School Goals

We emphasize academic rigor through the 5Ds Instructional framework with a focus on the use of effective, research-based instructional practices, and the continual analysis of on-track data. In addition, we focus on developing and implementing academic language by implementing AVID's Writing, Inquiry, Collaboration, Organization, and Reading strategies. We will strengthen student connection to our school by building learning alliances and an equitable, inclusive school climate through culturally responsive practices and trauma-informed care.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2027. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

We recognize the diversity and worth of all students, individuals, and groups; and, are committed to both educating and providing a safe and inclusive space for everyone, regardless of their race, color, religion, immigration status, or any other basis. We believe that students learn best when they feel safe and valued. Our staff is skilled, caring, and dedicated to fostering each student's academic and personal growth in a supportive and welcoming environment.
