Week of November 5, 2012

District News: Volunteers Needed! Back in September, we told you about our wonderful new ‘volunteer’ Volunteer Coordinators, [Coleen Garrett](#) and [Katie Russell-Willis](#). These ladies have been meeting with schools and collecting project ideas, now they need your help to get the work completed! Our [Donations, Volunteer Opportunities & Partnerships](#) page currently shows dynamic information about volunteer opportunities—schools complete a web form and their project description automatically populates to the page. Visit the site often to find out about new ways you can help out. If your organization would like to take on a project or even ‘adopt’ a school, but you would like some more information about what such an arrangement might entail, please feel free to contact Coleen and Katie to schedule a time for them to come out and talk to you and/or your group. They can even help you arrange a custom project! Thank you in advance for your assistance and support, and special thanks to all the volunteers who are already making a difference in our schools!

Weigh in on Hillsboro’s Future Water Supply. The City of Hillsboro Utilities Commission is holding [community workshops](#) on November 7 & November 14 from 6-7:30pm to share information about the future of our city’s water supply. Food and drinks are provided, along with free childcare (ages 2-12, no infants). November 7 (English & Spanish): Lincoln Street Elementary School (801 NE Lincoln St.); November 14: Main Library (2850 NE Brookwood Parkway). Comments can also be submitted to www.hillsborowatersupply.org or 503-615-6702.

Calendar Alerts. End of quarter one 11/8, no school—all students—11/9, grade preparation, and 11/12, Veterans Day.
