

**Making sure our school campuses
are safe and secure for our students,
staff and families is a chief priority**

Unfortunately, some of our schools lack important modern safety features such as doors that lock from the inside, emergency alert systems, and security cameras.

The 2017 Hillsboro bond will fix these critical safety and security issues.

If passed, the Bond would prioritize safety and security by equipping buildings with:

Modern Emergency Communications Systems and Security Cameras

Seismic Improvements and Upgrades

Classroom Doors That Lock From the Inside

Secured and Controlled Entrances

If passed, the bond would renew the existing tax rate (\$2.24/\$1000 assessed value), meaning no increase in current property tax rates.
