major Board concern. The Board believes school programs should be conducted in a manner that protects and enhances student and employee health and is consistent with good health practices.

The nurse(s) employed by the District shall be licensed to practice as a registered nurse or nurse practitioner in Oregon, and will function as an integral member(s) of the instructional staff, serving as a resource person(s) to teachers in securing appropriate information and materials on health-related topics.

The District shall maintain a prevention-oriented health services program which provides:

1. Pertinent health information on the students, as required by Oregon statutes or regulations;
2. Health appraisal to include screening for possible vision or hearing problems;
3. Health counseling for students and parents when appropriate;
4. Health care and first-aid assistance that is appropriately supervised and isolates the sick or injured child from the student body;
5. Control and prevention of communicable diseases as required by the State Health Division and the county health department;
6. Assistance for students in taking prescribed medication according to established District procedures;
7. Services for students who are medically fragile or have special health care needs;
8. Integration of school health services with school health education programs.

The Board directs its District health staff to coordinate with health personnel from other public agencies in matters pertaining to health instruction or the general health of students and employees.

In accordance with the requirements of the No Child Left Behind Act of 2001, the District recognizes its responsibility to notify parents in advance of any nonemergency, invasive physical examination¹ or screening that is required as a condition of attendance; administered and

¹The term "invasive physical examination," as defined by law, means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into

scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student or other students.

Notification will be provided at least annually at the beginning of the school year or when enrolling students for the first time in school and will include the specific or approximate dates during the school year when such activities are scheduled or expected to be scheduled.

School-based health clinics will provide health services in accordance with Oregon laws and best medical practices. School-based health providers shall observe the District's Health curriculum and the high school learning targets in Sexual Health and the Prevention and Control of Disease, which are aligned with the Oregon State Standards in Health Education. The District promotes abstinence as the safest, most effective method of protection from HPV, STD/HIV, Hepatitis B and C, and pregnancy.

Options:

{ ... Will... / ... Will Not... }	
School-based health providers may also provide accurate and balanced information, resources, and services associated with any contraceptive or disease reduction method, including dispensing contraceptive products and explaining proper use and effectiveness.	School-based health providers in the Hillsboro School District may also provide accurate and balance information, but will not prescribe or dispense contraceptives.

Procedures shall be developed and implemented to carry out this policy. All District employees will be apprised of their responsibilities in this area. Parents shall have the opportunity to request their students be exempt from participation in vision or hearing screening. The District will abide by those requests.

END OF POLICY
