School Goals

In the 2021-22 school year, we focused on academic goals for differentiated rigor and student support in math and literacy using MAPs benchmark assessments and social-emotional strategies and skill sets. School-wide initiatives focused on accelerated learning strategies to build academic and social skills as we returned to in-person instruction. Differentiated small group instruction was prioritized. Students were able to celebrate their academic achievements during our EL Night Celebration.

State Goals

The Oregon Department of Education is partnering with school districts and local communities to ensure a 90% on-time, four year graduation rate by 2025. To progress toward this goal, the state will prioritize efforts to improve attendance, provide a well-rounded education, invest in implementing culturally responsive practices, and promote continuous improvement to close opportunity and achievement gaps for historically and currently underserved students.

Safe & Welcoming Environment

As a small community, we recognize the diversity and worth of all students. We are committed to providing a safe and inclusive space for everyone, regardless of their race, color, religion, language, immigration status, ability or any other basis. We believe students learn best when they are safe and have student agency. Within classrooms, teachers use norms, character expectations, and habits of scholarship, as well as clear structures and strategies for teaching collaborative skills and conflict resolution, to ensure emotional safety and to promote courage and risk taking in intellectual adventure.

About Our School

BULLYING, HARASSMENT, AND SAFETY POLICIES

Our number one priority is the physical and emotional safety of our students. To that end, we have a multi-tiered approach including a network of professionals, policies, procedures and systems in place to ensure the safety and security of our school community. Through the comprehensive counseling program, students receive individual, small group, and classroom guidance on bullying and harassment prevention. Additional character building, conflict mediation, and restorative justice programming emphasize the importance of building positive relationships, empathy, and compassion, which further works to mitigate unsafe and harmful behaviors.

EXTRACURRICULAR ACTIVITIES

City View offers a variety of after-school activities, including Chess Club, Math Gamers, and community service activities. Students can also access Hillsboro City sports at their neighborhood school. We are always open to volunteers who would like to work with our students to provide new learning experiences.

PARENT ENGAGEMENT

Parents are asked to be an integral part of their child's successful learning process at City View Charter School. Volunteerism is highly recommended and helps build connections through school events, traditions, fieldwork and overnight trips. Parents collaborate with their student and teacher to create learning goals that focus on academic and character growth for the year. EL schools explicitly recognize that families care about their children's education, bring strengths and add value to the community. In addition, schools build and sustain partnerships with community organizations and cultural institutions.

COMMUNITY ENGAGEMENT

City View engages in a variety of service projects each year, both as individual classes and as an all-school community. All students participate in EL Education's 'Better World Day' to improve a local organization or individual in need. As part of our community engagement, we partner with local organizations to make our content authentic and purposeful. Each classroom attends multiple local fieldwork opportunities, which extend curriculum beyond the walls of the classroom, as well as overnight trips.
